The purpose of the revision is to incorporate the following provisions of the consent decree entered against ConocoPhillips by the US District Court for the Southern District of Texas on January 27, 2005:

- All heaters and boilers that were not previously subject to 40 CFR 60, Subpart J (Subpart J), are now considered to be "affected facilities" even though they were built before June 11, 1973.
- Heaters will not be allowed to burn fuel oil except during periods of natural gas curtailment, test runs, or operator training.

All revisions are clearly shown in ~~strikeout~~ and underline formatting.

The Statement Of Basis, which includes the pertinent sections of the permit, can be viewed on the BAAQMD website at:
