

www.osti.gov/graylit

The GrayLIT Network provides single-query access to full-text scientific and technical report (gray) literature sponsored by Federal Government agencies. This integrated, innovative search tool makes diverse information available through one interface and supports an interdisciplinary view of science.

GrayLIT Network

- Accesses approximately 343,000 government-sponsored reports
- Returns a seamless list with a single search
- Eliminates need to know sponsoring agency when searching

Participating Agencies

- Department of Defense
- Department of Energy
- Environmental Protection Agency
- National Aeronautics and Space Administration

Accessible Databases

- Defense Technical Information Center (DTIC) Report Collection
- DOE Information Bridge Report Collection

- EPA National Environmental Publications Internet Site (NEPIS)
- NASA Jet Propulsion Lab (JPL) Technical Reports
- NASA Langley Technical Reports

Public Access

Through GPO Access (www.gpoaccess.gov/) in partnership with the Government Printing Office.

Gray Literature

- Technical reports, conference papers, dissertations, and other materials published by the author's sponsor or employer
- Issued by noncommercial sources such as government agencies, research laboratories/facilities, and educational institutions

- Generally not available through normal channels or systems of publication or distribution

Distributed Search

- Search, assimilate, and download full text and/or bibliographic information through the Distributed Explorit search capability
- Collaborating agencies need not manipulate their data nor adhere to any standards outside of their regular operating procedures in order to participate in the GrayLIT Network
