

## APD ALERT

### Changes to Excluded Parties List System (EPLS) Website

The Excluded Parties List System (EPLS) is now fully integrated so that users no longer need to check separate lists within the EPLS Web site to determine all excluded parties. Additionally, searches can now be conducted using various search parameters beyond exact contractor name such as partial name, DUNS number, and action/termination dates.

The EPLS Advanced Search field is at <http://www.epls.gov/epls/search.do>

The EPLS Search Help page is at <http://www.epls.gov/epls/jsp/searchHelp.jsp>
