The contract may provide for reimbursement of the owner for costs or payment to the contractor.

(3) states that the acquisition is necessary and proper for the construction, extension, improvement, or development of the public transportation system.

(b) A resolution adopted under this section and approved by resolution of the appropriate municipal governing body or commissioners court is conclusive evidence of the public necessity for the acquisition described in the resolution and that the property interest is necessary for public use.

(c) Fares for passenger transportation may be set according to a zone system or to another classification that the authority determines to be reasonable.

(d) This section does not limit the state's power to regulate taxes imposed by an authority or other compensation authorized under this section. The state agrees with holders of

bonds issued under this chapter, however, not to alter the power given to an authority under this section to impose taxes, fares, tolls, charges, rents, and other compensation in amounts sufficient to comply with Subsection (a), or to impair the rights and remedies of an authority bondholder, or a person acting on behalf of a bondholder, until the bonds, interest on the bonds, interest on unpaid installments of interest, costs and expenses in connection with an action or proceeding by or on behalf of a bondholder, and other obligations of the authority in connection with the bonds are discharged.

(c) The authority shall post signs designating each area in which a person is prohibited from using the transportation system without possession of evidence showing that the appropriate fare has been paid.

(d) A person commits an offense if:

(1) the person or another for whom the person is criminally responsible under Section 7.02, Penal Code, uses the public transportation system and does not possess evidence showing that the appropriate fare has been paid; and

(b) An overall minority and women-owned business enterprise contract percentage goal may be established as a part of the program only after reasonable consultation with affected organizations and a qualified independent source and after public comment. In establishing a goal, the authority shall consider the various types of construction contracts the authority expects to award and the effect of market conditions on the feasibility of attaining the goals.

(b) An authority's operating cost per passenger is computed by dividing the authority's annual operating cost by the passenger trips for the same period.

(c) The sales and use tax receipts per passenger are computed by dividing the annual receipts from authority sales and use taxes by passenger trips for the same period.

(d) The operating cost per revenue hour is computed by dividing the annual operating cost by the total of scheduled hours that authority revenue vehicles are in revenue service for the same period.

(e) The operating cost per revenue mile is computed by dividing the annual operating cost by the number of miles traveled by authority revenue vehicles while in revenue service.

(f) The fare recovery rate is computed by dividing the annual revenue, including fares, tokens, passes, tickets, and route guarantees, provided by passengers and sponsors of passengers of revenue vehicles, by the operating cost for the same period. Charter revenue, interest income, advertising income, and other operating income are excluded from revenue provided by passengers and sponsors of passengers.

(g) The average vehicle occupancy is computed by dividing the annual passenger miles by the number of miles traveled by authority revenue vehicles while in revenue service for the same period. The annual passenger miles are computed by multiplying the annual passenger trips and the average distance ridden by passengers for the same period.

(h) On-time performance is computed by determining an annual percentage of revenue vehicle trips of revenue vehicles that depart from selected locations at a time not earlier than the published departure time and not later than five minutes after that published time.

(i) The number of accidents per 100,000 miles is computed by multiplying the annual number of accidents by 100,000 and dividing the product by the number of miles for all service, including charter and nonrevenue service, directly operated by the authority for the same period. In this subsection, "accident" includes:

(1) a collision that involves an authority's revenue vehicle, other than a lawfully parked revenue vehicle, and results in property damage, injury, or death; and

(2) an incident resulting in the injury or death of a person on board or boarding or alighting from an authority's revenue vehicle.

(j) The number of miles between mechanical road calls is computed by dividing the annual number of miles for all service directly operated by an authority, including charter and nonrevenue

service, by the number of mechanical road calls for the same period. In this subsection, "mechanical road call" means an interruption in revenue service that is caused by revenue vehicle equipment failure that requires assistance from a person other than the vehicle operator before the vehicle can be operated normally.

(k) In this section:

(1) "Operating cost" means an authority's costs of providing public transit service, including purchased transit service not performed by the authority, but excluding the costs of:

(A) depreciation, amortization, and capitalized charges;

(B) charter bus operations; and

(C) coordination of carpool and vanpool activities.

(2) "Passenger trips" means the number of all passenger boardings, including transfers, but excluding charter passengers and carpool and vanpool passengers whose trips are only coordinated by the authority.

(3) "Revenue service" means the time an authority revenue vehicle is in service to carry passengers, other than charter passengers.

SUBCHAPTER P. ADDITION OF TERRITORY

Sec. 452.601. ADDITION OF TERRITORY BY MUNICIPAL ANNEXATION. (a) When a municipality that is part of an authority annexes territory that before the annexation is not part of the authority, the annexed territory becomes part of the authority.

(b) When a contiguous municipality annexes additional territory, the annexed territory becomes a part of the subregional authority created by the contiguous municipality.

