9 projects to improve forest health conditions, which may
10 include the repair or reconstruction of roads, bridges, and
11 trails on National Forest System lands in the wildland-
12 community interface where there is an abnormally high
13 risk of fire. The projects shall emphasize reducing risks
14 to human safety and public health and property and en-
15 hancing ecological functions, long-term forest productivity,
16 and biological integrity. The projects may be completed
17 in a subsequent fiscal year. Funds shall not be expended
18 under this section to replace funds which would otherwise
19 appropriately be expended from the timber salvage sale
20 fund. Nothing in this section shall be construed to exempt
21 any project from any environmental law.

22 SEC. 322. Other than in emergency situations, none
23 of the funds in this Act may be used to operate telephone
24 answering machines during core business hours unless
25 such answering machines include an option that enables

1 callers to reach promptly an individual on-duty with the
2 agency being contacted.

3 SEC. 323. No timber sale in Region 10 shall be adver-
4 tised if the indicated rate is deficit when appraised under
5 the transaction evidence appraisal system using domestic
6 Alaska values for western red cedar: *Provided*, That sales

8 evidence appraisal system using domestic Alaska values
9 for western red cedar may be advertised upon receipt of
10 a written request by a prospective, informed bidder, who
11 has the opportunity to review the Forest Service's cruise
12 and harvest cost estimate for that timber. Program accom-
13 plishments shall be based on volume sold. Should Region
14 10 sell, in fiscal year 2001, the annual average portion
15 of the decadal allowable sale quantity called for in the cur-
16 rent Tongass Land Management Plan in sales which are
17 not deficit when appraised under the transaction evidence
18 appraisal system using domestic Alaska values for western
19 red cedar, all of the western red cedar timber from those
20 sales which is surplus to the needs of domestic processors
21 in Alaska, shall be made available to domestic processors
22 in the contiguous 48 United States at prevailing domestic
23 prices. Should Region 10 sell, in fiscal year 2001, less
24 than the annual average portion of the decadal allowable
25 sale quantity called for in the current Tongass Land Man-

1 agement Plan in sales which are not deficit when ap-
2 praised under the transaction evidence appraisal system
3 using domestic Alaska values for western red cedar, the
4 volume of western red cedar timber available to domestic
5 processors at prevailing domestic prices in the contiguous
6 48 United States shall be that volume: (i) which is surplus
7 to the needs of domestic processors in Alaska; and (ii) is
8 that percent of the surplus western red cedar volume de-
9 termined by calculating the ratio of the total timber vol-
10 ume which has been sold on the Tongass to the annual
11 average portion of the decadal allowable sale quantity
12 called for in the current Tongass Land Management Plan.
13 The percentage shall be calculated by Region 10 on a roll-
14 ing basis as each sale is sold (for purposes of this amend-
15 ment, a “rolling basis” shall mean that the determination
16 of how much western red cedar is eligible for sale to var-
17 ious markets shall be made at the time each sale is award-
18 ed). Western red cedar shall be deemed “surplus to the
19 needs of domestic processors in Alaska” when the timber
20 sale holder has presented to the Forest Service docu-
21 mentation of the inability to sell western red cedar logs
22 from a given sale to domestic Alaska processors at price
23 equal to or greater than the log selling value stated in
24 the contract. All additional western red cedar volume not
25 sold to Alaska or contiguous 48 United States domestic

11 offer in fiscal year 2002 such concession prospectuses
12 under the regulatory exemption, except that, any pro-
