

of the rudder control system to verify the parts were installed using the correct standard, and corrective actions if necessary. For certain VLAs, this new AD requires repetitive inspections of the VLA and corrective action if necessary. This new AD also provides a terminating action for the repetitive inspections. Furthermore, this new AD reduces the applicability of affected airplanes.

As published, that final rule incorrectly specified the AD number for the superseded AD in a single location in the AD as “2002–08–13” instead of “2001–22–02.”

Since no other part of the regulatory information has been changed, the final rule is not being republished in the Federal Register.

The effective date of this AD remains March 21, 2005.

§ 39.13 [Corrected]

■ On page 7385, in the third column, paragraph 2., of PART 39—AIRWORTHINESS DIRECTIVES is corrected to read as follows:

* * * * *
2005–03–14 Airbus: Docket 2003–NM–16–AD. Amendment 39–13970. Supersedes AD 2001–22–02, Amendment 39–12481.
* * * * *

Issued in Renton, Washington, on May 26, 2005.

Ali Bahrami,

Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2005–21329; Airspace Docket No. 05–AEA–13]

RIN 2120–AA66

Revocation of VOR Federal Airway V–623

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revokes VOR Federal Airway V–623 that extends from the Sparta, NJ, Very High Frequency Omnidirectional Range/Tactical Air Navigation (VORTAC) to the Carmel, NY, Very High Frequency Omnidirectional Range/Distance Measuring Equipment (VOR/DME). The FAA is taking this action due to unsatisfactory navigation signal coverage.

DATES: Effective Date: June 3, 2005.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Airspace and Rules, Office of System Operations and Safety, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

History

On February 7, 2005, the FAA published in the Federal Register a final rule establishing V–623 (70 FR 6336) with an effective date of May 12, 2005. However, navigation aid signal coverage problems have been identified which remain unresolved. As a result, the FAA has decided to revoke V–623.

The Rule

The FAA is amending title 14 Code of Federal Regulations (14 CFR) part 71 by revoking VOR Federal airway V–623. The FAA is taking this action due to unresolved navigation aid signal coverage problems along segments of the route.

VOR Federal Airways are published in paragraph 6010 of FAA Order 7400.9M dated August 30, 2004 and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by Reference, Navigation (air).

The Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.9M, Airspace Designations and Reporting Points, dated August 30, 2004, and effective September 16, 2004, is amended as follows:

Paragraph 6010(a)—Domestic VOR Federal Airways

* * * * *

V–623 [Revoked]

* * * * *

Issued in Washington, DC, on May 26, 2005.

Edith V. Parish,

Acting Manager, Airspace and Rules.

BILLING CODE 4910–13–P

FEDERAL TRADE COMMISSION

16 CFR Part 305

Rule Concerning Disclosures Regarding Energy Consumption and Water Use of Certain Home Appliances and Other Products Required Under the Energy Policy and Conservation Act (“Appliance Labeling Rule”)

AGENCY: Federal Trade Commission.

ACTION: Final rule.

SUMMARY: The Federal Trade Commission (“Commission”) announces that the current ranges of comparability required by the Appliance Labeling Rule (“Rule”) for water heaters, room air conditioners, furnaces, boilers, and pool heaters will remain in effect until further notice. In addition, the Commission is revising Table 1 in § 305.9 of the Rule to incorporate the latest figures for average unit energy costs published by the Department of Energy (“DOE”) this year and to update cost figures in Appendices H and I of the Rule. The Commission is also making technical amendments to § 305.9 and Appendix E of the Rule to clarify the applicability of the cost figures in Table 1 to products covered by the Rule.

DATES: The amendments published in this notice are effective September 1, 2005.

FOR FURTHER INFORMATION CONTACT: Hampton Newsome, Attorney, 202-326-2889, Division of Enforcement, Bureau of Consumer Protection, Federal Trade Commission, Washington, DC 20580.

SUPPLEMENTARY INFORMATION: On November 19, 1979, the Commission issued a final rule in response to a directive in section 324 of the Energy Policy and Conservation Act ("EPCA"), 42 U.S.C. 6201. The Rule requires manufacturers of all covered appliances (e.g., water heaters and room air conditioners) to disclose specific energy consumption or efficiency information derived from standard DOE test procedures at the point of sale in the form of an "EnergyGuide" label and in catalogs. It also requires manufacturers of furnaces and central air conditioners either to provide fact sheets showing additional cost information, or to provide that information in an industry directory. Manufacturers must include, on labels and fact sheets, a "range of comparability" which shows the highest and lowest energy consumption or efficiencies for all comparable appliance models. The Rule further requires that labels for some products display the estimated annual operating cost of the product based on a specified DOE national average cost for the fuel the appliance uses.

