

Weight-Restricted Bridges on Major State Routes in Oregon

As of April 30, 2008, bridge inspectors have set weight restrictions on 17 bridges on major Oregon routes. There are also many restricted bridges on lesser state routes throughout Oregon. Questions about restricted bridges? Contact the Oregon DOT, Motor Carrier Division at 503-373-0000 or visit its Web site:

Biggs Bridge set to reopen for the Summer

The Washington State Department of Transportation still plans to complete Stage 1 of bridge deck replacement work and reopen the Biggs Rapids-Sam Hill Bridge over the Columbia River before Memorial Day, May 26. But Stage 2 of the work requires closing the bridge again after Labor Day, September 1, until work is completed several months later. The bridge will be open to traffic just during the period from Memorial Day to Labor Day. Completion of the Stage 1 work has allowed for lifting special weight restrictions that had been in effect for this bridge since 2001. It is now restricted to divisible load limits (no heavy haul loads).

US97 Columbia River Biggs Rapids - Sam Hill Bridge

During the closures, truckers traveling north on US97 to Biggs need to go 20 miles west on I-84 to the US197 Dalles Bridge and then take WA14 to return to US97. For more information, call the WSDOT Columbia Gorge Office at 1-866-279-0730.
