

NOTICE TO OIL AND GAS TAXPAYERS:

Current Reporting and Payment Formats to Continue.

The Comptroller's office has been working on a major project to rewrite the reporting system for Texas' crude oil and natural gas taxes. This ongoing effort will streamline the reporting process while adapting the system to exemptions created by the Texas Legislature.

To ensure it best meets the needs of all stakeholders and to study the impact of recent legislation that may affect these taxes, the new system will not be implemented at this time.

Until you receive further notice from our office, please continue to use the current reporting and payment formats for crude oil and natural gas taxes. We will provide advance notice of the new system's implementation date as it nears completion. At that time, we will also offer information about training classes and presentations to help you adapt to the new system.
