PART 5: My/Our Park Preferences, Dates of Availability & Park Assignments

(Refer to the maps and materials in your host packet to answer this section.)

Use the chart below to indicate the park locations where you'd like to work and the months you are available. Keep in mind that if you list only specific parks, others will likely not call you. If you'd like to be considered for an entire Park Area or geographic region, list those instead. If you can be flexible, please write *any park* or *open*. Your chances of landing an assignment are very good if you do this, but be clear about what you will accept. If you are already assigned to any parks during the year, be sure to check that you are not available, then list the parks by month where you have accepted work.

OPRD HUMAN RESOURCES DIVISION

**EXPLANATION OF CRIMINAL RECORDS CHECK PROCESS
AND INSTRUCTIONS FOR COMPLETING REQUIRED
CRIMINAL RECORD DISCLOSURE & REQUEST AUTHORIZATION FORM**

Authority: Oregon Parks and Recreation Department (OPRD) is authorized by state law (ORS 390 and OAR 736-002) to complete criminal and other background checks on people who work or volunteer for the department.

Sources Checked: In doing this check OPRD may use any information provided by the Subject Individual, or received from Oregon State Police; Federal Bureau of Investigation; local, state and federal courts or other jurisdictions. OPRD may use information from other criminal justice, corrections or law enforcement agencies. Fingerprints may be requested by OPRD.

Challenging State Information: The subject individual may look at the criminal history information maintained by the Oregon State Police and may challenge information he/she believes is inaccurate, incomplete, or maintained in violation of any state or federal statute or regulation. To review your information, contact: Oregon State Police, Identification Services Section, 3772 Portland Road NE, Salem, Oregon 97303 (phone 503/373-1808).

Challenging FBI Information: The subject individual may obtain a copy of his/her FBI record from the FBI. He/she may challenge the accuracy and completeness of information in the FBI record if the subject individual believes it is incorrect. To obtain a copy and/or challenge the FBI record, write to Federal Bureau of Investigation, Identification Division, Room 10104, Washington, DC 20537-9700.

Civil Rights: The subject individual may have rights under Title VII of the Civil Rights Act of 1964. Discrimination by an employer on the basis of arrests alone may violate federal civil rights law. Individuals wishing to obtain further information regarding their civil rights should contact the Oregon Bureau of Labor and Industries.

Recheck: A criminal records check may be repeated by the qualified entity at any time while the subject individual works or continues in the position requiring a criminal records check to qualify. The subject individual shall notify the department in writing, at the address on this form, within 10 days of being arrested for or convicted for any crimes noted in OAR 736-002-0070 after this process is completed.

Subject Individual: You are a subject individual as defined in OAR 736-002-0030 and -0032 if you are being requested to complete the OPRD Criminal Record Disclosure & Request Authorization form. You must complete boxes 1 through 16 on page 1, and boxes 17 through 22 on page 2 of the form.

Disclose All Requested History: Using this form, you must accurately and completely disclose all arrest history within the past five years and all conviction history regardless of the date of conviction. This includes all crimes noted in OAR 736-002-0070, including but not limited to felonies, misdemeanors, no contest plea, pending investigation or indictment, outstanding warrant, conditional discharge, deferred sentence, diversion programs, probation violations, juvenile adjudications, failures to appear. If you fail to list something, you may be disqualified. Serious traffic offenses identified as misdemeanors or felonies, such as "Reckless Driving," "Driving Under the Influence of Intoxicants" (DUI) and "Driving While Suspended" (DWS) **must** be listed. "Failure to Appear," even if for a minor traffic violation, is a crime and **must** be listed. If you are not sure, you should list the offense. Be certain to list date (approximate if necessary) and location for each arrest and/or conviction listed.

CONTINUED ON REVERSE SIDE

If you have a history that you believe should have been expunged or removed from your record, but you do not **know** if it was expunged or removed, you should list it. A crime is not removed from your record until you go through the legal process to have it removed.

Arrests: In most cases, arrests alone will not result in disqualification. If, however, you falsify or provide incomplete information, including failure to list any required arrests or convictions, you may be disqualified. You are required to list any arrests within the last five years.

Convictions: You are required to list any convictions for any crimes, regardless of the date of conviction.

