§ 680.5 Recordkeeping and Reporting

(9) Sampling.

Each CR crab landing and all crab retained onboard a vessel making a CR crab landing are subject to sampling by authorized officers and observers.

(b) *CR landing report procedure.*

(1) Properly debited landing.

All retained crab catch must be weighed, reported, and debited from the appropriate IFQ or IPQ account under which the catch was harvested, as appropriate.

(2) An RCR **and his or her designee(s)** must enter his or her authorized user ID and password to access the IERS.

(3) The crab IFQ permit holder, crab IFQ hired master, or person who harvested Adak or CDQ crab must provide his or her name, NMFS person ID, crab IFQ number, and his or her own password or personal identification number (PIN), if required, to enter a CR crab landing report;

(4) The RCR must enter the landing and/or processing data specified under paragraphs (d)(7), (d)(8) or (d)(9) of this section in the Internet submission form(s) or other NMFS-approved method.

(5) Deadloss and personal use crab must be debited from the appropriate CR allocation under which the catch was harvested.

(6) Deadloss and personal use crab that an IPQ holder did not purchase are not required to be debited from the IPQ holder's account.

(7) A properly debited, printed receipt from the IERS or other NMFS-approved reporting method constitutes confirmation that NMFS received the CR crab landing report and that the permit holder's account is properly debited.

(8) The RCR and the crab IFQ permit holder, crab IFQ hired master, IPQ permit holder, or person who harvested Adak or CDQ crab must each sign the printed receipt(s) to indicate that the landing reports are accurate and must enter date signed.

(9) The receipt must be retained as specified under paragraph (a)(7) of this section.

(10) A person who for any reason is unable to properly submit an electronic CR crab landing report or debit a landing as required under paragraph (d) of this section must telephone NMFS (800-304-4846).

(11) The address of the NMFS Alaska Region Internet site will be provided to all RCRs receiving crab.

(c) *Interagency electronic reporting system (IERS).*

Unless an alternative reporting method has been approved by NMFS, an RCR must obtain at his or her own expense: hardware, software, and Internet connectivity to support Internet submissions of the CR crab landing report on the IERS. The IERS will provide a web page where the applicant will enter information.

(1) IERS processor registration.

(i) **Before an RCR and his or her designee(s) can use the eLandings system to report landings, he/she must request authorization to use the system, reserve a particular user ID, and receive a password. Each RCR and his or her designee(s) must provide information needed to process account access into the IERS by completing an IERS Processor Registration at <http://www.fakr.noaa.gov/sustainablefisheries/crab/crfaq.htm>. Upon receiving the signed registration, the IERS will validate that all required information is submitted, that the information entered is in correct format, and that the requested user ID is not already in use. The IERS will generate a PDF document from the information entered by the applicant.**

(ii) The user **must** print, sign, and submit the application **to the address provided on the registration form. A user ID will be activated after a signed registration form is received. The signature of an** applicant on **the** form means that the applicant agrees to use access privileges to the IERS for purposes of submitting legitimate fishery landing reports and to safeguard the user ID and password to prevent their use by unauthorized persons. In addition, signature of the RCR ensures that the applicant is authorized to submit landing reports for the processor permit number(s) listed.

(iii) Agency staff will review the form, confirm that the user should be authorized for the system, and will activate the user on the IERS. The IERS will then send the user an e-mail informing the user that his or her new user ID is ready for use.

§ 680.5 Recordkeeping and Reporting

(2) Contents of the IERS processor registration.

The application for **IERS processor registration must contain the following information:** Date of application, name of applicant (user), processor name and location (city and state) or vessel name, if applicable, business telephone number, business facsimile number, business e-mail address (if available), requested user ID, initial password, security question, security answer, ADF&G processor code(s), Federal processor permit number, if applicable, and RCR permit number(s).
