

OSR Reporting

Outreach, screening and referral (OSR) contractors should ensure that monthly performance measures reflect unduplicated numbers of “adults identified and referred” and “youth identified and referred.” The BHIPS Referral Screen is designed to capture the numbers and specifics of each referral. If you have any questions about required reporting, please contact Brad Bergeson at 800/832-9623, ext. 6655. Questions about Behavioral Health Integrated Provider System should be referred to the BHIPS help line: 866/373-1253.
