

# EARTH

# DAY

## APRIL 19

## 10:00 AM - 2:00 PM

Visit the BioPark's Zoo, Aquarium, Botanic Garden and Tingley Beach to discover the Earth's many animals, plants and habitats! Check out the Celebra la Ciencia stations at each facility to participate in fun, hands-on bilingual science activities.

**AT THE ZOO:** Learn about endangered animals from around the world and how you can help protect them. Participate in special "Year of the Frog" activities in the park, make your own adobe brick and learn how saving energy saves animals.

**AT THE AQUARIUM:** Follow a drop of water from the Rio Grande to the sea as you learn how to protect the ocean even though you live over a thousand miles away. Discover amazing aquatic animals throughout the Aquarium and make your own "mini aquarium" to take home (while supplies last).

**AT THE BOTANIC GARDEN:** Can you have a water-wise landscape that's also beautiful? Yes! Find out how and learn about other amazing plants and even animals found within the Garden. You can plant a seed to grow at home or get the dirt on soil as you create Earth-art with clay and sand.

**AT TINGLEY BEACH:** Stop by the BioVan to visit some of the animals and plants that live along the Rio Grande, and take a short, guided hike in the nearby bosque. You'll learn how wetlands support an incredible variety of fish, birds, microscopic organisms and other amazing animals.

Activities are included with regular admission. For more information, call (505) 764-6245. The BioPark is a division of the City of Albuquerque's Cultural Services Department. For general inquiries, please call 311 (Relay NM or 711) or visit [www.cabq.gov/biopark](http://www.cabq.gov/biopark).
