Dear Ms. Jordan:

This is to advise you that the Bay Area Air Quality Management District is issuing a minor revision to the Major Facility Review Permit for Waste Management of Alameda County (Facility Number A2066) pursuant to Application # 15454.

On September 25, 2007, the District proposed a minor permit revision for this facility. The purpose of this minor revision was to modify permit conditions for the landfill gas fired IC Engines (S-23 and S-24). These condition revisions clarify the daily CO monitoring requirements for these engines and eliminate the need to test for CO on weekends and holidays when the engine facility is not staffed and when the engine is not operating in a normal mode. This action will not result in any emission increases.

The EPA comment period ended on November 11, 2007. No comments were received from EPA.

The District has decided to issue the revised permit incorporating the proposed minor revisions above. The final revised permit can be viewed on the BAAQMD website at http://www.baaqmd.gov/pmt/title_v/public_notices.htm. We will also send a copy of the final permit to you via the Electronic Permit Submittal System. If you have any questions regarding this permit, please call Dennis Jang, Senior Air Quality Engineer, at: (415) 749-4707.

Sincerely yours,
