Yearly Production Totals

Year	Total Unitized Yearly Production Volume	Total Unitized Average Day Production Rate	Yearly Production Volume from Federal Leases	Average Day Production Rate from Federal Leases
	BBLs	BBLs/Day	BBLs	BBLs/Day
2001	1,265,883	20,417	225,834	3,642
2002	17,902,989	49,049	3,193,893	8,750
2003	22,970,112	62,932	4,097,868	11,227
2004	25,079,017	68,522	4,474,097	12,224
2005	22,421,483	61,429	3,999,993	10,959
2006	18,810,628	51,536	3,355,816	9,194
2007	13,877,290	39,877	2,475,709	7,114
2008	6,886,660	32,332	1,228,580	5,768

Total **129,214,062 BBLs** **23,051,789 BBLs**

Notes:

Total Unitized Production - Is the volume of production from the entire unit, both from State and Federal leases. The State leases are allocated 82.160% of the total unitized production and the Federal leases are allocated the remaining 17.840%.

BBLs - Stock Tank Barrels of Oil at Standard Conditions of 14.73 pounds per square inch absolute and 60 degrees Fahrenheit.

Production volumes and rates are subject to change.
