

NOTICE INVITING WRITTEN PUBLIC COMMENT

NOTICE is hereby given that the Air Pollution Control Officer of the Bay Area Air Quality Management District invites written public comments on the proposed renewal of the Major Facility Review Permit for the following facility:

Application	Facility #	Facility Name	Address, City	Type of Operation
11267	A2918	Strongwell	615 North King Road San Jose, CA 95133	Manufacturing of Polymer Concrete Products

Major facilities are required to obtain operating permits under Title V of the 1990 Clean Air Act Amendments, the Federal Operating Permit Program and the District's Regulation 2, Rule 6 - Major Facility Review. The permits summarize all air-related requirements that apply to each source of emissions at the facility.

This permit was originally issued on June 1, 2000. All changes to the current permit are clearly shown in strikeout/underline format. Since the permit was originally issued, the facility's emissions of volatile organic compounds have increased by 9.2 tons per year. There have been no other significant increases in emissions from the facility since the original permit was issued.

The Air Pollution Control Officer invites written comment on the above proposed permit renewal. Comments must be received by June 12, 2006. Any interested person may also request a public hearing for this permit.

Major Facility Review Permits are also subject to review and approval by US EPA. If US EPA has not objected to a proposed permit and District has not addressed a public comment in a satisfactory manner, the public may petition US EPA, Region IX, Operating Permits Section at 75 Hawthorne Street, San Francisco, CA 94105, within 60 days after the end of US EPA's review, to reconsider the decision to not object to the permit. The beginning and end of EPA's review period can be found on EPA Region IX's website at: <http://www.epa.gov/region09/air/permit/index.html>.

The proposed Major Facility Review permit, application, evaluation report/statement of basis, and compliance report are available for public inspection at the District Headquarters, 939 Ellis Street, San Francisco, CA, in the Engineering Division, 3rd Floor. For an appointment, please call May Leung at (415) 749-4729. The permit, evaluation report/statement of basis, and compliance report are also available on the District's webpage at the following address: http://www.baaqmd.gov/pmt/title_v/public_notices.htm. Written comments should be directed to Dharam Singh, at Bay Area Air Quality Management District, 939 Ellis Street, San Francisco, CA 94109 or by email to dsingh@BAAQMD.gov. Any request for information or for a public hearing should be directed to Dharam Singh at (415) 749-4714.

Dated at San Francisco, the 8th day of May 2006.

Jack P. Broadbent