(c) Except for Subsection (b), this subchapter does not apply to an authority created by a contiguous municipality.
Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 452.602. ADDITION OF MUNICIPALITY BY ELECTION. (a) The territory of a municipality that is not part of an authority may be added to an authority if:

(1) any part of the municipality is located in a county in which the authority is located;

(c) Notwithstanding Section 452.606, a municipality that is not part of an authority may be added to the territory of an authority on a date determined by the executive committee if:

(1) any part of the municipality is located in a county in which the authority has territory;

(2) the governing body of the municipality calls an election on the addition of the municipality to the territory of the authority; and

(3) a majority of the votes cast in the election favor the proposition.

(d) The election in a municipality to approve the addition of the municipality to the territory of the authority is to be treated for all purposes as an election to reduce the rate of the municipality's special sales and use tax, on the effective date determined by the executive committee, to the highest rate that will not impair the imposition of the authority's sales and use tax.

(e) At any time after the date of the election approving the addition of the municipality to the territory of the authority, the executive committee and the governing body of the municipality may enter into an interlocal agreement that provides for the eventual admission of the municipality to the territory of the authority.

(f) Notwithstanding Section 452.607, a sales and use tax imposed by the authority takes effect in the municipality on the first day of the first calendar quarter that begins after the date the comptroller receives a certified copy of an order adopted by the executive committee adding the territory of the municipality, accompanied by a map of the authority clearly showing the territory added.

(2) the commissioners court orders an election in the designated area under this section on whether the area should be added to the authority; and

(3) a majority of the votes received in the election favor the measure.

(b) In designating an area under this section, the commissioners court may not, to the extent practicable, divide a county election precinct.

Sec. 452.606. EXECUTIVE COMMITTEE APPROVAL OF ANNEXATION: EFFECTIVE DATE. (a) The addition of territory approved under Section 452.602 or 452.603 does not take effect if, before the effective date of the addition under Subsection (b), the executive committee of the authority gives written notice to the governing body of the municipality or the commissioners court of the county that held the election that the addition would create a financial hardship on the authority because:

(1) the territory to be added is not contiguous to the territory of the existing authority; or

(2) the addition of the territory would impair the imposition of the sales and use tax authorized by this chapter.

(b) In the absence of a notice under Subsection (a), the addition of territory approved under Section 452.602 or 452.603 takes effect on the 31st day after the date of the election.

(1) a certified copy of an order adding the territory or of an order canvassing the returns and declaring the result of the election; and

(2) a map of the authority showing clearly the territory added.

(b) The presiding officer of the executive committee shall send the order and map required under Subsection (a) to the comptroller by certified or registered mail.

the 11th day after the date on which the comptroller receives the order and map under this section that the comptroller requires more time. If implementation is delayed, the tax takes effect on the first day of the second calendar quarter that begins after the date on which the comptroller receives the order and map. (c) The apportioned share of a unit's obligation or assets is the amount of the obligation or assets times a fraction, the numerator of which is the number of inhabitants of the withdrawing unit of election and the denominator of which is the number of inhabitants of the authority, including the number of inhabitants of the unit.

(d) The executive committee shall determine the amount of each component of the computations required under this section, including the components of the unit's apportioned share, as of the effective date of withdrawal. Sec. 452.701. CREATION OF REGIONAL OR SUBREGIONAL AUTHORITY AUTHORIZED. (a) The governing body of a principal municipality, the commissioners court of the county of the principal

municipality, or both of these bodies, from each subregion of a metropolitan area, may agree to initiate the process to create, by a motion of the body, a regional transportation authority to provide public and complementary transportation services in the area. The principal municipality, the county of the principal municipality, or both entities, in each subregion, may become the creating entity.

(b) The governing body of a principal municipality, the commissioners court of the county of the principal municipality, or both of these bodies, from any subregion of a metropolitan area, shall initiate the process to create a regional transportation authority to provide public and complementary transportation services for a metropolitan area on receipt of a petition requesting creation of an authority signed by at least five percent of the registered voters of the principal municipality, county, or both, as appropriate. The entity to which a petition is presented has the primary responsibility for initiating the authority within a subregion. The principal municipality and the county of the principal municipality of any subregion, however, may by agreement share the responsibility or shift it from one to the other.

(c) If one subregion establishes an authority, the remaining subregion may establish a separate subregional authority as provided by this chapter. This subsection does not apply to an authority created by a contiguous municipality.

(d) The governing body of a contiguous municipality on its own motion may, and on presentation of a petition requesting the creation of a subregional authority and signed by at least five percent of the voters of the contiguous municipality shall, initiate the process to create a subregional authority:

(1) as an alternative to participation in a regional transportation authority;

(2) if the creation of a regional transportation authority in which the contiguous municipality could participate is not confirmed;

(3) if the contiguous municipality withdraws from a regional transportation authority and:

(A) the regional transportation authority in which the municipality had participated is abolished by act of the legislature or by a vote of the voters of the entire service area; or

(B) the sales tax authorized to be collected by the regional transportation authority of which the contiguous municipality was formerly a member is modified in a manner that would reduce the authority's annual revenue yield by one-half or more; or

(4) if a regional transportation authority in which the contiguous municipality could participate is dissolved.

(1) in the principal municipality of the subregion;
or

(2) in contiguous units of election in the subregion in which the population when aggregated in all those units exceeds 300,000.
