SAN MATEO COUNTY

Jerry Hill
Marland Townsend
(Chairperson)

SANTA CLARA COUNTY

Erin Garner
Liz Kniss
Patrick Kwok
Julia Miller

SOLANO COUNTY

John F. Silva

SONOMA COUNTY

Tim Smith
Pamela Torliatt

Jack P. Broadbent
**EXECUTIVE
OFFICER/APCO**

Application Numbers	Facility Number	Facility Name	Address, City	Type of Operation
10873 & 10874	A1179	Redwood Landfill, Inc.	8950 Redwood Highway Novato, CA 94948	Solid Waste Landfill

The purpose of this revision is to increase the maximum permitted landfill gas sulfur content for landfill gas from the S-5 Redwood Landfill and to increase the maximum permitted sulfur dioxide emission rate from the A-50 Landfill Gas Flare. This application will result in 24.07 tons/year of SO₂ emission increases. After this modification, the landfill and flare will emit 2.65 tons/year of hydrogen sulfide (not a HAP) and 0.03 tons/year of carbon disulfide (a HAP). Based on a case-by-case RACT determination, the flare will comply with RACT for SO₂ emissions. MACT does not apply. Emission reduction credits will not be required.

The District has made a preliminary decision to issue the Change of Conditions and the Significant Revision to the Major Facility Review permit, but the final decision on the permit issuance will consider public and EPA comments on this preliminary decision. The notice inviting written public comments will be published in the Marin Independent Journal. The final date for comments is May 16, 2005.

All permit revisions are clearly shown in ~~strikeout~~ and underline formatting in the proposed permit. Section X of the permit describes the proposed revisions in more detail.

Enclosed for your information is a copy of the proposed permit and the evaluation report/statement of basis. If you have any questions regarding this project, please call Steve A. Hill, Permit Evaluation Manager, at (415) 749-4673, fax (415) 749-5030.

Very truly yours,

Signed by Jack P. Broadbent
