

In 2008-09, UNT will offer two **FREE** 1-hour courses to prepare future middle- and high-school teachers of mathematics, science, and computer science:

Teach North Texas will introduce you to the teaching profession AND allow you to graduate on time in your major!

More information about **TEACH NORTH TEXAS** may be found at our website, www.tnt.unt.edu

UCRS 1980

Secondary Teacher Education Preparation (STEP) 1: "Inquiry Approaches to Teaching"

UCRS 2980

Secondary Teacher Education Preparation (STEP) 2: "Inquiry-Based Lesson Design"

These courses involve 80 minutes of lecture per week and can count toward teacher certification and graduation. You will

- Learn under the direction of an experienced secondary teacher
- Actually teach elementary and middle-school students 3 or 4 times each semester under the mentorship of classroom teachers.

TEACH NORTH TEXAS

The United States is facing a critical shortage of math and science teachers.

24% of secondary science classes in Texas are taught by teachers without appropriate science certification.

Consider maximizing your career options through teaching!

Yes! I would like more information about **TEACH NORTH TEXAS** .
