Of 34 public libraries in WTLS, 24 participated in E-Rate over the past 7 years

The average discount for WTLS public libraries over the past 7 years was 75%.

TELECOMMUNICATIONS

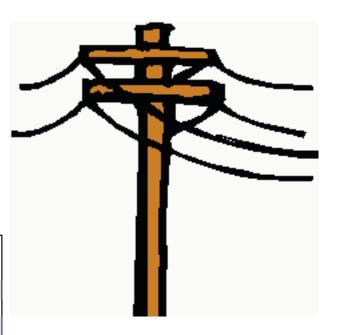

There were 1,462 funded requests for Telecommunications services from public libraries in Texas over the past 7 years.

The overall average discount for public

been over 70% each
of the past 7 years.
The discount changes
each year based on the
number of students
eligible to participate
in the Free and Reduced
Lunch Program. A library
uses the Free and Reduced
Lunch Program data from
the school district in which the library

physically resides.

Significant budget cuts and the loss of the Telecommunications Infrastructure Fund are compelling more public libraries in Texas to file for the E-Rate discount.

Telecommunications services include, but are not limited to, the following items: 800 service, 911 service, alarm telephone line, cellular service, DSL, ISDN, local measured service, long distance, T-1, and more. See the Eligible Services List for more details at http://www.sl.universalservice.org/reference/eligible.asp.

INTERNET ACCESS

There were 364 funded requests for Internet Access from public libraries in Texas over the past 7 years.

In HALS, the Houston Public Library acts as a consortium to facilitate Internet Access for multiple libraries. In STLS, Brownsville Public Library also acts as a consortium to facilitate Internet Access for multiple libraries.

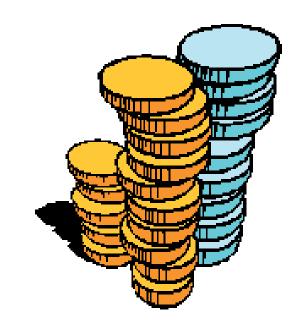

Internet Access includes, but is not limited to, the following items:

Domain name registration, email service, email account fees, web hosting, and more.

The libraries in the South Texas Library System typically benefit from the highest discounts. Therefore, it is not unexpected that they received the largest amount of funding for Internal Connections. As the E-Rate funds are limited, libraries rarely receive Internal Connections discounts if their discount is less than 80%.

Internal Connections include, but are not limited to, the following items: Access point, antenna, bridge, cable modem, cabling, CSU/DSU, email software, file server, firewall, local area network, wireless area network, proxy server, router, and more.
