

UNT JAMP Camp Prepares New UNT Pre-Medical Students to Apply to the UNT Joint Admission Medical Program

What is JAMP?

The Joint Admission Medical Program (JAMP) is a special program created by the Texas Legislature to support and encourage highly qualified, economically disadvantaged Texas resident students pursuing a medical education.

Funded through the Texas Higher Education Coordinating Board, JAMP is a unique partnership between all nine Texas medical schools and sixty-seven public and private four-year undergraduate institutions.

Since 2003, JAMP has been helping Texas students achieve their dreams with guaranteed admission to one of the state's nine medical schools, financial, and academic support to help them get there, and access to resources that allow them to excel.
