### Contents

Introduction [page E-1-1](#)  
Notification of the Plan [page E-1-2](#)  
Responsibilities of Emergency Response Locations [page E-1-2](#)  
List of Emergency Response Locations [page E-1-3](#)

---

### Introduction

This appendix contains guidance for activating EXCERPT's Emergency Response Plan (the Plan), the responsibilities of emergency response locations, and a list of those locations.

The Plan is designed to continue supplying Export Summary information to Authorized Certification Officials (ACOs) while EXCERPT **cannot** be accessed because of a total system shutdown. The Plan is activated by Export Services (ES) using an e-mail notification and is utilized until EXCERPT is returned to online status.

The Plan provides contacts for ACOs, the responsibilities of notification, and emergency response locations (delegated to provide backup export summary information during a total system shutdown).

The Plan allows for the Center for Environmental and Regulatory Information Systems (CERIS) of Purdue University to provide emergency response locations with a backup CD-ROM (CD) containing Export Summaries. Designated contacts at each emergency response location should be prepared to load the backup CD into a local computer.

While the Plan is activated, ACOs need to contact their emergency response location to obtain Export Summary information. ACOs should limit their inquiries to immediately needed information. Requests for routine information should be processed after the Plan is deactivated.

## Notification of the Plan

When the Plan is activated, the following notification procedures will be followed:

1. CERIS will notify ES and private industry when EXCERPT totally shuts down.
2. ES will use PPQ's electronic bulletin board to notify ACOs when EXCERPT totally shuts down and the Plan is to be activated.
3. Export Certification Specialists (ECSs) and supervisors will notify those ACOs under their jurisdiction who lack access to PPQ's electronic bulletin board.
4. CERIS will provide backup CDs to emergency response locations on a regular basis, at least monthly.
5. CERIS will notify ES and private industry when EXCERPT is returned to online status.
6. ES will use PPQ's electronic bulletin board to notify ACOs when EXCERPT is returned to online status.

---

## Responsibilities of Emergency Response Locations

Emergency response locations include both Federal and State offices in the field delegated to provide backup Export Summary information during a total system shutdown. PPQ regional directors will designate personnel and locations based on the need to provide adequate emergency service when the Plan is activated.

Emergency response locations are responsible for the following:

1. Having the following resources available when the Plan is activated:
  - A. Computer with word processing software
  - B. Phone
  - C. Knowledgeable EXCERPT user to answer inquiries
  - D. Computer printer (optional)
  - E. FAX machine (optional)
2. Designating response personnel to load each backup CD into the designated computer for access **only** when the Plan is activated.

## List of Emergency Response Locations

While the Plan is activated, ACOs need to contact their emergency response location to obtain Export Summary information. ACOs should limit their inquiries to immediately needed information. Requests for routine information should be processed after the Plan is deactivated.

Contact the designated emergency response location that services your work location. If you **do not** get a response, contact any other location listed within the PPQ region.

See [Table E-1-1](#) on [page E-1-3](#) for emergency response locations and contact information.