Section 305.8(b) of the Rule requires manufacturers, after filing an initial notification, to report certain information annually to the Commission by specified dates for each product type.¹ Each year the Commission reviews the submitted data and publishes new ranges of comparability if an analysis of the new information indicates that the upper or lower limits of the ranges have changed by more than 15%. Additional information about the Commission's Appliance Labeling Rule can be found at www.ftc.gov/appliances.

I. Review of 2005 Data Submissions (Room Air Conditioners, Water Heaters, Furnaces, and Pool Heaters)

Manufacturers have submitted data for water heaters (including storage-type, gas-fired instantaneous, and heat pump water heaters), room air conditioners, furnaces (including boilers), and pool heaters. The ranges of comparability for these products have not changed significantly. Therefore, the

current ranges for these products will remain in effect until further notice.

Water heater manufacturers should continue to base the disclosures of estimated annual operating costs required at the bottom of the EnergyGuides for these products on the 2004 Representative Average Unit Costs of Energy for electricity (8.60¢ per kiloWatt-hour), natural gas (91.0¢ per therm), propane (\$1.23 per gallon), and/or heating oil (\$1.28 per gallon) (*see* 69 FR 42107 (July 14, 2004)).

Manufacturers of room air conditioners must continue to use the ranges for room air conditioners that were published on November 13, 1995 (60 FR 56945, at 56949). Manufacturers of room air conditioners must continue to base the disclosures of estimated annual operating cost required at the bottom of EnergyGuides for these products on the 1995 Representative Average Unit Costs of Energy for electricity (8.67¢ per kiloWatt-hour) that was published by the Commission on February 17, 1995 (60 FR 9295). The Commission is amending Appendix E (range information for room air conditioners) to clarify that this cost figure is applicable to room air conditioner labels.

II. Amendments to Table 1 and Section 305.9(a)

A. Table 1

Table 1 in § 305.9(a) of the Rule sets forth the representative average unit energy costs for the current year. As stated in § 305.9(b), the Table is to be revised periodically on the basis of updated information provided by DOE. On March 11, 2005, DOE published the most recent figures for representative average unit energy costs (70 FR 12210). The Commission is revising Table 1 in § 305.9 to reflect these latest cost figures.

B. Section 305.9(a)

In addition to revising the cost information in Table 1, the Commission is amending § 305.9(a) to clarify the applicability of that information to the Rule's requirements. Section 305.9(a) states that the representative unit energy costs in Table 1 should "be utilized for all requirements of this part." The Commission is changing this language because the cost data in Table 1 do not necessarily apply to all the Rule's requirements. Although the cost data apply to fact sheets and directories for furnaces and central air conditioners under § 305.11(b) and (c), manufacturers should not necessarily use the Table for calculating operating costs on EnergyGuide labels. Instead, as the

Commission has routinely stated in the past when annually updating the cost figures,² manufacturers preparing EnergyGuide labels should use the cost figure that was applicable when the most recent ranges of comparability were published. For example, if the Commission published ranges of comparability for a given product in 2001, manufacturers should continue to use the 2001 DOE energy cost figures until the Commission announces otherwise. Paragraphs accompanying the range tables in the Rule's appendices contain the applicable operating costs that should be used on EnergyGuide labels for refrigerators, refrigerator-freezers, freezers, dishwashers, clothes washers, water heaters, and room air conditioners. The Commission is changing the language in § 305.9(a) to clarify that, for purposes of Appliance Labeling Rule compliance, the costs in Table 1 apply to disclosures on fact sheets and in directories for furnaces and central air conditioners as required by § 305.11(b) and (c). This amendment should eliminate any confusion caused by the current language.

III. Operating Cost Information for Central Air Conditioners Disclosed on Fact Sheets and in Industry Directories

The Commission is amending the cost calculation formulas in Appendices H and I that manufacturers of central air conditioners must include on fact sheets and in directories to reflect this year's energy costs figures published by DOE.³

IV. Operating Cost Representations For Products Covered by EPCA but Not by the Commission's Rule

Manufacturers of products covered by section 323(c) of EPCA, 42 U.S.C. 6293(c), but not by the Appliance Labeling Rule (e.g., clothes dryers, television sets, kitchen ranges and ovens, and space heaters) should use the 2005 DOE energy cost figures for their operating cost representations until the DOE publishes new figures in 2006.