Federal Crimes: If the Federal Bureau of Investigation was involved in your arrest, or you committed a federal crime, be certain to note that in box 20.

Violations: Traffic violations, such as parking tickets, speeding, failing to stop at a stop sign or red light, are not classified as crimes and thus not required to be listed. If you are unsure if your driving offense was a violation or a criminal misdemeanor or felony, list it, and it can be verified. If it turns out to be a criminal offense and you do not list it, you may be disqualified.

Failure to Disclose: If you fail to list any required information, you may be disqualified.

Automatic File Closure: If you do not cooperate with this process, do not provide requested information in a timely manner, do not provide fingerprints as requested, your application file will be automatically closed without further consideration. Providing any false information on the form will result in a determination of being unfit to work for or volunteer with Oregon Parks and Recreation Department.

Information You Should Write in Box 20:

- Describe the nature of any crime conviction and any circumstances of your arrest and conviction.
- What did you have to do because of the arrest or conviction? Serve probation? Pay restitution?
- List any treatment, counseling program, alcohol or drug rehabilitation, or other remediation program.
- List employment demonstrating responsible behavior.
- You may attach documentation to support any information provided.

Sending Completed Form to OPRD:

Place your completed Criminal Record Disclosure & Request Authorization form In a SEALED ENVELOPE marked "CONFIDENTIAL" and mail or deliver to: OPRD, Human Resources Division, 725 Summer St NE, Ste C, Salem, OR 97301.

Or you can FAX to OPRD Human Resources Division at this confidential FAX number: 503-986-0795.

PARK AMENITIES (e.g. Cable TV, Internet Access, Washer/Dryer, Cell Phone, etc.)	PARK DESCRIPTION (Unique Features, Resources, etc.)
Washer/Dryer available to all hosts, Internet Access is available through land lines or in Visitor Center. Shop Sites 1-4, B-21, C-1 have Cable TV and telephone land lines, while F1, F8 and H-3 do not have either cable or telephone service. Cell phones are provided for these three sites in case of emergencies. Visitor Center provides good opportunity for social interaction.	Park is located in forested setting with large trees and lush undergrowth in protected area off Highway 101. Park has easy access to sandy beach and is located near several whale and seabird observation points. Good tidepooling opportunities nearby during summer months. Park has a streamside nature trail, a new visitor center, registration booth and 21 yurts.

PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)
Park is located 7 miles north of the town of Newport where shopping, entertainment, restaurants, etc. can be found.

Notes:

Beverly Beach management unit manages the Whale Watching Center in Depoe Bay.

Couples 20 hours a week

Singles 30 hours a week

Cell phone coverage is typically okay near front of park, but reception can be spotty in back loops. Park suggests that hosts walk or drive out to park entrance just off Hwy 101 for the best cell phone reception.

PARK AMENITIES (e.g. Cable TV, Internet Access, Washer/Dryer, Cell Phone, etc.)		PARK DESCRIPTION (Unique Features, Resources, etc.)	
All sites have telephone service and access to Washer/Dryer. Meeting and/or Activity Yurts are often available for volunteer functions. Guided kayak trips are also often available to our volunteers. The park is a member of the Oregon Coast Aquarium and has a membership pass that allows our volunteers to visit this world-class facility. Fishing, clamming, crabbing, beach combing, hiking, biking, birding and photography are just some of the many recreational opportunities available to our volunteers in the immediate area. Beautiful changes occur year round along our coast making it a prime "off-season" location to volunteer!		Located within one of the world's most scenic places, South Beach State Park offers year round volunteer positions. We have diverse and large need for volunteer support. We maintain several popular day-use facilities such as the South Jetty, Lost Creek, Ona Beach, Seal Rock, Driftwood, the Alsea Bay Bridge Interpretive Center and the day-use facilities associated with South Beach and Yaquina Bay. South Beach is an expansive park, the majority of which includes a large network of trails that lead to a beautiful beach and connect to the exciting marine activities that are always ongoing along the South Jetty.

