# **Probationary Individual Landscape Construction Professional License Packet**

This packet contains the information you need to get the **probationary individual Landscape Construction Professional license required by the Landscape Contractors Board.**

Please read and follow the directions carefully.

## **Table of Contents** **Probationary Individual Landscape Construction Professional License**

	<u>Page</u>
General Information	2-4
Exam and License Application	5-6

# Where do I start?

**TWO licenses are required to do landscaping work in Oregon— (1) the Landscape Construction Professional license (this packet) and (2) the landscape contracting business license (separate packet). You will need to obtain the probationary Landscape Construction Professional license prior to applying for a Landscape Contracting Business license.**

**Step 1: Read pages 2-4.** The Board has put together a list of most commonly asked questions. If you have additional questions not covered on these pages, call the Landscape Contractors Board.

**Step 2:** Fill out the application on pages 5 and 6.

**Step 3:** Submit the following to the Landscape Contractors Board:

- (a) The application on pages 5 & 7.
- (b) Application fee. (see page 5)

## Restrictions of a Probationary License

In the 2007 legislature the law was changed so anyone is allowed sit for the Landscape Construction Professional exam without meeting the qualifications that were previously required. However, the individual must submit the application, pay the application fee and must pass all sections of the exam within one year of the first sitting of the exam. If these conditions are met, then the individual will be granted a probationary license which means the individual may:

1. Work for 24 months as an employee of a licensed landscape contracting business under the direct supervision of a non-probationary licensed landscape construction professional after which the probation will be removed.
2. Work for 24 months as an employee of a licensed landscape contracting business and be the phase basis of this business but the business must carry a \$15,000 bond and will only be allowed to perform landscape projects that do not exceed \$15,000 for a period of 24 months after which the probation will be removed.
3. Start his/her own landscape contracting business where the business will be required to carry a \$15,000 bond and will only be allowed to perform landscape projects that do not exceed \$15,000 for a period of 24 months after which the probation will be removed.

# LANDSCAPE CONTRACTORS BOARD

## GENERAL LICENSE INFORMATION

### **What is a licensed Landscape Construction Professional?**

*A Landscape Construction Professional is an individual who has passed the competency examination administered by the LCB who then is granted a license to provide services as an employee or owner of a licensed landscape contracting business that include the planning and installing of lawns, shrubs, vines, trees or nursery stock including the preparation of the property on which the plantings are to be installed. A Landscape Construction Professional also supervises unlicensed employees of licensed landscape contracting businesses and is able to construct and repair ornamental water features, drainage systems and irrigation systems; plans and installs fences, decks, arbors, driveways, walkways, patios, landscape edging and retaining walls. See ORS 671.520(2) for the full legal definition.*

### **Do I need a license to do yard/landscape maintenance?**

*No, landscape maintenance is not presently a state regulated trade. However, you should check with your city or county for local requirements. Landscape maintenance is work performed on an existing landscape (mowing; pruning; edging; applying bark dust; trimming; planting of annuals, perennials and bulbs; and the general upkeep of an already installed project).*

### **How do I know if I'm doing landscape maintenance or landscape contracting?**

*Maintenance involves the care of plants and the general upkeep of an already installed project. Landscape contracting is the preparation and/or installation of a project or any part of it.*

### **Why is an individual license required?**

*Landscape construction work in Oregon does not require permits to be obtained and subsequent inspections to be performed except for backflow installations and construction work that has specific code requirements. The landscape construction professional license promotes consumer confidence that this individual has the knowledge and experience in performing and supervising landscape construction work on the consumer's landscape construction project.*

### **What types of licenses are there?**

*There is only one type of Probationary Landscape Construction Professional license:*

- *All Phase - all phases of landscaping including irrigation and backflow.*

### **What if a Landscape Construction Professional holds a license from another state?**

*Oregon does not have reciprocity agreements with other states. However, you should submit a copy of your out-of-state license with your application. Your out-of-state license may qualify you for a non-probationary license.*

### **How much is the application and exam fee?**

*The initial non-refundable application fee of \$50 must be submitted with your license application. The All Phase license exam fee is \$75. If you will be taking the exam at a DMV, there is an additional processing fee of \$12. The exam fee and DMV fee must be paid prior to sending the exam to the DMV.*

**What should I study for the exam?**

*The Laws & Rules will be sent to you with your approval letter. The Study Guide is available on the web at [www.lcb.state.or.us](http://www.lcb.state.or.us) with a suggested resource list.*

