Dear Ms. Jordan:

**MARIN COUNTY**  
Harold C. Brown, Jr.

The requirements for public and EPA review of the following proposed Major Facility Review Permit have been completed:

**NAPA COUNTY**  
Brad Wagenknecht

Plant	Plant Name	Application	Permit Engineer	City	County
A0030	Owens-Brockway Glass Container Inc.	6869/6876	G. Solomon	Oakland	Alameda

**SAN FRANCISCO  
COUNTY**  
Willie Brown, Jr.  
Chris Daly  
Jake McGoldrick

The purpose of this revision is to correct the abatement trains and remove source testing requirements for various sources as described in the attached permit evaluation.

**SAN MATEO COUNTY**

Jerry Hill  
Marland Townsend  
(Vice-Chairperson)

Also, the standard portions of the permit have also been updated and corrected, as follows:

**SANTA CLARA COUNTY**

Erin Garner  
Liz Kniss  
Patrick Kwok  
Julia Miller

- The dates in Section I.A.1 were updated.
- Section I.A.11, which requires the responsible official to certify all documents submitted, was added to conform to changes in Regulation 2, Rule 6.
- Section I.E.1 requiring the permit holder to provide any information, records, and reports requested or specified by the APCO, was added because it was omitted in error.
- Section I.H was modified to conform to the current standard.
- The Abatement device table, II-B, has been modified so that there is no confusion between the citation of standards and the standards themselves.
- Sections III, IV, and XI have been modified because SIP standards are now found on EPA's website and are not included as part of the permit.
- 40 CFR Part 61, Subpart M, National Emission Standard for Asbestos, was added to Section III. This standard is equivalent to BAAQMD Regulation 11, Rule 2, which has been cited in the permit since it was issued in 2000. Therefore, this is not a substantive change.
- The standard language in the Section IX, Permit Shield, was updated.
- The glossary was updated.

**SOLANO COUNTY**  
John F. Silva

**SONOMA COUNTY**  
Tim Smith  
Pamela Torliatt

Jack P. Broadbent  
**EXECUTIVE  
OFFICER/APCO**

The following additional corrections were made:

- The description of the BAAQMD 6-301 limit in BAAQMD Condition 15855, part 2 has been corrected to say "for no more than three minutes in any hour."
- The description of the BAAQMD 6-301 limit in Section VII has been corrected to say "for < 3 min/hr."
- BAAQMD 6-310 and 6-311 were deleted from the Section IV and VII tables for S39, S57, S75-S77, S79-S81, S83, and S84, because these standards apply only to sources that have stacks.
- The term "TSP" in Section VII has been changed to "FP", which means "filterable particulate."
- Condition #16591 part 4 has been amended to include the correct list of abatement devices and remove A-1 since it is already contained in Condition #8395.

No comments from the public, the facility or EPA were received.

The District has decided to issue the Major Facility Review Permit.

Enclosed for your information is a copy of the final permit. If you have any questions regarding this permit, please call Steve A Hill, Air Quality Engineering Manager, at (415) 749-4673.

Sincerely yours,

---

Jack P. Broadbent  
Executive Officer / APCO