PARK AMENITIES (e.g. Cable TV, Internet Access, Washer/Dryer, Cell Phone, etc.)		PARK DESCRIPTION (Unique Features, Resources, etc.)	
F1-6, D28 and C13 have satellite and direct TV hookups, G4 does not. Washer/Dryer available in park's shop area. Access to computer and Internet at bunker near office. Moorage is available on a limited basis. There is cell phone reception with Verizon having the best signal and AT&T also works fairly well. There are plenty of opportunities for hosts to socialize with each other. Host sites are located in fairly close proximity. Fishing, boating and hiking are other recreational opportunities they can take advantage of.		The campground is located on beautiful Detroit Lake. Ducks, osprey, geese, herons, and an occasional eagle can be seen out over the water. Mountains surround the area. Recreational opportunities include fishing, boating and swimming. There is a fishing dock located off of "F" loop for those who love to fish but may not have a boat. Although there are not any hiking trails right in the campground, there are many wonderful trails located in the surrounding mountains. The Forest Service ranger station is located right across the highway and has information on trails. The campground is VERY busy from Memorial Day to Labor Day. It is perfect for those who are people persons and love to keep busy. Although the off seasons are slower and quieter, it is still a great park to be at. The fall is especially beautiful with changing leaves and cooler temperatures.	
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)			
The campground for the most part is easy to get around in. The old side, i.e. A thru E is a bit tighter to maneuver through but still accessible. The town of Detroit is two miles from the campground. Detroit has two grocery stores, two marinas, two restaurants a sandwich shop, Post Office, gas station (with store and deli), hardware store and one Church. Gates and Mill City are the next closest towns at twenty miles away. They have a grocery store, Circle K, several restaurants, two gas stations, US Bank, laundry mat, beauty shops and several churches. Salem is fifty miles west and Sisters is over 50 miles east over the pass. See notes for further information regarding vehicles and boats.			

Notes:

We stick to the two vehicles per site rule within our campground. Since we have very limited extra parking for campers, if the host's second vehicle will not fit on the campsite parking pad, we ask that they park their extra vehicle at the shop. The shop is one-and-a-half miles from the campground. It is fenced and locked at night. If the host has a boat and would like a moorage space, we ask that they let us know as soon as possible before their arrival. Hosts should be aware of the fact that the lake's water level here changes throughout the year. If we have a low water season due to low snow pack and decreased rainfall, this may cause moorage spaces to become unavailable and we may have to ask that the host take their boat out of the moorage so that we can accommodate camper's boats.

Landline available for Internet access (check with provider for local ISP number) & personal calls (need phone card for long distance). Host site should have corrals to accommodate 2 horses after restoration.	Elijah Bristow State Park is an 847 acre day use park on the Middle Fork of the Willamette River. There are over 12 miles of trails, and the host site is located at the equestrian staging area. The site is at the edge of a large meadow with views of the Cascade foothills, sunrises and night sky. Hosting at Elijah Bristow State Park provides opportunities for trail work, natural resource restoration, maintenance projects, working with volunteer groups, and providing visitors with information.
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)	
5 miles to grocery store, some restaurants, 15 miles to Eugene/Springfield (population 200,000), 10 miles from I-5, off of Hwy. 58, route over Cascades between Eugene and Klamath Falls. Large Parking lot for turnaround. Location is in a rural community, and is the only host site in the park.	

Notes:

Approx 20 hours per week per person, flexible work schedule.

Host site is currently being renovated. **Site will be closed until summer 2008.** Improvements will likely include: septic system, new gravel pad, new split rail fencing, horse corrals for 2 horses.

Host site has a 14' opening in the fence to get into the site, but the site is very open once you pass the fence. There are no trees adjacent to the gravel pad.

