TABLE R73. Incidence rates¹ for nonfatal occupational injuries and illnesses involving days away from work² per 10,000 full-time workers by part of body affected by injury or illness and industry division, 2000 — Continued

| Part of body | Part of body code ³ | Private industry ⁴ | Goods producing | | | | Service producing | | | | |
|------------------------------|--------------------------------|-------------------------------|---|---------------------|--------------|---------------|--|-----------------|--------------|-------------------------------------|----------|
| | | | Agriculture, forestry, and fishing ⁴ | Mining ⁵ | Construction | Manufacturing | Transportation and public utilities ⁵ | Wholesale trade | Retail trade | Finance, insurance, and real estate | Services |
| Nonclassifiable | 9999 | 1.1 | 1.5 | 0.4 | 2.8 | 1.0 | 2.0 | 0.7 | 0.7 | 0.4 | 1.0 |

¹ Incidence rates represent the number of injuries and illnesses per 10,000 full-time workers and were calculated as: (N/EH) x 20,000,000 where

N = number of injuries and illnesses
 EH = total hours worked by all employees during the calendar year
 20,000,000 = base for 10,000 equivalent full-time workers (working 40 hours per week, 50 weeks per year)

² Days-away-from-work cases include those which result in days away from work with or without restricted work activity.

³ Based on the 1992 Occupational Injury and Illness Classification System developed by the Bureau of Labor Statistics.

⁴ Excludes farms with fewer than 11 employees.

⁵ Data conforming to OSHA definitions for mining operators in coal, metal, and nonmetal mining and for employers in railroad transportation are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor, and by the Federal Railroad Administration, U.S. Department of Transportation. Independent mining contractors are excluded from the coal, metal, and nonmetal industries.

⁶ Less than 0.1 case per 10,000 full-time workers.

NOTE: Dashes indicate data that are not available. Because of rounding, data may not sum to totals.

n.e.c. = not elsewhere classified.
