

SECTION 33—ESTIMATES RELATED TO SPECIFIC TYPES OF PROGRAMS AND
EXPENDITURES

Table of Contents

*Acquisition of Real Property, Construction, and Leases of Capital Assets*¹

- 33.1 Construction and design of Federal facilities
- 33.2 Construction in flood plains
- 33.3 Construction of federally-owned housing
- 33.4 Leases of capital assets
- 33.5 Real property

Medical and Hospital Care

- 33.6 Hospital care
- 33.7 Inpatient care facilities and medical care services

Motor Vehicles and Aircraft

- 33.8 Aircraft
- 33.9 Motor vehicles

Estimates Relating to Other Types of Programs and Expenditures

- 33.10 Advisory committees and interagency groups
- 33.11 Benefit payments
- 33.12 Coastal Barrier Resources Act
- 33.13 Contractor claims
- 33.14 Credit programs
- 33.15 Foreign currencies
- 33.16 Mail
- 33.17 National security crosscut
- 33.18 Radio spectrum-dependent communications-electronics systems
- 33.19 Records storage
- 33.20 Remedial environmental projects
- 33.21 Space and related requirements
- 33.22 Systems acquisitions
- 33.23 Taxes and tax expenditures
- 33.24 Tort claims
- 33.25 Travel
- 33.26 Water and sewer payments to the District of Columbia

Proposals Requiring Coordination With Other Agencies

- 33.27 Nuclear reactors
- 33.28 Public works in the District of Columbia and National Capital area
- 33.29 Radio spectrum-dependant communications-electronics systems
- 33.30 Tax expenditures

- Ex-33 Agency Motor Vehicle Fleet Report

Summary of Changes

Requires agencies to report on the size, composition, and annual cost of their motor vehicle fleets (section 33.9).

Includes guidance on proposals requiring coordination with other agencies previously included in section 34 (sections 33.27 - 33.30).

¹ Requests for capital assets must be submitted in accordance with Part 7.

33.1 Construction and design of Federal facilities.

(a) *Pollution control standards compliance.*

Prepare your estimates in accordance with [Executive Order No. 12088](#), which requires compliance with pollution control standards.

(b) *Safe workplaces.*

In your estimates for the design and construction of Federal facilities, capital investment, and the purchase of equipment, include the amounts required to ensure that existing facilities provide safe and healthful workplaces for Federal employees consistent with the standards promulgated under section 19 of the Occupational Safety and Health Act of 1970, the provisions of [Executive Order No. 12196](#), and the related Safety and Health Provisions for Federal Employees of the Secretary of Labor (29 CFR, Chapter XVII, Part 1960).

(c) *Structural barriers in Federal buildings.*

Prepare your estimates for the construction and renovation of Federal facilities consistent with requirements of the Architectural Barriers Act of 1968 to eliminate structural barriers impeding the mobility of individuals with disabilities.

(d) *Scientific laboratory facilities.*

If your submission proposes additional or replacement scientific laboratory facilities, you must include evidence that your agency has reviewed the GSA inventory of Federal laboratories and indicate the reasons you want to acquire new space instead of using existing laboratories that have sufficient space available, according to the GSA inventory.

33.2 Construction in flood plains.

Under Executive Order Nos. [11988](#) and [11990](#), you must develop estimates for the construction of buildings, structures, roads, or other facilities—whether financed directly by Federal funds or through grant, loan, or mortgage insurance programs—that are based on land utilization plans that preclude the uneconomic, hazardous, or unnecessary use of flood plains or wetlands. Indicate whether the proposed activities will be located in a flood plain or wetland and, if so, whether the activities are in accordance with the Executive Orders.

33.3 Construction of federally-owned housing.

(a) *General.*

Make sure that your estimates for construction of family housing for civilian and military personnel (either rental housing or public quarters) are consistent with the guidelines provided below. These guidelines apply to construction of family housing (including conversions of structures for dwelling purposes), both within the continental United States and overseas, except for construction of military barracks.

Do not include estimated funding for construction of housing for civilian employees, except where necessary to maintain continuity and efficiency of service. You should not include funding estimates for construction of family housing for civilian or military personnel if private capital can be found to do the financing. Unless OMB determines otherwise, you must justify your estimates for construction of housing under one or more of the following conditions:

- The construction is for *public quarters* (that is, where the law authorizes the provision of housing without charge, such as for military public quarters).
- The construction is necessary to meet *requirements for service or protection*.
- There is a lack of available housing.

Where seasonal demands of the agency's program or remoteness of the station would make housing and transportation costs together unreasonably high, and where such conditions jeopardize the agency's ability to maintain a qualified staff, you may submit a request for an exception to these guidelines.