Laundry facilities available at Viento (cold-water wash only and dryer at park shop) or at Memaloose State Park.</p>	<p>Hikers, bicyclists and users of other non-motorized forms of transportation can enjoy the view from the Historic Columbia River Highway State Trail. The trail, which consists of two disconnected paved ribbons along abandoned stretches of the old historic highway, gives visitors more than 10 miles of sightseeing thrills. Between Hood River and Mosier, the five mile Twin Tunnels segment leads through the Twin Tunnels. Close-up views of spectacular geologic formations are evident all around. Above the town of Hood River, the Mark O. Hatfield Visitor Center sits on a cliff overlooking the scenic Gorge. Host sites are located here. The western segment of the trail parallels Interstate 84 between Cascade Locks and Bonneville Dam, is much more lush in appearance and is famed for it's beautiful ferns and wildflowers.</p>

PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)
<p>1 mile east and above the town of Hood River overlooking the scenic Columbia River Gorge, 65 miles east of Portland. Hood River has goods and services for regular conveniences.</p>

Land line phone available	Willamette Mission occupies land where the first mission for American Indians was founded in 1834 by the Reverend Jason Lee. Members of the Methodist Mission were later active in the formation of Oregon government. The original mission buildings are represented by framed outlines called ghost structures. A landing for the Wheatland Ferry -- the first to carry the covered wagon across the Willamette River in 1844 -- is in the park. Daytime recreational opportunities for boaters and anglers are available on the Willamette River and on Mission Lake. Miles of meadow trails are open for hikers and equestrians. Picnic facilities with shelters, electricity, restrooms, water faucets, picnic tables, and fire rings are reservable for large groups.

Park phone available in CG at Host Site 21; Site 45 has access to phone line through intercom system. Personal use OK with phone card.	Located along the banks of the Chetco River, this is a popular park for water sports, including kayaking, snorkeling, and swimming during the warmer summer months. In the fall months, this is prime fishing ground for Chinook (King) salmon fishing, while throughout the winter months, steelhead fishing is popular. The park features a hiking trail which links to a 3-mile loop leading into myrtlewood and redwood forest.
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)

PARK AMENITIES (e.g. Cable TV, Internet Access, Washer/Dryer, Cell Phone, etc.)	PARK DESCRIPTION (Unique Features, Resources, etc.)		
Cell phone for park purposes.	Bullards Beach is a large, family-oriented park located just two miles north of Bandon. The campground is nestled among shore pines and well protected from the strong ocean breezes. Besides three loops of campsites, the park boasts 13 yurts, making year-round camping a very popular choice. The horse camp features easy access to the beach and dunes for our equestrian campers. Well known for excellent fishing and crabbing opportunities on the Coquille River, our boat launch facilities are well-used during the summer and fall seasons.		
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)			
Two miles to the nearest town for shopping, laundry and general delivery mail service at the post office. Bandon library has computers that are available by appointment for checking email and internet access. Campground loops are large enough to accommodate most RVs. Most of our host sites are satellite friendly, but not all. Trees can be in the way for permanently mounted satellites on RV rooftops.

PARK AMENITIES (e.g. Cable TV, Internet Access, Washer/Dryer, Cell Phone, etc.)	PARK DESCRIPTION (Unique Features, Resources, etc.)
Internet hookup for laptop. Good social opportunity. Phone available for emergencies, but otherwise no land line service to host sites.	Lying beneath a 19th century lighthouse and incorporating a historic pioneer farmhouse, Cape Blanco State Park is perched above the Pacific Ocean near the state's westernmost tip. The campground offers solitude and quiet for the camper, even when it is full. Four cabins, each with its own ocean view, offer another escape for the weary traveler. Cape Blanco is a wonderful place for whale watching and history.
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)	
The campground has one loop, which is easy to maneuver with a large RV. The lighthouse hosts are located halfway around the loop and can be accessed from the horse camp road in addition to the regular campground loop.	

Notes:

20-24 hours a week per host.

Cape Blanco is beautiful, but usually windy, especially at the lighthouse and Hughes House, where there is no protection from Marine winds. Cell service is usually good from all of the host sites, and the camp host has the opportunity to have a handset of the campground booth's telephone in their RV after hours to answer calls.

This is a fairly remote location. Host site is 1 mile away from main campground. Phone is available for emergency use at shop.	Just below Cape Blanco Lighthouse, the Historic Hughes House is nestled beside the Sixes River and the Pacific Ocean. Built in 1898 for Irish immigrants, Jane and Patrick Hughes, the home is a fine example of late 19th century architecture. Furnished in period decor, the home offers a glimpse back in time. Tours are given April 1 to October 31, 10am to 3:30pm Tuesday to Sunday.

Oregon Lighthouse Week is in August.

