

## Small Business Profile: NEBRASKA

Small businesses make a significant contribution to the U.S. economy, and in 2003, they were the engine of Nebraska's economic performance. Nationally, half of U.S. non-farm private output and employment is generated by small firms with 500 or fewer employees; in Nebraska, small business owners—including women, minorities, and home based individuals—were leaders in the state's economy in 2003. The Office of Advocacy's *Small Business Profile* reports on small businesses in the state using the most currently available data.

**Number of Businesses.** The estimated total number of small businesses in Nebraska in 2003 was 149,600.<sup>1</sup> Of the 45,595 employer firms in 2003, 96.8 percent or an estimated 44,100 were small firms. The estimated number of employer businesses increased by 0.6 percent in 2003. The most recent data available show that non-employer businesses numbered 105,475 in 2001. Self-employment decreased by 1.8 percent, from 97,853 in 2002 to 96,097 in 2003. (Source: U.S. Dept. of Labor, Employment and Training Administration; U.S. Dept. of Commerce, Census Bureau; U.S. Dept. of Labor, Bureau of Labor Statistics.)

**Women-Owned Businesses.** Self-employment by women decreased by 3.6 percent, from 36,575 in 2002 to 35,261 in 2003 and represented 37.1 percent of self-employed persons in the state. Women-owned businesses generated \$4.5 billion in revenues, employed 42,044 workers, and constituted 33,500 firms or 24.1 percent of all firms in 1997. (Sources: U.S. Dept. of Labor, Bureau of Labor Statistics; U.S. Dept. of Commerce, Census Bureau.)

**Minority-Owned Businesses.** In 1997, 23.9 percent or 1,100 of the minority-owned businesses in the state were employer firms, and they generated 87.1 percent of the total minority-owned business revenue of \$0.6 billion. There were 1,400 Hispanic-owned businesses; 1,600 Black-owned businesses; 900 Asian and Pacific Islander-owned businesses; and 800 American Indian and Alaskan Native-owned businesses in 1997. (Source: U.S. Dept. of Commerce, Census Bureau.)

**Business Turnover.** The estimated number of new employer businesses was 4,311 in 2003, which is 1.4 percent less than

the previous year. Business bankruptcies increased by 56.6 percent, and totaled 238 in 2003. Business terminations decreased by 3.5 percent and numbered 5,050 in 2003. (Source: U.S. Dept. of Labor, Employment and Training Administration; Administrative Office of the U.S. Courts; U.S. Dept. of Commerce, Census Bureau.)

**Employment.** Small businesses with fewer than 500 employees numbered 40,028 in 2001 and employed 382,740 people or 51.3 percent of the state's non-farm private workforce (Table 1).<sup>2</sup> Total net employment loss in the state amounted to 3,613 between 2000 and 2001. Of that number, 6,244 are attributable to MSAs (metropolitan statistical areas). During the same time period, firms with fewer than 20 employees gained 3,867 jobs. (Source: U.S. Dept. of Commerce, Census Bureau, Statistics of U.S. Businesses. Note: Urban (MSA) and rural (non-MSA) employment data is available at: [www.sba.gov/advo/stats/data.html](http://www.sba.gov/advo/stats/data.html).)

**Small Business Income.** Small business proprietors' income in 2003 increased by 28.1 percent, from \$4.8 billion in 2002 to \$6.2 billion in 2003. (Source: U.S. Dept. of Commerce.)

**Finance.** Small firms typically use commercial bank lenders and rely on local bank services. Over the last five years there has been a gradual decline in the number of banks in Nebraska (Table 3). The Office of Advocacy has identified banks in each state that make the most loans to small businesses. This information is available in its banking studies available at [www.sba.gov/advo/stats](http://www.sba.gov/advo/stats).

<sup>1</sup> The Office of Advocacy's estimate of the total number of state small businesses is based on the percent of small businesses (2001 Census Bureau firm size data) multiplied by the total number of employer businesses in 2003 (Dept. of Labor). To this total, we add the 2001 number of non-employer firms (Census Bureau).

<sup>2</sup> The number of employers listed in Table 1 is not directly comparable to the figures listed in the *Number of Businesses* section due to different data sources.