(b) *Requirements of service or protection.*

You may justify construction of housing when the agency head determines that necessary service cannot be rendered, or United States property cannot be adequately protected, unless certain employees are required to live in government quarters at the station. In such cases, you must demonstrate that requirements for service or protection cannot be met if personnel are permitted to live away from the station.

(c) *Lack of available housing.*

You may justify construction of housing at remote stations, at foreign service posts, or under other circumstances when the agency head determines that necessary service cannot otherwise be rendered. You must base this determination on a supportable finding that the available supply—present and prospective—of government and private housing within reasonable commuting distance will not meet the necessary housing requirements. In determining the adequacy of the available supply, consider any additional private housing that can reasonably be expected to be constructed or otherwise become available.

- (1) *Available housing* usually includes both housing for sale and for rent, except where rotation of personnel between stations occurs at intervals of approximately three years. In those cases, only rental housing should be considered available.

(2) *Reasonable commuting distance* is, as a general rule, a distance requiring travel time of not more than two hours per round trip by automobile or public transportation, or resulting in expenses per person of not more than \$5.00 per round trip by public transportation (except in metropolitan areas). You may make exceptions to this rule under the following conditions:

- For military necessity.
- For requirements of service or protection.

(3) *Insufficiency or inadequacy of the housing supply* can be demonstrated by showing that one or more of the following conditions exist and are likely to be of extended duration:

- Housing cannot be located through realtors or advertisement.
- Available housing is substandard by reasons of design, construction, or location.
- Because of size, it is considerably more costly than employees can afford.
- Employees subject to rotation cannot obtain leases permitting them to vacate on thirty days notice, at prevailing rental rates.

33.4 Leases of capital assets.

You must justify that leases of capital assets are preferable to direct government purchase and ownership in accordance with the policies contained in [OMB Circular No. A-94](#).

Lease-purchases and capital leases will be scored consistent with the scorekeeping rules developed under the Budget Enforcement Act of 1990, as revised pursuant to the Balanced Budget Act of 1997 (see [Appendix B](#)). For all lease-purchases and leases of capital assets, you must have sufficient budgetary resources up-front to cover the present value of the lease payments discounted using Treasury interest rates.

For lease-purchases in which the government assumes substantial risk, report outlays over the period during which the contractor constructs, manufactures, or purchases the asset. For capital leases or lease-purchases in which the private sector retains substantial risk, report outlays over the lease period, equal to the annual payments under the lease. The explicit or implicit obligation of the Federal Government to make payments is the most important financial characteristic OMB will review to determine the level of risk involved. OMB will also consider other characteristics in evaluating the level of private sector risk in a project.

You will find detailed instructions on scoring lease-purchases and leases of capital assets in [Appendix B](#).

33.5 Real property.

If you plan to acquire real property, you must include estimates for these acquisitions in your budget submission. The estimates should be consistent with the policies set forth by the Administrator of GSA, as provided by [Executive Order No. 12512](#). Estimates for acquisition of real property under contract must be consistent with obligations reported in object class 32 (see [section 83.7](#)).

33.6 Hospital care.

When you develop estimates for hospital costs, use data based on the use of resources allocated by diagnosis-related groups. Compare these data with payment rates of other payers using similar groupings.

Clearly indicate whether or not capital and depreciation costs are contained. Your estimates should be accompanied by a description of the cost allocation method underlying the data.

If you provide hospital care on a reimbursable basis, you must identify the amount of reimbursement collected from third parties and Federal agencies. Base your estimates of reimbursements and other income from charges for such care on such per diem rates as may be established by the agencies specifically authorized to establish such rates for the particular class of patient and type of care involved, unless different rates or charges are established by or pursuant to a specific requirement of law.

33.7 Inpatient care facilities and medical care services.

In your estimates for capital improvement of Federal inpatient care facilities and plans for provision of major new care services, reflect the results of (or information from) review by State and appropriate area-wide agencies in accordance with [Executive Order No. 12372](#).

33.8 Aircraft.

Reflect the policies on agency aircraft programs and the results of periodic reviews of these programs in accordance with OMB Circulars Nos. [A-126](#) and [A-76](#) (see sections [31.4](#) and [31.8](#)).