Cape Blanco lighthouse is located beyond the campground on a high cliff above the ocean. This is a beautiful and picturesque spot, but it is known for high winds year-round. A newly constructed fence helps to protect lighthouse host sites from some wind. The campground has one loop, which is easy to maneuver with a large RV. Cell service can be unreliable within campground, depending upon area of use and provider.

All lighthouse hosts have access to phone in booth, cell phone coverage spotty; available at day-use areas, Washer/Dryer located at Carl G. Washburne campground restroom.	Heceta Head Lighthouse is extremely picturesque! In fact, it is one of the most photographed places in the world! This lighthouse houses one of the few remaining British-made first-order revolving fresnel lenses. Great opportunities for bird watching, whale & sea lion watching, tidepooling and other wildlife. Heceta Head trail (3 miles) connects to Carl Washburne campground. Sea Lion Caves and other beach-related tourist attractions located along Hwy 101 and in nearby coastal towns.
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)	
The lighthouse parking lot is 14 miles south miles of Yachats, 12 miles north of Florence. Shopping, entertainment, restaurants, etc. are available in Florence, a town of good size. Parking area at lighthouse requires day-use permit; hosts are given free permit as part of job. Parking area is at sea level with 1/2 mile walk to lighthouse 150' above.	

Notes:

Driving from campsite to lighthouse 2 miles away is necessary part of the job, as is 1/2 mile uphill walk from parking lot. Ability to climb 58 steps up to top of lighthouse tower is requirement of job; approx. 4 times hourly, up to 10 times per shift. Hosts must be physically fit enough to make the walk and climb stairs during each day of assigned duties. One host position is occasionally responsible for maintenance duties at Carl G. Washburne, though the primary duties are as Lighthouse Tour Guide. Though the Lighthouse is technically closed Nov. – Feb., there are still host positions available. Duties include maintenance and some tour guide duties, depending on demand.

PARK AMENITIES (e.g. Cable TV, Internet Access, Washer/Dryer, Cell Phone, etc.)		PARK DESCRIPTION (Unique Features, Resources, etc.)	
Washer/Dryer. Access to Nature Center for social gatherings. A-26 & H-383 feature permanent telephones. Cell phone reception is questionable. It depends on what system you have. Verizon works throughout the park but you may need to walk around to an open space with the other phones. Most of our sites do have satellite reception, but we cannot guarantee it.		Located on the great Oregon Dunes. Very scenic and has beautiful sunsets. Above Tsunami zone. Day-use areas have rock work from the 1930's that was done by the C.C.C. Several of our buildings and structures are on the Historical Registry. Wooded campground and trails feature many varieties of plants, flowers, birds, animals and fungi. Walking distance to a freshwater lake for fishing and kayaking. Fishing, clamming and crabbing is only a short drive away. The new Three River Casino is located in Florence.	
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)			
Most of our campground is large with wide roads, with room of slide-outs. Loop A is somewhat narrow and does require some maneuvering. Loop F site 280 has an approximately 90 degree back-in required, making it difficult for motorhomes. It is more suited for a 5th wheel or a very good backer. Florence is a lovely little town only three miles away and does have a new hospital and a nice library.

The day-use area has a group picnic area, a 4th set of horseshoe pits, a 2nd volleyball net, cooking shelters with a large hibatchi, swimming, boating, fishing flush toilets and showers, a marina store and cafe, boat ramp and fish cleaning station.
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)	
Located 35 miles from Medford, 8 miles from Prospect and 12 miles from Shady Cove. All campground loops are easy to maneuver. Sites are up to eighty feet long.	

Notes:

MR host position is 30 hours a week per host, all other positions are 20 hours a week per host.

Crater Lake is an hour away and natural bridge is only 30 minutes. Pearsony falls, Mill Creek and Barr Creek Falls can be reached in less than 15 minutes driving time. The walk from the parking lot down to reach the actual falls at Pearsony takes less than 5 minutes. The walk through Avenue of the Boulders is on the trail down to Mill Creek and Barr Creek Falls takes much longer and is not recommended for the faint at heart. To reach the Rogue River takes less than 10 minutes. There you will find salmon and steelhead fishing, guided white water rafting trips, guided fishing trips, with fishing from the bank and picnicing at Casey State Park. Tours of Cole rivers fish hatchery. McGregor Park has the Spirit of the Rogue Nature museum. Other summer activities include the Shakespeare festival in Ashland and the Britt in Jacksonville. The Bluegrass Festival in Prospect where you can hear the Old Time Fiddlers play. Prospect also has an annual Timber Carnival the 3rd weekend in August which falls on the same weekend the car show is held in our day-use area. These are only a few of the many activities in our area.

