(611E) 5	01/83	Aboveground	Steel/Carbon Steel	300,006	Nos. 1,2, or 4 Fuel Oil
(611F) 6	01/83	Aboveground	Steel/Carbon Steel	300,006	Nos. 1,2, or 4 Fuel Oil

## GENERAL CONDITIONS FOR MAJOR PETROLEUM FACILITY LICENSE

1. No chemical dispersants may be employed in the clean-up of a spill or discharge without approval. If a Spill Prevention and Containment Plan or spill clean-up plan contains a list of chemical or biological agents that are to be used in clean-up operations, the use of such chemicals is subject to prior approval from the Department.
2. The use of sorbents shall be limited to the cleanup of small spills and the final cleanup of large spills.
3. Disposal of all recovered petroleum products and oil-soaked debris shall be in accordance with 6 NYCRR Section 611.6.
4. The owner or operator shall maintain all equipment, including spill clean-up equipment, in good repair.
5. Major additions, changes or rehabilitation in the structures or equipment of the onshore major facility, which would materially affect the potential for a petroleum discharge must be approved in advance by the Department. Any amendments or changes to any plans submitted with or referred to in the license application shall be promptly furnished to the Regional Offices.
6. The Department shall be notified of all leaks or spills immediately, but in no case later than 2 hours after the spill. Notification must be made by calling the DEC Spill Hotline at (800) or (518) 457-7362.
7. Any person transporting and/or disposing of recovered oil and/or oily debris must be registered by the Department, as a "REGISTERED WASTE HAULER" pursuant to 6 NYCRR Part 364 and must transport the material to a disposal facility shown on the Part 364 registration.
8. License fees must be paid by the licensee as required by 17 NYCRR Section 30.9, "Oil Spill Prevention and Control, Licensing of Major Facilities".
9. The owner or operator of the facility shall provide access to the facility to representatives of the Department during normal business hours for the purpose of determining compliance with State and federal regulations and all general, standard and special conditions of this license.
10. Department Initiated Modifications, Suspensions or Revocations and Licensee Initiated Modifications:

### **Department Initiated Modifications, Suspensions or Revocations**

- (a) The Department may modify, suspend or revoke this license at any time based on the grounds including, but not limited to, the following:
  - (1) materially false or inaccurate statements in the license application or supporting documentation;
  - (2) failure by the licensee to comply with any terms or conditions of the license;

**MAJOR OIL STORAGE FACILITY LICENSE  
SPECIAL CONDITIONS CHECK-LIST**

**Instructions:** If an "X" appears in the column labeled "Condition", the specified condition applies to the license issued to the facility. The details of each condition and compliance dates are included in the section titled, "Special Conditions for Major Oil Storage Facilities". In addition, please refer to the "Addendum to Special Conditions" on page MOSF-LP-13.

			<b><u>Investigation and Remediation Plan</u></b>
_____	4(a)	_____	Submit Subsurface Investigation Plan
_____	4(b)	_____	Submit Subsurface Remediation Plan

- (f) Where the Department proposed to modify a license and the licensee requests a hearing on the proposed modification, the original license conditions remain in effect until there has been a decision issued by the Commissioner as provided herein. At such time the modified license conditions will take effect.
- (g) Nothing in these license conditions shall preclude or affect the Commissioner's authority to issue summary abatement orders under ECL 71-0301 or take emergency action summarily suspending a license under section 401(3) of the State Administrative Procedure Act.

#### **Licensee Initiated Modifications**

Applications for modification of a license must include a statement of necessity or reasons for the modification, as well as a description of the requested modification. The Department shall notify the licensee of its decision, by mail, within fifteen days of receipt of such application. An application for modification may be denied for failure to meet any of the standards or criteria applicable under the Navigation Law and regulations adopted thereunder, Article 8 of the Environmental Conservation Law or for any of the reasons set forth in paragraphs (a) (1) - (6) above.

The Department may determine that an application for modification shall be treated as a new application for a license if:

- (1) the application represents a material change in existing license conditions or in the scope of permitted activities; or
- (2) there is newly discovered material information or there has been a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing license;

Until the Department grants a request for modification requested by a licensee, the original license conditions remain in effect.

- (3) exceeding the scope of the project as described in the license application;
  - (4) failure to pay monthly license fees and/or submit monthly license reports;
  - (5) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing license: or
  - (6) noncompliance with previously issued license conditions, orders of the Commissioner, any provision of the Navigation Law or Environmental Conservation Law or the regulations adopted pursuant to such laws related to the licensed activity.
- (b) The Department shall send a notice of intent to modify, suspend or revoke a license to the licensee by mail or personal service. The notice shall state the alleged facts or conduct which appear to warrant the intended action.
- (c) Within 15 days of the date of such notice of intent, the licensee may submit a written statement to the Department, giving reasons why the permit should not be modified, suspended or revoked, or requesting a hearing, or both. Failure by the licensee to submit a timely statement shall result in the Department's action becoming effective on the date specified in the notice of intent.
- (d) Within 30 days of receipt of the licensee's statement, the Department shall either:
- (1) if a statement without a request for a hearing is submitted, rescind or confirm the notice of intent based on a review of the information provided by the licensee; or
  - (2) if a statement with a request for a hearing has been submitted, notify the licensee of a date and place for a hearing, to be commenced not later than 60 days from this notification.
- (e) In the event such a hearing is held, the Commissioner shall, within 30 days of receipt of the complete record, issue a decision which:
- (1) continues the license in effect as originally issued;
  - (2) modifies the license, or suspends it for a stated period of time or upon stated conditions; or
  - (3) revokes the license, including where order by the Commissioner, removal or modification of all or any portion of a project, whether completed or not.

Notice of the decision, stating the findings and reasons therefor, shall be mailed to the licensee.
