- (2) To serve those persons who are the most functionally impaired and who have no or inadequate alternative service resources; and
- (3) To assure access to services paid by the Department to eligible persons; and
- (4) To assure that services paid by the Department, and the setting in which they are provided are safe and adequate; and
- (5) To manage limited resources to enable the greatest possible number of persons to receive needed services through a priority system based on the Department's assessment of the individual's functional impairment and alternative service resources.

(12) "Cost effective" means being responsible and accountable with Department resources. This is accomplished by offering less costly alternatives when providing choices that adequately meet an individual's service needs. Those choices consist of the available services on the published SPD rate schedule, the utilization of assistive devices or architectural modifications and alternative service resources. (Effective 6/1/2006)

(1) "Activities of Daily Living (ADL)" means those personal functional activities required by an individual for continued well being which are essential for health and safety. For the purposes of these rules, ADLs consist of eating, dressing/grooming, bathing/personal hygiene, mobility (ambulation and transfer), elimination (toileting, bowel and bladder management), and cognition/behavior.

(2) Evaluation of the individual's needs for assistance in Activities of Daily Living is based on:

(a) The individual's abilities rather than the services provided; and

(b) How the individual functioned during the thirty days prior to the assessment date, with consideration of how the person is likely to function in the thirty days following the assessment date; and

(c) Evidence of the actual or predicted need for assistance of another person within the assessment time frame and it can not be based on possible or preventative needs.

(3) "Independent" means the individual does not meet the definition of "Assist" or "Full Assist" for each Activity of Daily Living as defined in this rule.

(a) Bathing means the activities of bathing and washing hair and using assistive devices if needed. Bathing includes the act of getting in and out of the bathtub or shower:

(A) Assist: Even with assistive devices, the individual is unable to accomplish some tasks of bathing without the assistance of another person. This means hands-on assistance for part of the task, cueing during the activity or stand-by presence during the activity.

(B) Full Assist: Even with assistive devices, the individual is unable to accomplish any task of bathing without the assistance of another person. This means the individual needs hands-on assistance of another person through all phases of the activity, every time the activity is attempted.

(a) The individual's ability to manage each component of cognition/behavior is assessed by how the person would function without supports, meaning the assistance of another person, a care setting or an alternative service resource as defined in [OAR 411-015-0005](#). Lack of medication or lack of medication management is not considered when evaluating cognition/behavior.

(b) The assessment time frame in [OAR 411-015-0008](#) of thirty (30) days prior to the date of the assessment may be expanded when assessing cognition/behavior without supports. History or incidents in the past more than 30 days prior to the assessment date may be considered if they negatively impacted health and safety in the past and are also current concerns that need to be addressed.

(c) An individual under age 65 with cognition/behavior assistance or full assistance needs based on a mental or emotional disorder does not meet the criteria for service eligibility per [OAR 411-015-0015](#).

Individuals who lack the ability to understand choices or the potential risks and consequences need assistance in decision-making. Judgment/Decision making does not include what others might deem a poor choice:

(ii) Full Assist: The individual has had more than one episode of aggressive, disruptive, agitated, dangerous, or physically abusive or sexually aggressive behavioral symptoms directed at self or others. These behavioral symptoms are extreme, may be unpredictable, and necessitate intervention beyond verbal redirection, requiring an individualized behavioral care plan (as defined in [OAR 411-015-0005](#)) that all staff are trained to deliver.

(G) Demands on Others means behavioral symptoms, other than wandering, that negatively impact and affect living arrangements, providers or other residents:

(7) Eating means the activity of feeding and eating and may include using assistive devices:

(a) Assist: When eating, the individual requires another person to be immediately available and within sight. Assistance requires hands-on feeding, hands-on assistance with special utensils, cueing during the act of eating, or monitoring to prevent choking or aspiration. Assistance with eating is a daily need or can vary if an individual's medical condition fluctuates significantly during a one-month period.

(b) Full Assist: When eating, the individual always requires one-on-one assistance for direct feeding, constant cueing, or to prevent choking or aspiration. This includes nutritional IV or feeding tube set-up by another person. This means the individual needs the assistance of another person through all phases of the activity, every time the activity is attempted.

(8) Elimination: This is comprised of three components. To be considered Assist, the individual must require Assistance in at least one of the three components. (9) Mobility: This is comprised of two components, Ambulation and Transfer. In the Mobility cluster only, assistance is categorized into three levels. To be considered Minimal Assist, the individual must require Minimal Assistance in Ambulation. To be considered Substantial Assist, the individual must require Substantial Assistance with Ambulation or an Assist

with Transfer. To be considered Full Assist, the individual must require Full Assistance with Ambulation or Transfer:

(d) Ambulation means the activity of moving around both inside within the home or care setting and outside, during the assessment time frame while using assistive devices, if needed. Ambulation does not include exercise or physical therapy:

(A) Minimal Assist: Even with assistive devices, if needed, the individual can get around inside his or her home or care setting without the assistance of another person. Outside of the individual's home or care setting, the individual requires the assistance of another person.

(B) Substantial Assist: Even with assistive devices, the individual is unable to ambulate without the assistance of another person inside his or her home or care setting. Even with assistive devices, this assistance may also be needed outside.

(Effective 6/1/2006)

(1) Assessment. The assessment process will identify the individual's ability to perform activities of daily living, instrumental activities of daily living (self-management tasks), and determine the individual's ability to address health and safety concerns and his or her preferences to meet needs. The case manager will conduct this assessment in accordance with standards of practices established by the Department.

(B) The time frame for assessing the Cognition/Behavior Activity of Daily Living may be extended as noted in [OAR 411-015-0006](#).

(c) The assessment will be conducted by a case manager or other qualified Department or Area Agency on Aging representative no less than annually, with a standardized assessment tool approved by Seniors and People with Disabilities.

(d) The initial assessment will be conducted face to face in the individual's home or care setting. Annual re-assessments will be conducted face to face in the individual's home or care setting unless there is a compelling reason to meet elsewhere and the individual requests an alternative location. Case Managers are required to visit

the individual's home or care setting to complete the re-assessment and identify service plan needs, as well as safety and risk concerns.

(e) Effective July 1, 2006, individuals will be sent a notice of the need for re-assessment a minimum of fourteen (14) days in advance. Re-assessments based on a change in the individual's condition or needs are exempt from the 14-day advance notice requirement.

(c) The eligible individual, or their representative, has the responsibility to choose and assist in developing less costly service alternatives.

(d) The Service Plan payment will be considered full payment for the services rendered under Title XIX. Under no circumstances may any provider demand or receive additional payment for Title XIX-covered services from the eligible individual or any other source.

(3) The applicant or their representative has the responsibility to participate in and provide information necessary to complete assessments and re-assessments within the time frame requested by the Department. Failure to participate in or provide requested assessment or re-assessment information within the application time frame will result in a denial of service eligibility for Nursing Facility, Spousal Pay, Title XIX Home and Community Based waived and Independent Choices Program services. The Department may allow additional time if there are circumstances beyond the control of the individual or the individual's representative which prevent timely participation or timely submission of information.
