

Texas Parks and

Wildlife Department

wants to recognize your angling achievement.

If your catch qualifies for our awards program, you will receive a certificate with gold embossed state seal. Your achievement will be included in official reports that are sent to newspapers and magazines. Photos submitted with applications may be selected for display at the Texas Freshwater Fisheries Center (TFFC), Sea Center Texas and on the TPWD Web site.

Look inside to find out how to enter.

PROGRAM RULES AND

APPLICATION FORM

A W A R D C A T E G O R I E S

RECORDS BY WEIGHT

STATE RECORDS

Public Waters

Rod and Reel – Largest fish of a species caught from Texas public waters by any method of rod and reel fishing.

Fly Fishing – Largest fish of a species caught from Texas public waters by fly fishing methods using artificial flies.

Bow Fishing – Largest fish of a species caught from Texas public waters by bow fishing.

Other – Largest fish of a species caught from Texas public waters by any other legal method, excluding nets.

Private Waters

Rod and Reel – Largest fish of a species caught from Texas private waters by any method of rod and reel fishing.

Fly Fishing – Largest fish of a species caught from Texas private waters by fly fishing methods using artificial flies.

Bow Fishing – Largest fish of a species caught from Texas private waters by bow fishing.

WATER BODY RECORDS

Rod and Reel – Largest fish of a species caught from a particular Texas public water body by any method of rod and reel fishing.

Fly Fishing – Largest fish of a species caught from a particular Texas public water body by fly fishing methods using artificial flies.

Bow Fishing – Largest fish of a species caught from a particular Texas public water body by bow fishing.

All-Tackle – Largest fish of a species caught from a particular Texas public water body by any other legal method, excluding nets.

RECORDS BY LENGTH

STATE CATCH AND RELEASE RECORDS

Recognition for the catch and live release of the longest fish of a species from Texas public waters.

Rod and Reel – Longest fish of a species caught by any method of rod and reel fishing.

Fly Fishing – Longest fish of a species caught by fly fishing methods using artificial flies.

1. Catch must meet or exceed minimum length for a Big Fish Award (see next column).
2. A witness to live release is required.
3. Measure the fish, take photos and return it to the water quickly. Weighing is optional.
4. Keep the fish in water as much as possible prior to release. Remove hook with pliers or cut the line. Gently place the fish back into the water. Do not hang the fish on a stringer or gaff. If necessary, revive the fish by holding it upright in the water and moving it back and forth, forcing water through its gills.

FIRST FISH AWARD

Recognition for the first fish caught by an angler of any age.

OUTSTANDING ANGLER

Any catch that does not meet requirements of other award categories but deserves recognition.

BIG FISH AWARD

Recognition for catching a trophy class fish of selected species. Catch must meet or exceed minimum length requirements.

FRESHWATER SPECIES

Species	Min. Length	Species	Min. Length
Bass, Guadalupe	14 inches	Catfish, Blue	36 inches
Bass, Hybrid	25 inches	Catfish, Channel	30 inches
Bass, Largemouth	21 inches	Catfish, Flathead	45 inches
Bass, Smallmouth	18 inches	Crappie, Black	15 inches
Bass, Spotted	16 inches	Crappie, White	15 inches
Bass, Striped	35 inches	Sunfish	10 inches
Bass, White	15 inches	Trout, Rainbow	15 inches
Bluegill	10 inches	Walleye	25 inches

SALTWATER SPECIES

Species	Min. Length	Species	Min. Length
Amberjack, Greater	42 inches	Mackerel, King	40 inches
Catfish, Garftopsail	20 inches	Marlin, Blue	137 inches
Croaker, Atlantic	15 inches	Sailfish	84 inches
Cobia (Ling)	40 inches	Seatrout, Sand	14 inches
Dolphin (Mahi Mahi)	30 inches	Seatrout, Spotted	20 inches
Drum, Black	20 inches	Sheepshead	18 inches
Drum, Red	25 inches	Snapper, Red	18 inches
Flounder	17 inches	Snook	26 inches
Jack, Crevalle	36 inches	Tarpon	80 inches

ELITE ANGLER

A one-time achievement award for an angler who catches trophy class fish of five different species. To be eligible, an angler must earn five freshwater OR five saltwater Big Fish Awards.

1. Fish caught on or after May 1, 2004 will count toward Elite Angler status.
2. There is no time limit for catching the five trophy fish.
3. Anglers who qualify should contact Joedy Gray at (512) 389-8037 or at: anglers@tpwd.state.tx.us

ANGLER RECOGNITION AWARD APPLICATION

Review the current Texas Parks and Wildlife Outdoor Annual for statewide size, bag and possession limits before going fishing. Read the information/instructions on the application thoroughly. Complete the information below (please print legibly) and return to: Angler Recognition Awards, Attn: Joedy Gray - IF, Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, Texas 78744. Applications must be received by the Texas Parks and Wildlife Department within 60 days of the catch date.