**Can I get a sample exam or previous exam to study?**

*No, however, sample questions are included in the Study Guide material.*

**What if I change my mind and decide not to take the exam? Can I get a refund?**

*The exam fee will be refunded if prepaid. However, the application fee is non-refundable.*

**How often is the exam given?**

*The exam is given on an individual basis by appointment only.*

**Where is the exam given?**

*You may either schedule an appointment in the Salem office (taken on a computer), or you may schedule to take a written exam at an Oregon Department of Motor Vehicles (DMV) office that we have contracted with to proctor the exam. A list is provided in the Study Guide.*

**What does the exam consist of?**

*There are seven sections to the exam: Laws and Rules, Generals A-D (which are Plants and Turf (A), General Construction(B), Grading and Drainage(C) and Estimating, Soil Science, Chemicals and general Safety(D)), Irrigation, and Backflow.*

**Which parts do I need to pass to receive which type of license?**

*You must pass all seven sections of the exam for a probationary license (All Phase plus Backflow license). You must obtain a passing score of 75% on each section.*

**How many questions are on the exam?**

*The number of questions varies from 45 to 100 per section. There are a total of 425 questions.*

**How will I find out the results?**

*You will be notified by mail or by email (if requested) within 5 working days after receipt from the DMV unless you take the exam at the Salem office on the touch screen computer system which gives you immediate results. Results will not be given over the phone.*

**After I pass the exam, what are my fees?**

*The initial license fee is \$75 and the renewal fee each year is \$75. Your license will show an expiration date and your renewal form and fee must be postmarked on or before that date each year. A late penalty fee of \$25 is charged if you renew after that expiration date.*

**Once I pass the exam, can I start working?**

*No, passing the exam allows you to become a probationary licensed Landscape Construction Professional. However, to begin work, you must be employed by (or be an owner of) a licensed landscape contracting business (see business license application packet).*

**If I do not pass, is the fee refunded?**

No.

**If I fail, can I take the exam again?**

*You may take the exam as many times as you want. However, you must wait two weeks between each attempt or review of the exam.*

**Is there a fee to retake the exam?**

*The fee to retake the exam is \$15 for the first section and \$10 for each additional section per sitting.*

**Can I review the results of exam questions if I fail?**

*If the exam is taken in Salem you can review immediately. Reviews can only be done in the Salem office within 30 days of taking the exam. Once you review you must wait two weeks before retaking the exam. You may only review the questions you missed.*

**What is the “plus Backflow” portion of the license?** *It is no longer necessary for licensed landscape construction professionals to obtain a special plumbing license from the State Plumbing Board to install backflow prevention assemblies for irrigation systems and water features. Your Irrigation and backflow license will include tapping into potable water supply lines and installing backflow prevention assemblies for irrigation and water features only.*

**How about low-voltage electrical installations?**

*Employees of licensed landscape contracting businesses are authorized to install low-voltage landscape irrigation control wiring and outdoor landscape lighting without an electrical license for one and two family residential dwellings only if the licensed landscape contracting business provides the employee with a Low voltage I.D. Card. Low-voltage is defined as Class II or Class III systems that do not exceed 30 volts and 750 volt –amperes.*

**What other licenses do I need?**

*Besides a Probationary Landscape Construction Professional license, you also need a Landscape Contracting Business license and possibly a local business license if you plan to start your own business.*

**\*Social security number.** As part of your application you are required to provide your social security number to the LCB. The authority for this requirement is ORS 305.385 and ORS 25.785. Failure to provide your social security number will be a basis to refuse to issue the license you seek. Although a number other than your social security number appears on the face of the license issued by the LCB, your social security number will remain on file with the LCB. This record of your social security number will be used for child support enforcement and tax administration purposes only, unless you authorize other uses of the number. The LCB will not give out nor sell nor otherwise make your social security number available to the public.

**If you do not have a social security number:** I certify that I do not now have, nor have I ever had a social security number. I understand that if I obtain a social security number after submitting the application to the LCB that I am required to notify the LCB in writing of my social security number within 14 days of receiving the number. I also understand that if this statement is untrue it is grounds for revoking my Landscape Construction Professional license.

**Note:** Submitting a fraudulent social security number is grounds for refusing to issue, revocation or termination of the Landscape Construction Professional license.
