	Business or Individual Name:

Date of Use	Specific Site	Location: ZIP Code	Product Brand Name	Product EPA Reg. No. or SLN	Amount & Units	Purpose

Instructions PURS Urban/ General Indoor Worksheet

This worksheet is for your use only. Mailing or faxing this form to the Oregon Department of Agriculture will not satisfy the requirements for pesticide use reporting under ORS 634 and OAR 603-57. Please visit the PURS website at: http://oregon.gov/ODA/PEST/ purs_index.shtml

Date of Use

When a product is applied to the same specific site type, in the same ZIP code, or a specific site multiple times in the same month those uses can be aggregated into one report. Examples would be multiple sites of the same type in the same ZIP code, or the same individual specific site. The date for that report can then be reported as the last date of application or the last day of the month. Use the format mm/dd/yyyy for reporting the date or month of use.

Specific Site

Enter the name of the specific site type on the worksheet from the list below:
- Dwelling/residence
- Site with non-public access
- Site with public access
- Other

Location

Enter the five-digit ZIP code for where the application took place.

Product Name

Enter the brand name, as it appears on the pesticide product label, for each product used.

Product EPA Reg. No. or SLN

Enter one of the following for each product used:
- The EPA registration number (located on the label of each pesticide product), or
- The special local need registration number – for products registered under section 24(c) of FIFRA.

Amount

Enter the actual quantity of undiluted pesticide product used, followed by the corresponding unit of measurement. **Do not report percent active ingredient, amount of active ingredient or amount of total spray solution.**

Units of Measurement

Enter the unit of measurement for each pesticide product used from the list below:
- Pounds
- Ounces
- Gallons
- Quarts
- Pints
- Tablespoons
- Teaspoons
- Kilograms
- Grams
- Milligrams
- Liters
- Milliliters
- Other

Purpose of Use

Enter the purpose for which each pesticide product was used from the list below:
- Insect control
- Disease control
- Rodent control
- Plant growth regulation
- Bird control
- Wood preservation
- Other
