

**Winter Garden Educational Workshop**  
**Saturday, September 27th**

The workshop will begin at 1:00 p.m. and end at 5:00 p.m. and refreshments will be provided. Please bring gloves and small farm tools as we may not have enough for everybody to work in the raised beds where we will be planting. Your volunteer efforts will help in maintaining the bio habitat of the Bosque! This is a great family volunteer opportunity!

This workshop will be led by Eric Garretson, president of the downtown growers market. We welcome your volunteer efforts and willingness to learn about organic growing in the New Mexico winter climate. Growing your own food is more rewarding than ever especially during a winter season when fresh, healthy produce is hard to come by. This workshop will offer a complete how to do it yourself.

The Hubbell Open Space Property is a historical living museum and organic farm located at 6029 Isleta S.W and managed by the Hubbell House Alliance. The property and its surroundings, operated by Bernalillo County Open Space, was once a famous trading post, sheep ranch headquarters, post office and home along the Camino Real. The Hubbell House has often been referred to as "the south valley's tremendous treasure."
