

ASPHALT SHINGLE PRODUCTS THAT CONFORM TO ASTM D 3161 MODIFIED TO 110 MPH

Revised February 5, 2007

This product listing is not an endorsement of these products or a recommendation that these products be used. The Texas Department of Insurance (TDI) has not authorized the use of any information contained in this listing for advertising, or other commercial or promotional purpose. This product listing does not relieve a Texas licensed engineer of his responsibilities as outlined in the Texas Insurance Code, the Texas Administrative Code and the Texas Engineering Practice Act.

Following is a list of asphalt shingle manufacturers and products. The products listed have passed the ASTM D 3161 test which was modified for 110 mph. The package or wrapper on the products listed must be marked to indicate that they have passed the ASTM D 3161 @ 110 mph. A "Yes" under the column with the heading ASTM D 3161 @ 110 mph indicates that the manufacturer has indicated that the package is appropriately marked.

		Test Passed
Manufacturer	Product	ASTM, D3161, (110-mph)
Atlas Roofing Corporation	Pinnacle	Yes
Atlas Roofing Corporation	Pinnacle Plus	Yes
Atlas Roofing Corporation	StormMaster LM	Yes
Atlas Roofing Corporation	StormMaster ST	Yes
Atlas Roofing Corporation	Stratford	Yes
Atlas Roofing Corporation	Chalet	Yes

Atlas Roofing Corporation	GlassMaster 20	Yes
Atlas Roofing Corporation	Alpine	Yes
CertainTeed Corporation	Hatteras (& AR)	Yes
Tamko Roofing Products, Inc.	Elite Glass-Seal (&AR)	Yes
Tamko Roofing Products, Inc.	Glass-Seal	Yes
Tamko Roofing Products, Inc.	Heritage 30 (&AR)	Yes
Tamko Roofing Products, Inc.	Heritage 50 (&AR)	Yes
Tamko Roofing Products, Inc.	Heritage XL (&AR)	Yes
Tamko Roofing Products, Inc.	Heritage Vintage AR	Yes

Texas Department of Insurance Windstorm Inspections

Following is a list of asphalt shingle manufacturers and products. Based on the information presented to the TDI, the products listed have passed the ASTM D 3161 test which was modified for 110 mph. The package or wrapper on the products listed is not marked at this time to indicate that they have passed the ASTM D 3161 @ 110 mph. Field verification and inspection of the asphalt shingle installation will include verification of the plant location where the asphalt shingle product was manufactured and shall be installed as indicated in the manufacturer's installation instructions printed on the wrapper or package. GAFMC shingle plant location codes: "DA" Dallas, TX; "FO" Fontana, CA; "MN" Minneapolis, MN; "MO" Mobile, AL; "MV" Mount Vernon, IN; are printed on the shingle wrapper in the Date Code (MM-DD-YY Plant Location Code HH:MM), between the date and time printed on the shingle wrapper. Owens Corning Oakridge Pro 30 (&AR), Summit, IL; and Owens Corning Classic, Denver, CO; Owens Corning Classic (Summit, IL), Owens Corning Supreme (Summit, IL), and Owens Corning Oak Ridge Pro 30 (Brookville, IN) require verification that the production date is after the ASTM D 3161 testing at 110 mph. The production date is on the side of the bundle wrapper, under the product name, in Julian date format (3-digit day of production 1-digit or 2-digit year of production). For example: 2715 or 27105 is the 271st day of 2005, or September 28, 2005.

As of February 5, 2007– Asphalt Shingles Verified to Pass ASTM D 3161 Modified to 110 MPH
