

PESTICIDES APPLIED

DATE: _____

TIME: _____

DO NOT ENTER
TREATED PROPERTY OR
REMOVE MARKERS FOR 24 HOURS
FOLLOWING THE APPLICATION

Homeowners Please Remember the Following:

- Markers must be placed every 50 feet along the perimeter of the area where pesticides are to be applied
- Every treated area over 100 square feet must be marked by at least 2 notification markers
- Markers must be posted on the day of the lawn application and must be in place **before** pesticides are applied
- Markers must be clearly visible to persons immediately outside the perimeter of the property
- The top of the marker must be at least 12 inches above the ground
- Text on the markers must be in contrasting color to the background
- Due to variations in printers, please measure the above marker to ensure you comply with the law.
