BL 2009

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy provides medical services for the following items that are not risk specific:

Federally Qualified Health Centers (FQHC) - a center providing Medicaid mandates services such as, comprehensive primary & preventive services & other allied & related health services.

Undocumented Aliens - Federally mandated coverage for aliens residing illegally in the U.S. with an emergency condition & who meet all other Medicaid eligibility criteria & for legal alien residents with an emergency condition who met all Medicaid eligibility requirements except citizenship.

School Health & Related Services Administration -reimburse admin services incurred for processing claims by the Medicaid fiscal agent contractor; & school districts & cooperatives receive the federal share of medically necessary services to Medicaid-eligible children under 21.

Substance Abuse Services - state licensed chemical dependency treatment facilities are eligible to enroll in the Medicaid Program to treat persons under the age of 21 on an outpatient basis.

Upper Payment Limit (UPL) - Federal Medicaid regulations allow certain providers to receive additional reimbursements for the difference between what Medicaid pays (referred to as the UPL). The first UPL payments were made in FY2003. Texas pays certain eligible urban & rural hospitals from local funds (intergovernmental transfers) that match federal Medicaid funds as well as a childrens' hospital UPL with state funding.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Since services covered under this strategy are mandated under a State administered Medicaid program, the risk of non-compliance and federal financial participation would be jeopardized for failure to reimburse medical providers at a rate that is reasonable and adequate to ensure provider participation. As well as covering all eligible persons.

Congress authorized an adjustment to the calculation of Texas' Medicaid matching rate for the impact of Hurricane Katrina evacuees to the State's per capita income. This adjustment, which is unknown at this time, will impact Texas' (Federal Medical Assistance Percentage) FMAP for a three-year period beginning in FY 2008. The FMAPs for both FY 2008-09 are estimates as the FMAP for FY 2008 will be determined in Fall 2006 and the FMAP for FY 2009 will be determined in Fall 2007.