33.9 Motor vehicles.

(a) *Changes in agency motor vehicle fleets.*

Your initial budget submission should be accompanied by a report on the size, composition, and annual cost of your agency's motor vehicle fleet in the format of [exhibit 33](#). Using FY 2000 as the starting year, show new totals and changes for each year through 2004. In reporting the composition of your motor vehicle fleet, use the same vehicle categories that you report annually to the General Services Administration. Include with the exhibit a narrative that:

- Explains any significant changes in the size and cost of your vehicle fleet since the beginning of this Administration as well as any changes being implemented in the current year and planned for the budget year as a result of the Director's April 10, 2002 letter to agency heads;
- Briefly describes the ways in which motor vehicles are used to support your agency's mission;
- Discusses agency policies for assigning vehicles; and
- Identifies any impediments (statutory, regulatory, budgetary, or other) to managing your motor vehicle fleet in the most cost-effective manner. Also provide your recommendations for overcoming these impediments.

SECTION 33—ESTIMATES RELATED TO SPECIFIC TYPES OF PROGRAMS AND EXPENDITURES

(b) *Alternative-fueled vehicles.*

Your estimates must reflect the Administration's commitment to comply with the requirements of sections 303 and 304 of the Energy Policy Act of 1992 (EP Act), which mandates that, subject to some conditions and exemptions, 75 percent of vehicles acquired by Federal agencies in FY 1999 and subsequent years should be alternative-fueled vehicles (AFVs). As specified in [Executive Order No. 13149](#) and [OMB Memorandum M-97-04](#), incorporate plans for acquiring AFVs in your vehicle ordering plans for the current, budget, and future years. You must report annually on compliance with sections 303 and 304 of the EP Act ([see section 55](#)).

(c) *Other requirements.*

Base your estimates for sedans and station wagons on the requirements of GSA's Federal Property Management Regulations and Federal Standard No. 122. Do not exceed price limitations in effect for the current year plus the estimated cost of additional systems and equipment justified to GSA, unless otherwise provided by law. Make provisions for replacement of motor vehicles and related equipment in accordance with GSA replacement standards.

33.10 Advisory committees and interagency groups.

Your estimates should reflect the results of the committee reviews required by Executive Order No. 12838, which requires agencies to reduce the number and cost of non-statutory advisory committees. The reduction required by the Executive Order and the agency advisory committee ceilings established by [OMB Circular No. A-135](#) remain in effect. You should consider the continued reduced number and cost of advisory committees in your budget planning. Separately identify the costs of advisory committees established by statute that you are proposing for termination.

You are prohibited from financing *interagency groups* (including boards [except Federal Executive Boards], commissions, councils, committees, and similar groups) by contributions from member agencies' appropriations by a government-wide general provision unless such financing is specifically authorized by statute. Therefore, you must propose financing for such groups in the budget in one of the following forms:

- Appropriations specifically for the interagency group.
- Specific language authorizing interagency funding.

Consider the expenses of advisory committees in your estimates using the policies and provisions contained in GSA's Interim Rule on Federal Advisory Committee Management (Federal Register, Vol. 48, No. 83, April 28, 1983, p. 19326) and any related instructions.

33.11 Benefit payments.

(a) *Medicare and Medicaid.*

Base Medicare and Medicaid estimates on the Department of Health and Human Services forecasts and the latest actual information available. Assumptions on medical care prices related to the consumer price index, utilization rates, number of beneficiaries, and other factors affecting the estimates will be developed jointly by the agency and OMB.

(b) *Other benefit payments.*

Calculate other benefit payment program estimates (including old-age, survivors, and disability insurance; railroad retirement; civilian and uniformed services retirement; supplemental security income; and veterans' compensation, pensions, and readjustment benefits) by multiplying the expected number of beneficiaries in each future year by average benefit payments per beneficiary for each future year. Determine the average benefit payments by identifying changes in the earnings base, as applicable, on which the benefit is computed, unless existing law or Administration-supported legislation provides otherwise. When existing or proposed legislation provides for automatic cost-of-living adjustments, multiply the result by a cost-of-living or other adjustment factor to be supplied by OMB.

33.12 Coastal Barrier Resources Act.

Do not include any new Federal expenditures or financial assistance prohibited by the Coastal Barrier Resources Act (Public Law 97-348).

33.13 Contractor claims.

Include amounts for reimbursement of the Claims and judgment fund for the full amount paid from the fund on behalf of an agency for contractor claims during the past year.

33.14 Credit programs.

Prepare estimates for all direct and guaranteed lending programs in accordance with OMB requirements (see section [185](#), [OMB Circular No. A-129](#), Managing Federal Credit Programs, and the OMB credit subsidy calculator and accompanying documentation).