The following information must be completed for all award categories.

Angler: _____ Age: _____ Birthdate: ____/____/____
E-mail: _____ Home Telephone No.: (____) _____
Address: _____
City: _____ State: _____ Zip: _____ Fishing License No.: _____
Species: _____ Catch Date: ____/____/____ Tag number on fish (if present): _____
Water Body (lake, bay, etc.): _____ County: _____
Gear type (check one and complete): Bow & Arrow Trotline Rod and Reel – what lure/bait was used: _____
 Other: _____ Fly Fishing (artificial flies only) – what type was used: _____
Check all categories that may apply: Awards by Weight: State Record – Public State Record – Private Water Body Record
Awards by Length: State Catch and Release Record Big Fish Award
Other Awards: First Fish Outstanding Angler

I, undersigned, state that the fish described on this application was hooked, fought and brought to net or gaff by me without assistance. INFORMATION AND RULES

For additional information and current records listing: Telephone: (512) 389-8037 or (800) 792-1112 (press 0 and ask for ext. 8037); Fax: (512) 389-4405; E-mail: anglers@tpwd.state.tx.us; Web site: www.tpwd.state.tx.us/fishawards

Fly Fishing Equipment

1. The lure must be a recognized type of artificial fly. A fly may be dressed on a single or double hook or two single hooks in tandem. Treble hooks are prohibited. The use of any other type of lure or natural or preserved bait, either singularly or attached to the fly, is prohibited. No scent, either natural or artificial is allowed on flies. The use of scented material in a fly is prohibited.
2. The rod, reel, line, and leader equipment used must be designed for fly fishing.
3. Casting and retrieving must be carried out in accordance with normal customs and generally accepted practices. The major criterion in casting is that the weight of the line must carry the lure rather than the weight of the lure carrying the line.

Length Measurements

1. Place fish on its side with the jaw closed.
2. Squeeze the tail fin together or turn it in a way to obtain the maximum overall length.
3. Measure a straight line from the tip of the snout to the extreme tip of the tail fin.

Photographs (Catch and Release Records, State Records by Weight and Water Body Records)

1. Photographs must be submitted with applications. Photos become the property of TPWD with publication and television rights and will not be returned. Photos may be mailed with application form or sent by E-mail.
2. Clear, color, sideview photographs of the fish are required. Several photographs taken from different angles should be taken. One should show the fish lying on its side, the surface beneath the fish should be smooth and a ruler or marked tape placed beside the fish. The fins must be visible. Another must be of the angler with the fish.
3. Get close enough so that the image fills the frame. Make sure anal and dorsal fins are spread out and visible.
4. If the fish species is a shark, photos of the teeth as well as photos of the head and back taken from above must be submitted with the application along with sideview photographs. Whether a shark does or does not have a ridge between the dorsal fins should be clearly evident in this photograph.

Verification of Fish Species (Catch and Release Records, State Records by Weight and Water Body Records)

1. Fish species identification is required for record applications.
2. Texas Parks and Wildlife Department fisheries biologists identify the fish species from the photos submitted with the application.
3. For weight records, if the TPWD fisheries biologist is unable to conclusively identify the species from the photographs, then the angler must provide the fish (whole and intact – except for tilapia and grass carp which must have intestines removed immediately after catch) for physical/scientific examination.

Weight Record applications

1. Fish (fresh and salt water) must be weighed on certifiable or legal for trade scales within 3 days of the date of catch. Scales are found in grocery stores, post offices, feed mills, fertilizer plants, marinas and bait stores.
2. Certified scales are scales (either electronic or spring) that have been certified as accurate by the Texas Department of Agriculture, the International Game Fish Association, or an independent commercial scales calibration company. If fish are weighed on a non-certified scale, the applicant will have 30 days from the weighing date to have the weighing scales certified.
3. The fish must not contain anything or have anything attached which artificially increases weight.
4. One or more disinterested witnesses must observe the weighing.

RULES FOR ALL AWARD CATEGORIES

1. For all award categories, the fish must be landed in Texas waters.
2. An Angler Recognition Award Application Form (PWD BR T3200-349B) completed by the angler must be received by the Texas Parks and Wildlife Department within **60 days of the date of catch**. The 60-day limit will be waived for catches recognized as world records by the International Game Fish Association (IGFA).
3. The fish must be caught while obeying all laws or regulations governing the fish species and the waters in which it was caught.
4. Only one person may catch the fish (except for netting or gaffing the fish to bring it into the boat or onto shore).
5. The fish must not have contained anything (including electronics or other tagging devices) to assist in locating the fish.
6. Any deliberate falsification of any application will result in disqualification. All existing records will be removed and future applications from the angler will not be considered.
7. The Texas Parks and Wildlife Department reserves the right to review, investigate, reject, disqualify, or accept any application submitted or any award granted. In cases of disputes, the decision of the Angler Recognition Awards Program Committee will be final.