PARK AMENITIES (e.g. Cable TV, Internet Access, Washer/Dryer, Cell Phone, etc.)	PARK DESCRIPTION (Unique Features, Resources, etc.)
Internet hookup available at museum Phone available for staff communications only.	Port Orford Heads State Park is the site of one of the first Coast Guard lifeboat stations on the Oregon Coast. Constructed in 1943, the US Coast Guard began providing lifesaving services to the southern portion of the Oregon Coast until 1970. The Port Orford Heritage Society, working with OPRD, has established the Port Orford Lifeboat Station Maritime Museum and Interpretive Center here. This center is loaded with fascinating information about the Coast Guard, local history, and exhibits. The museum can be a slow-paced hosting assignment, but there is plenty of reading material available to help you answer visitor questions. The entire 100+ acre site was placed on the National Historic Register in 1998. The park has excellent hiking trails on the headlands offering spectacular views up and down the Pacific Coast. The museum is open April 1 to October 31, 10am to 3:30pm Thursday to Monday.

PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)
Port Orford Heads State Park is located on top of a rocky coastal headland less than 1 mile off Hwy 101 in the town of Port Orford. Accommodations for museum hosts are located at Tseriadun State Recreation Site, a day-use area just down the hill from the park and in the town of Port Orford. Though isolated from the hubbub of daily life, Tseriadun is close enough to town for daily wants and needs. Very open site with no maneuverability difficulties.

Notes:

20-24 hours a week per host.
 Coast Guard Day is celebrated each August and a ceremony is held at the museum for the visiting public.

Notes:

While this is primarily a maintenance position, other tasks may be assigned. In peak season there is a lot of visitor interaction. We value our volunteers and are committed to their personal safety during their stay with us. During the last week in September we celebrate with a volunteer recognition dinner. The dinner alternates annually between Valley of the Rogue and Joseph Stewart State Parks. This dinner recognizes all of our volunteers for their hours of dedicated service to our two management units.

Isolated but very close to town. Internet hookup for laptop available at Humbug Mountain.	Tseriadun State Recreation Site offers day-use visitors a picnic area, a "private," quiet beach perfect for agate hunting, and access to freshwater Garrison Lake. Tseriadun is a Native American term meaning "rocky headland place". This is a culturally significant site to local Native Americans. Consequently access to certain areas is limited and digging is not allowed. The cliff above Garrison Lake is eroding at a quick rate, thus it is closed off to the public.
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)	
Located just off 12th street, and only blocks from Hwy 101, Tseriadun is located in the town of Port Orford, 6 miles from Humbug Mountain campground which houses the Mangement Unit office. Though isolated from the hubbub of daily life, Tseriadun is close enough to town for daily wants and needs. Very open site with no maneuverability difficulties.

No cell service, phone at restroom, day-use only park.	Battle Mountain Forest State Scenic Corridor was purchased to protect the forest of ponderosa pine, larch, Douglas fir and spruce. It provides prime habitat for all kinds of wildlife. The name commemorates one of the last battles between native Americans and settlers in eastern Oregon. The park also served as a Civilian Conservation Corps camp, whose members constructed the water system, installed picnic tables and built the large granite stone fireplace still available for use in the park.
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)	
8 miles out of Ukiah, host site is on opposite side of the road from the park on a wooded hillside (overlooks the park).

PARK AMENITIES (e.g. Cable TV, Internet Access, Washer/Dryer, Cell Phone, etc.)	PARK DESCRIPTION (Unique Features, Resources, etc.)
Telephone available, garden boxes, patio and grassy yard at host site	Clyde Holliday is a lovely treed, relaxing and shady oasis in High Desert country. Hiking, wildlife viewing and birding opportunities are good here, as well as fishing activities on the John Day River which runs along one side of the park. This large, yet quiet day-use area has a picnic area, restrooms, horseshoe pits and walking trails.
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)	
The town of John Day is located 6 miles west of the park, where shopping, laundromat and medical facilities are located.	