Guarantees of timely payment of 100 percent of loan principal and interest against all risk create the equivalent of Federal direct loans. The Federal Financing Bank (FFB) generally finances these guarantees by borrowing from the Treasury under the authority of the Federal Credit Reform Act of 1990 (FCRA). The budget treats these guarantees as direct loans. Therefore, if you propose legislation to create a new, or renew an existing, credit program that does not require substantial risk sharing, provide for direct loans rather than loan guarantees.

33.15 Foreign currencies.

Where applicable, refer to Department of Treasury and Department of State guidelines on the use of foreign currencies. Detailed instructions are set forth in the Treasury Financial Manual (chapters 3200 and 9000) and the Department of State Foreign Affairs Manual (Volume 4, Chapter 360). In addition, OMB periodically issues guidance on excess and near excess foreign currencies. You should consult with the Department of Treasury, International Trade Office, the Department of State's Office of Financial Operations, Banking and Foreign Currency staff, or your OMB representative on questions not addressed by these instructions.

33.16 Mail.

In your estimates for official use of the United States mail, package delivery, and/or private carrier service, include a sufficient amount to pay postage due, in accordance with the Postal Service regulations, vendor requirements, and GSA government-wide mail management instructions in effect at the time estimates are prepared. Take into consideration changes in program requirements. Assume maximum use of available postage discounts.

33.17 National security crosscut.

OMB requires information about programs to counter unconventional threats such as combating terrorism, weapons of mass destruction preparedness, critical infrastructure protection, and continuity of operations to conduct an interagency review process that coordinates government-wide funding and implementation of these programs. Detailed instructions about this requirement and the associated electronic reporting format have been issued and are available from your OMB representative. This information is not collected in MAX. Data on enacted funding levels are due in July; on requested levels in October; and on final levels included in the Budget in January.

33.18 Radio spectrum-dependent communications-electronics systems.

The National Defense Authorization Act of 1999 (P.L. 105–261) requires the private sector to reimburse Federal agencies for costs associated with relocating or modifying systems to make spectrum available to new commercial licensees. The Act requires you to submit cost estimates to OMB for such relocations or modifications of radio spectrum-dependent communications-electronics systems anticipated under section 113 of the National Telecommunications Information Administration Organization Act (47 U.S.C. 923). These estimates will form the basis for estimates that must be provided to the Commerce Department's National Telecommunications and Information Administration in advance of an auction of the spectrum that has been reallocated for commercial use. OMB will issue separate instructions regarding this requirement.

33.19 Records storage.

You must budget for the costs of storing and servicing your temporary and inactive records. You will reimburse the National Archives and Records Administration for these costs through individually-executed interagency memoranda of agreements. Agencies should avoid retention of duplicate and inappropriate Federal records.

33.20 Remedial environmental projects.

Prepare estimates of the cost of the design, construction, management, operation, and maintenance of remedial environmental projects at Federal facilities consistent with policies set forth in Executive Order No. [12088](#).

33.21 Space and related requirements.

Include payments required for space, structures and facilities, land, and building services provided by GSA and by others. In addition, provide supporting materials indicating the total amounts for these charges to be paid to GSA and the basis for distributing these amounts by appropriation to OMB if agency rental payments exceed \$5 million in PY, CY or BY (see [section 54](#)). Where you are experiencing employment reductions, plan corresponding reductions in space requirements and associated costs.

33.22 Systems acquisitions.

You should develop your estimates for acquisition of major systems, including information technology systems, consistent with guidance in the *Capital Programming Guide*, the requirements of Title V of the Federal Acquisition Streamlining Act of 1994 (FASA), and the Clinger Cohen Act of 1996 (ITMRA). Reflect the Administration's commitment to thorough capital planning to define requirements and

establish realistic cost, schedule, and performance goals for new acquisitions. Where appropriate, and in accordance with Federal Acquisition Regulations, make your estimates for major information systems projects as narrow in scope and as brief in duration as practical in order to reduce risk, promote flexibility and interoperability, increase accountability, and better match mission need with current technology and market conditions. See Part 7 for reporting requirements related to FASA and the Clinger Cohen Act.

You should ensure electronic and information technology acquisitions meet the requirements of section 508 of the Rehabilitation Act of 1973, as amended and upon becoming effective to allow individuals with disabilities comparable access to and use of data as allowed individuals without disabilities, unless providing such accessibility would impose an undue burden on your agency.

33.23 Taxes and tax expenditures.

Reflect full and explicit consideration of the resources made available by the Federal Government through tax expenditures and other tax incentives. *Tax expenditures* are attributable to provisions of the Federal income tax laws that allow a special exclusion, exemption, or deduction from gross income or that provide a special credit, rate of tax, or deferral of tax (2 U.S.C. 622). Tax expenditures include subsidies provided through the income tax system.

