

UNIVERSITY OF NORTH TEXAS G. BRINT RYAN COLLEGE OF BUSINESS

MBA ORGANIZATIONAL BEHAVIOR & HUMAN RESOURCE MANAGEMENT

In the MBA with a concentration in Organizational Behavior and Human Resource Management, you will examine the business organization in terms of structure, process, and behavior. The concentration's primary focus is on human resources and their contribution to a firm's competitive advantage. This concentration includes seminars that cover the practices and skills necessary for the primary human resources management functions, such as compensation, selection and placement, and labor relations. Other seminars provide an in-depth study of leadership and the process of organizational change.

Career opportunities after you complete the MBA program through the Department of Management are abundant. Individuals with established career paths will have the opportunity to gain the broader, more general perspective necessary for promotion to top managerial positions. As a professional such as a training and development specialist, equal employment opportunity compliance officer, and compensations and benefits manager you will find your career specialization reinforced with this degree.
