

DNA Evidence Recognition, Collection and Preservation for Law Enforcement

Erie County Public Safety Training Academy

6205 Main Street, B714

Williamsville, NY 14221

May 28, 2008

8:00 a.m. to 4:00 p.m.

DNA Technology has become increasingly vital in ensuring accuracy and fairness in the criminal justice system. This 7-hour course has been designed to assist first responders in the identification, collection and preservation of DNA evidence.

Topics discussed include:

Types of DNA Found at Crime Scenes
Biohazards and Safety Procedures
Proper Collection and Packaging of Evidence
Chain of Custody

Alternate Light Sources
Laboratory Procedures
Cold Case Testing
DNA Databank

Presented by:

John Jay College of Criminal Justice

JOHN JAY COLLEGE
THE CITY UNIVERSITY OF NEW YORK
OF CRIMINAL JUSTICE

In cooperation with:

The New York State Division of Criminal Justice Services

THIS TRAINING IS OFFERED FREE OF CHARGE