You must consult with the Office of Tax Analysis, Department of Treasury on all proposals for new or modifications of existing taxes whether or not the modification results in a tax expenditure (see section [33.30](#)). After consulting with the Office of Tax Analysis submit a justification of the proposal to OMB. The justification should include the views of the Office of Tax Analysis and address the following items:

- The nature and extent of the problem addressed by the proposal.
- The reason a subsidy is needed.
- The non-tax alternatives.
- The reason a tax change is preferable to the non-tax alternatives.

In addition, you should be prepared to submit justifications for continuing or reenacting existing taxes and tax expenditures in the program areas for which you have primary responsibility. Such justifications will contain the information described above.

In general, tax expenditures are subject to the same degree of performance evaluation as spending and regulatory programs. Tax expenditures often complement or substitute for agencies' spending or regulatory programs, and the resources and incentives provided through tax expenditures can be substantial. Work with the Office of Tax Analysis, which has lead responsibility for tax policy and analysis of tax expenditures, to develop data and methods to evaluate the effects of tax expenditures that affect (or are directed at the same goals as) your programs. You should be prepared to furnish, upon request, problem analyses, estimates of economic effects, and other materials that will provide explicit quantitative information on the relationship of existing or proposed tax expenditures to proposed budget expenditures. See [Part 6](#) for guidance on inclusion of tax expenditure data in annual performance plans.

33.24 Tort claims.

Do not include amounts for payment of tort claims in your estimates, except where a substantial volume of claims is presented regularly.

33.25 Travel.

Make every effort to minimize official travel. Use established sources for official travel, such as the General Services Administration's Travel Management Centers, negotiated hotel rates, city-pair airline contracts, etc. Reflect the allowances authorized under the Federal Travel Regulations issued by GSA or comparable regulations issued by the Department of Defense for travel of military personnel and by the Department of State for foreign service personnel. Take into account changes in prices for travel by commercial modes.

33.26 Water and sewer payments to the District of Columbia.

Include amounts for payment to the government of the District of Columbia for water and sewer services.

33.27 Nuclear reactors.

You must obtain a letter setting forth the recommendations of the Department of Energy before you submit estimates for construction of nuclear research and test reactors.

33.28 Public works in the District of Columbia and National Capital area.

(a) District of Columbia.

You must consult the Commission of Fine Arts regarding plans for the construction of buildings and other structures in the District of Columbia that may affect in any important way the appearance of the city, and other questions involving artistic considerations with which the Federal Government is concerned.

(b) National Capital area.

You must consult with the National Capital Planning Commission in advance regarding proposed developments and projects or commitments for the acquisition of land in the National Capital area, in accordance with 40 U.S.C. § 71d, 71f (see <http://www.ncpc.gov>).

33.29 Radio spectrum-dependent communications-electronics systems.

You must obtain a certification by the National Telecommunications and Information Administration, Department of Commerce that the radio frequency required can be made available before you submit estimates for the development or procurement of major radio spectrum-dependent communication-electronics systems (including all systems employing space satellite techniques) (see [section 33.18](#)).

33.30 Tax expenditures.

You must consult with the Office of Tax Analysis, Department of Treasury on all proposals for new or modifications of existing taxes whether or not the modification results in a tax expenditure ([see section 33.23](#)).

AGENCY MOTOR VEHICLE FLEET REPORT

Size, Composition, and Annual Cost
(in thousands of dollars)

Agency: Department of Government

Fiscal Year	Number of Vehicles by Type *							Total Vehicles	Annual Operating Costs
	Sedans & Station Wagons	Light Trucks 4X2	Light Trucks 4X4	Medium Trucks	Heavy Trucks	Am-bulances	Buses		
FY 2000	316	600	69	210	123	7	72	1,397	\$12,257
Change **	5	4	-1	0	-1	0	0	7	\$1,290
FY 2001	321	604	68	210	122	7	72	1,404	\$13,547
Change **	-20	-2	0	0	0	0	-1	-23	-\$326
FY 2002	301	602	68	210	122	7	71	1,381	\$13,221
Change **	-5	0	1	-4	-1	0	-1	-10	\$302
FY 2003	296	602	69	206	121	7	70	1,371	\$13,523
Change **	-6	-1	-1	0	0	0	-6	-14	-\$534
FY 2004	290	601	68	206	121	7	64	1,357	\$12,990

NOTES:

* These numbers include vehicles that are owned by the agency, leased from commercial sources, and leased from GSA.

** All significant year-to-year changes should be discussed in a narrative provided separately.
