April 2008

2008 COMMODITY INSURANCE FACT SHEET

Pears

California

Crop Insured

All pears grown for fresh market or processing that are adapted to the area.

Counties Available

Pears are insurable in El Dorado, Lake, Mendocino, Sacramento, San Joaquin, Solano, Sutter, Yolo and Yuba counties. Pears in other counties may be insurable by written agreement if specific criteria are met. Contact an agent for more details.

Causes of Loss

Adverse weather conditions¹
Failure of irrigation water supply²
Fire³
Insects⁴
Plant disease⁴
Wildlife⁵

¹Natural perils such as hail, frost, freeze, wind, drought, and excess moisture.

²If caused by an insured peril during the insurance period.

³Unless weeds and undergrowth are not controlled or unmulched pruning debris is not removed.

⁴But not damage due to insufficient or improper application of control measures.⁵Unless wildlife control measures have not been taken.

Insurance Period

Insurance attaches at time of planting and ends the earliest of:

- Total destruction of pears
- Harvest of pears final adjustment of loss
- September 15 for Bartlett (green and red) and Star Crimson (Crimson Red varietal groups)
- October 15 for all other varietal groups

Important Dates

Sales Closing January 31
Acreage Report Due..... January 31

Coverage Levels and Premium Subsidies

Individual amounts of insurance are based on a grower's production history. Each grower's approved-average yield is calculated from a minimum of 4 to 10 years of production records provided to an insurance agent. Producers can select a level of coverage ranging from 50 to 75 percent of their approved average yield and 50 to 100 percent of a price announced by USDA, or catastrophic (CAT) coverage based on 50 percent of their approved yield and 55 percent of the price.

Price Election: Price used to calculate your premium and indemnity:

Green Bartlett - \$ 170 per ton

Winter and all other types - \$ 380 per ton

Cost of Crop Insurance

The Agricultural Risk Protection Act of 2000 raised the subsidies for federal crop insurance premiums substantially. For CAT coverage, growers pay an application fee of \$100 with 100 percent of the premiums being fully subsidized. Higher coverage levels are subsidized at lower rates; USDA pays at least 50 percent of the premium. For more detailed information about the amounts of coverage and premiums, please contact a crop insurance agent or your local county Farm Service Agency office for an agent listing.

Loss Example

Based on average yield of 25 tons per acre, 75-percent coverage level, and one basic unit, price election of \$175 per ton and 100-percent share.

25	Tons per acre average yield (APH)
<u>x .75</u>	Coverage level
18.75	Tons per acre guarantee
<u>- 10</u>	Tons per acre actually produced
8.75	Tons per acre loss
<u>x 170</u>	Price election (at 100 percent)
\$1,487.50	Gross indemnity per acre

Where to Purchase Crop Insurance

All multi-peril crop insurance, including CAT coverage insurance policies, are available from private insurance agents. A list of crop insurance agents is available on the RMA Web site at:
