⁵ Data for Mining (Sector 21 in the *North American Industry Classification System*-- United States, 2002) include establishments not governed by the Mine Safety and Health Administration rules and reporting, such as those in Oil and Gas Extraction and related support activities. Data for mining operators in coal, metal, and nonmetal mining are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor. Independent mining contractors are excluded from the coal, metal, and nonmetal mining industries. These data do not reflect the changes the Occupational Safety and Health Administration made to its recordkeeping requirements effective January 1, 2002; therefore, estimates for these industries are not comparable to estimates in other industries.

^{*} This table was replaced on 11/1/2007. The 35 to 44 years old and age not reported age group estimates in the previous version of this table, which was posted on 11/17/2006, were revised in industries included in NAICS 212, Mining (except Oil and Gas). These revised estimates also affect the age group estimates for these higher level industry sectors: Mining (NAICS code 22); Natural Resources and Mining; Goods-producing industries; and total private industry.

NOTE: Dashes indicate data that are not available. Because of rounding and data exclusion of nonclassifiable responses, data may not sum to the totals.
