

NCUA Content Inventory

The National Credit Union Administration (NCUA) developed this inventory of content as required by Section 207(f)(2) of the E-Government Act of 2002. This inventory is intended to be comprehensive, and to represent content from all offices of NCUA.

The National Credit Union Administration (NCUA) is the federal agency that charters and supervises federal credit unions and insures savings in federal and most state-chartered credit unions across the country through the National Credit Union Share Insurance Fund (NCUSIF), a federal fund backed by the full faith and credit of the United States government.

In preparing this inventory, NCUA has reviewed information collected as part of the redesign process for NCUA.Gov, and related information developed through the Information Quality Guidelines process (per Section 515 of Public Law 106-554, known as the Data Quality Act).

This document was posted as of May 27, 2005 and will be updated as required by the E-Government Act of 2002.
