

ELEVENTH ROUND OF FUNDING AVAILABLE FOR STATE OF NEVADA LAKE TAHOE WATER QUALITY AND EROSION CONTROL GRANTS

Lake Tahoe Nevada- The Nevada Tahoe Conservation District, on behalf of the Nevada Division of State Lands, announces the opening of the eleventh round of grants for projects desiring to be funded through the Lake Tahoe Water Quality and Erosion Control Grants Program. The eleventh round will make funding available to implement Environmental Improvement Program or EIP projects on the Nevada side of the Lake Tahoe Basin. This includes: erosion control, water quality, and stream environment zone (SEZ) restoration and enhancement projects. To be eligible, applicants must provide a minimum twenty-five percent matching funds. The pre-application period will be from September 1st, 2006 until September 15th, 2006 at 5:00pm. **Pre applications are due in the NTCD office by 5pm on September 15th, 2006.** Eligible applicants will then be invited in writing to submit a full application that will be due on November 15th, 2006 at 5pm. These grants are not open to California agencies or residents.

In order to be eligible, projects must be identified in the current Environmental Improvement Program. The document is available online at <http://www.trpa.org>.

To download a pre-application form, please go to the NTCD website at www.ntcd.org and click on the “documents” icon.