² e.g., 68 FR 23584 (May 5, 2003), 67 FR 39269 (June 7, 2002), 64 FR 7783 (Feb. 17, 1999), 62 FR 5316 (Feb. 5, 1997), 60 FR 9295 (Feb. 17, 1995), and 57 FR 6071 (Feb. 20, 1992).

³ Manufacturers of furnaces and central air conditioners may elect to disseminate information regarding the efficiencies and costs of operation of their products by means of a directory or similar publication instead of on fact sheets as long as they meet certain conditions specified in the Rule at § 305.11(c).

¹ Annual reports for room air conditioners, heat pump water heaters, storage-type water heaters, gas-fired instantaneous water heaters, furnaces, boilers, and pool heaters are due May 1.

V. Labeling of Refrigerators, Refrigerator-Freezers, Freezers, Clothes Washers, Dishwashers, Water Heaters, and Room Air Conditioners

Manufacturers of these products must continue to use the DOE cost figures that were published and in effect the year the ranges of comparability last changed for the applicable covered product.⁴ The cost figures currently applicable to these products are provided in the appendices to the Rule. Manufacturers must continue to use these figures until new ranges of comparability and cost information for an applicable product are published by the Commission. In addition, the text below the operating cost disclosure on the EnergyGuide label should identify the applicable energy cost figure used.

VI. Administrative Procedure Act

The amendments published in this notice involve routine, technical and minor, or conforming changes to the Rule's labeling requirements. These technical amendments merely provide a routine change to the cost information in the Rule and clarify the requirements in the Rule, without changing or imposing any new legal obligations on parties subject to the Rule. Accordingly, the Commission finds for good cause that public comment and a 30-day effective date for these technical, procedural amendments are impractical and unnecessary (5 U.S.C. 553(b)(A)(B) and (d)).

VII. Regulatory Flexibility Act

Regulatory Flexibility Act analysis provisions (5 U.S.C. 603–604) are not applicable to this proceeding to the extent that the amendments do not impose any new obligations on entities regulated by the Appliance Labeling Rule and are exempt from the Administrative Procedure Act's notice-and-comment requirements, as explained above. In any event, these technical amendments merely provide a routine change to the cost information in the Rule and clarify existing requirements. Thus, the amendments will not have a "significant economic impact on a substantial number of small entities." 5 U.S.C. 605. The Commission has concluded, therefore, that a regulatory flexibility analysis is not necessary, and, in any event, certifies, under section 605 of the Regulatory Flexibility Act (5 U.S.C. 605(b)), that the amendments announced today will not have a significant economic impact on a substantial number of small entities, to the extent, if any, that the Act applies.

VIII. Paperwork Reduction Act

In a 1988 notice (53 FR 22113), the Commission stated that the Rule contains disclosure and reporting requirements that constitute "information collection requirements" as defined by 5 CFR 1320.7(c), the regulation that implements the Paperwork Reduction Act.⁵ The Commission noted that the Rule had

been reviewed and approved in 1984 by the Office of Management and Budget ("OMB") and assigned OMB Control No. 3084–0068. OMB has extended its approval for its recordkeeping and reporting requirements until December 31, 2007. The amendments now being adopted do not change the substance or frequency of the recordkeeping, disclosure, or reporting requirements and, therefore, do not require further OMB clearance.

List of Subjects in 16 CFR Part 305

Advertising, Energy conservation, Household appliances, Labeling, Reporting and recordkeeping requirements.

■ Accordingly, 16 CFR part 305 is amended as follows:

PART 305—[AMENDED]

■ 1. The authority citation for part 305 continues to read:

Authority: 42 U.S.C. 6294.

■ 2. Section 305.9(a) is revised to read as follows:

§ 305.9 Representative average unit energy costs.

(a) Table 1, below, contains the representative unit energy costs to be utilized for operating cost disclosures for furnaces and central air conditioners on fact sheets or in directories as required by § 305.11(b)&(c) of this part.

TABLE 1.—REPRESENTATIVE AVERAGE UNIT COSTS OF ENERGY FOR FIVE RESIDENTIAL ENERGY SOURCES (2005)

Type of energy	In commonly used terms	As required by DOE test procedure	Dollars per million Btu ¹
Electricity	9.06¢/kWh ^{2,3}	\$0.0906/kWh	\$26.55
Natural gas	\$1.092/therm ⁴ or \$11.23 MCF ^{5,6}	\$0.00001092/Btu	10.92
No. 2 heating oil	\$1.76/gallon ⁷	\$0.00001268/Btu	12.68
Propane	\$1.55/gallon ⁸	\$0.00001694/Btu	16.94
Kerosene	\$2.20/gallon ⁹	\$0.00001632/Btu	16.32

¹ Btu stands for British thermal unit.

