

# **APPENDIX L**

## **Comparison of Data Sets**

---

## COMPARISON OF DATA SETS

### Definitions

Required Data Set (R) - Commission-approved programs must record the required data set items using the codes and definitions specified in the FORDS manual.

Supplementary Data Set (S) - The supplementary data set contains additional data items that are important for the efficient operation of a cancer registry.

Surveillance, Epidemiology, and End Results Program (SEER) - Required data elements for a central registry affiliated with the National Cancer Institute's SEER Program.

National Program of Cancer Registries (NPCR) - Required and recommended data elements for state cancer registries participating in the National Program of Cancer Registries of the Centers for DiseaseControl and Prevention.

Commission on Cancer (CoC) - Refers to requirements and recommendations of the Commission on Cancer of ACoS.

Texas Cancer Registry (TCR) - Refers to the requirements and recommendations of the Texas Cancer Registry.

**Codes for Recommendations: A blank field indicates that this data field is not currently collected by the TCR and other entities.**

**R = required**

**RH= Historically collected and currently transmitted**

**RC= Collected by SEER from CoC-approved hospitals**

**RS= Required, site specific**

**S = Supplementary/recommended**

**D = Derived**

**x = When available**

**^ = These text may be met with one or several text block fields**

**. = Not in the data set but available**

**# = Central registries may code using 1998 SEER or COC**

C - Collect  
T - Transmit

These data items are collected  
These data items are collected and transmitted
