Instructions for Requesting Exemption

Each facility that has a CARF accreditation for either General Occupational Rehabilitation Programs (Work Conditioning) and/or Comprehensive Occupational Rehabilitation Programs (Work Hardening) is required to contact DWC with their facility's request to be exempted from preauthorization and concurrent review requirements. When a facility's CARF accreditation period expires, that facility is expected to establish contact with DWC staff explaining their plan for CARF accreditation renewal and to communicate the status of that renewal as a means of requesting continued exemption from preauthorization requirements. Such exemption from preauthorization requests will require submission of paperwork.

For further instructions regarding initial or a continuance of an exemption request, or for previous exemption lists, please contact either 512-804-4850 or 512-804-5003.
