In such cases, applicants will be notified tat the transfer has been approved; however, no physical license will be issued until the transferee/receiver has names a vessel. The naming of a vessel on a license is considered a transfer under 50 CFR 679.4(k)(7)(vii) and counts as the one transfer calendar year allowed by regulation.

If the LOA of this vessel exceeds the maximum length overall (MLOA) of the original qualifying vessel, this vessel may **not** receive this license by transfer.

The transfer of a license that was issued based on the documented harvests from a vessel that did not have a Federal Fisheries Permit during the period beginning January 1, 1988, through October 8, 1998, are restricted by regulation. Under this transfer restriction, this type of groundfish LLP license cannot be transferred separately and used on a vessel other than the original qualifying vessel. This transfer restriction has two exceptions. First, if the fishing history of a vessel that did not have an FFP was transferred before February 7, 1998, the qualifying vessel did not have to accompany the license. Second, a vessel that is subject to this provision but that is lost or destroyed can be replaced under the general vessel replacement provisions of the LLP. However, subsequent transfers will require the license to be “coupled” with the existing vessel (i.e., the license cannot be transferred separately from the vessel named on the license).
