RE: Annual Report for NPDES Permit WAR04-4501

Dear Ms. McCrea:

With this letter, I am transmitting to you King County's first annual report under the 2007 Phase I Municipal Stormwater Permit. The transmittal package includes two copies each of the following documents:

- The completed annual report form
- The signed G19 certification sheet
- Supplemental information
- A map showing areas lost to annexation in 2006 and 2007
- The Stormwater Management Program for 2008

On behalf of all my colleagues here who have been working with you over the past year, and for myself as well, I wish to thank you very much for the thoughtfulness, consideration, time, attention, humor, and grace you have brought to your role as our permit manager. We look forward to our continued collaboration.

Please do not hesitate to call me at 206-296-8381 to discuss this report and the appended materials.

Sincerely,

Luanne Coachman

NPDES Municipal Stormwater Permit Coordinator