Notes:

20-40 hours per week per person.

30 miles to the east of Clyde Holliday is one unit of the John Day Fossil Beds National Monument.

The park has a blue boy available for hosts to dump their tank at the RV septic dump station.

Showers. Sewer, Water, and Electrical Hookups. There is no cell phone coverage in the park.	Historic Farewell Bend State Recreation Area, located on the Oregon/Idaho border north of Ontario, offers a beautiful desert experience on the banks of the Snake River's Brownlee Reservoir. The Reservoir offers fishing, water skiing, swimming and boating recreational opportunities. There park also has horseshoe pits, basketball hoops and a sand volleyball court. Pioneers on the Oregon Trail took a final rest here before leaving the Snake River to travel wearily inland on their way to Oregon City. Historic markers and interpretive displays provide visitors with information on Farewell Bend's significance on the Oregon Trail.
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)	
Nearest town is Huntington at 4 miles away. This is a small community with limited services and shopping. The nearest communities with medical services, access to supermarkets, auto care, hardware, etc. are Weiser, ID which is 17 miles east on Hwy 20 and Ontario, Oregon which is 24 miles southwest on I-84. The Antelope Loop is difficult for large rigs to maneuver. Inside sites in the Brownlee Loop are also difficult for large rigs.

PARK AMENITIES (e.g. Cable TV, Internet Access, Washer/Dryer, Cell Phone, etc.)	PARK DESCRIPTION (Unique Features, Resources, etc.)
Location is in the town of Sumpter, which has a laundromat, grocery store, gas station, post office, restaurants, and is only 30 miles from Baker City. Host site is landscaped for privacy.	Sumpter Valley Dredge is a busy, day-use interpretive park. The beautiful scenery and gold mining history of Northeast Oregon bring visitors from all over the world to our park. Although the dredge is the central focus, the park also has easily accessible hiking trails, which border the Powder River in several places, a wide variety of wildlife, picnic areas, and a well-stocked gift store and museum. Sumpter is surrounded by the beautiful Elkhorn Mountains and is part of the Elkhorn Scenic Byway.

PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)
Sumpter Valley Dredge is located just off the main street of Sumpter. The entrance road, Austin Street, and the parking lots are easily accessible for large RVs. The host site is behind the Dredge Superintendent's House and may be entered by way of the alley beside the site or the driveway beside the house. To reach the park, travel southwest from Baker City on Hwy 7 approximately 27 miles. Take a right at the junction to Sumpter, drive 3 miles, and turn left at the state park shield in Sumpter.

Notes:

20 hours a week per person.

Nearby Baker City is a well-known tourist destination. There are also several other scenic and historic locations within a day trip from Sumpter.

On weekends the Sumpter Valley Railroad, a restored narrow gauge steam train, travels through the park to the Sumpter Depot, located on our entrance road.

The contact person position for Sumpter Valley Dredge was vacant at the time of publication of this document.

Washer/Dryer five miles away at the Deschutes campground. Phone lines are provided, cell reception shaky. Good social opportunity. Sites are closer to town with view of Mt Jefferson. Large grassy areas with pet off-leash area near loop. Storage shed and gator or electric cart is assigned to each host.	The Cove Palisades surrounds Lake Billy Chinook in the heart of Central Oregon. Hot summer days attract boaters, swimmers and anglers to the water. The stunning geological features and rugged beauty of the park draw people back year after year. Wildlife viewing is ample, with coyotes, porcupines, reptiles, bald eagles and other large birds making regular visits to the park. The summer months bring nearly a million visitors, while the remainder of the year provides opportunities for solitude.
PRACTICAL TRAVEL INFO (miles to nearest town and services, directional landmarks on highway, maneuverability warnings, etc.)	
Campground loops are tight, but navigable to even large RV's. The small town of Culver is 5 miles away, while the nearest medium sized towns are Madras, 15 miles to the north, and Redmond, 25 miles to the south.