² Wh stands for kiloWatt hour.

³ 1 kWh = 3,412 Btu.

⁴ 1 therm = 100,000 Btu. Natural gas prices include taxes.

⁵ MCF stands for 1,000 cubic feet.

⁶ For the purposes of this table, 1 cubic foot of natural gas has an energy equivalence of 1,028 Btu.

⁷ For the purposes of this table, 1 gallon of No. 2 heating oil has an energy equivalence of 138,690 Btu.

⁸ For the purposes of this table, 1 gallon of liquid propane has an energy equivalence of 91,333 Btu.

⁹ For the purposes of this table, 1 gallon of kerosene has an energy equivalence of 135,000 Btu.

* * * * *

■ 3. Appendix E to part 305 is revised to read as follows:

⁴ Sections 305.11(a)(5)(i)(H)(2) and (3) of the Rule (16 CFR 305.11(a)(5)(i)(H)(2) and (3)) require that labels for refrigerators, refrigerator-freezers, freezers, clothes washers, dishwashers, water heaters, and room air conditioners contain a secondary energy usage disclosure in terms of an estimated annual

operating cost (labels for clothes washers and dishwashers will show two such secondary disclosures—one based on operation with water heated by natural gas, and one based on operation with water heated by electricity). The labels also must disclose, below this secondary estimated

annual operating cost, the fact that the estimated annual operating cost is based on the appropriate DOE energy cost figure, and must identify the year in which the cost figure was published.

⁵ 44 U.S.C. 3501–3520.

APPENDIX E TO PART 305—ROOM AIR CONDITIONERS
[Range information]

Manufacturer's rated cooling capacity in Btu's/yr	Range of energy efficiency ratios (EERs)	
	Low	High
Without Reverse Cycle and with Louvered Sides:		
Less than 6,000 Btu	8.0	10.0
6,000 to 7,999 Btu	8.5	10.3
8,000 to 13,999 Btu	9.0	12.0
14,000 to 19,999 Btu	8.8	10.7
20,000 and more Btu	8.2	10.0
Without Reverse Cycle and without Louvered Sides:		
Less than 6,000 Btu	(*)	(*)
6,000 to 7,999 Btu	8.5	9.6
8,000 to 13,999 Btu	8.5	9.2
14,000 to 19,999 Btu	(*)	(*)
20,000 and more Btu	(*)	(*)
With Reverse Cycle and with Louvered Sides	8.5	11.5
With Reverse Cycle, without Louvered Sides	8.0	9.0

* No data submitted for units meeting Federal Minimum Efficiency Standards effective January 1, 1990.

Cost Information for Appendix E

When the ranges of comparability in Appendix E are used on EnergyGuide labels for room air conditioners, the estimated annual operating cost disclosure appearing in the box at the bottom of the labels must be derived using the 1995 Representative Average Unit Costs for electricity (8.67¢ per kiloWatt-hour) and the text below the box must identify the costs as such.

Appendix H to part 305 [Amended]

■ 4. In section 2 of Appendix H of Part 305, the text is amended by removing the figure “8.60¢” wherever it appears and by adding, in its place, the figure “9.06¢”. In addition, the text in this section is amended by removing the figure “12.9¢” wherever it appears and

by adding, in its place, the figure “13.6¢”.

■ 5. The formula in section 2 of Appendix H of part 305 is revised to read as follows in both places that it appears:

Appendix H to Part 305—Cooling Performance and Cost for Central Air Conditioners

* * * * *

$$\text{Your estimated cost} = \frac{\text{Listed average annual operating cost}^*}{1,000} \times \frac{\text{Your cooling load hours}^{**}}{1,000} \times \frac{\text{Your electrical rate in cents per KWH}}{9.06¢}$$

* * * * *

Appendix I to Part 305 [Amended]

■ 6. In section 2 of Appendix I of part 305, the text is amended by removing the figure “8.60¢” wherever it appears and by adding, in its place, the figure “9.06¢”. In addition, the text and

formulas are amended by removing the figure “12.90¢” wherever it appears and by adding, in its place, the figure “13.6¢”.

■ 7. In section 2 of Appendix I of part 305, the formula is revised to read as follows in both places that it appears:

Appendix I to Part 305—Heating Performance and Cost for Central Air Conditioners

* * * * *

$$\text{Your estimated cost} = \text{Listed annual heating cost}^* \times \frac{\text{Your electrical cost in cents per KWH}}{9.06¢}$$

* * * * *

By direction of the Commission.

Donald S. Clark,
Secretary.
