Prisoner Reentry Initiative CDFA #16.202

Overview of the Prisoner Reentry Initiative

Authorized by 42 U.S.C. § 3797w, the Prisoner Reentry Initiative (PRI) strengthens communities characterized by large numbers of returning prisoners. With the support of several federal agencies, PRI is designed to reduce recidivism by helping returning offenders find work and access other critical services in their communities.

Deadline: Registration

Registering with Grants.gov is a one-time process; however, if you are a first-time registrant, it could take up to several weeks to have your registration validated and confirmed and to receive your user password. It is highly recommended you start the registration process as early as possible to prevent delays in submitting your application package to our agency by the deadline specified. There are three steps that you must complete before you are able to register: 1) register with Central Contractor Registry (CCR), 2) register yourself as an Authorized Organization Representative (AOR), and 3) be authorized as an AOR in your organization. For more information, go to www.grants.gov. **Note: Your CCR registration must be renewed once a year. Failure to renew your CCR registration will prohibit submission of a grant application through Grants.gov.**

Deadline: Applications

The due date for applying for funding under this announcement is 8:00 p.m. e.t. on January 11, 2007.

Eligibility

State government agencies, including state Departments of Corrections and State Criminal Justice Administering Agencies, and federally recognized Indian tribes are eligible to apply. State agencies are encouraged to partner with local and regional jails when submitting applications, or to serve as a passthrough for funding.

Prisoner Reentry Initiative-Specific Information

All awards are subject to the availability of appropriated funds and any modifications or additional requirements that may be imposed by law.

PRI strengthens communities characterized by large numbers of returning offenders. With the support of several federal agencies, PRI is designed to reduce recidivism by helping returning offenders find work and access other critical services in their communities. The Bureau of Justice Assistance (BJA) will award grants to state agencies to provide pre-release assessment, programming and services, transition planning, and post-release supervision and coordination of services for offenders returning to communities.

For more information on PRI activities, go to www.reentry.gov.

Target Population

PRI's target population includes individuals ages 18 and older convicted as an adult and imprisoned in a state or tribal prison or a tribal, regional, county, or local jail pursuant to state or tribal law.

Award Phases Amounts, and Lengths

PRI supports strategies to deliver pre- and post-release assessments and services and to develop transition plans in collaboration with other justice and community-based agencies and providers for supervised and nonsupervised offenders. Grants will include an assessment/ planning phase not to exceed 3 months following the award start date, with implementation occurring in the remaining project period.

Phase I: Assessment and Planning (Months 1-3)

- Select lead agency responsible for the operational aspects of the grant.
- Establish a multidisciplinary advisory group.
- Develop and implement offender screening and assessment processes using dynamic risk and needs assessment tools.
- Develop a written implementation plan for critical pre- and post-release services to the target population and program participants.
- Develop and implement a transition planning process for each program participant, including the development of an individualized transition plan; type and level of pre- and post-release services; coordination with local law enforcement and/or a community supervision agency; and other local service and community organizations.

Phase II: Implementation (Months 4-24, or 4-36)

- Implement approved strategy in coordination with the advisory group.
- Ensure at least 200 offenders successfully complete pre- and post-release programming and services and provide supervision or periodic contact with law enforcement.
- Manage rigorous screening process for all potential candidates for effective participation, including use of eligibility criteria.
- Use a dynamic risk and need assessment process.
- Oversee pre- and post-release programming and services, including coordination of pre- and post-release orientation meetings with service providers and mentors.
- Coordinate transition services with law enforcement, community corrections, victim services, and other partners to ensure public safety.
- Design and implement a monitoring and evaluation plan to document implemented strategies and outcomes; develop or enhance information collection and analysis capacity beyond the grant period.
- Develop and implement an approach to build support for sustainability after federal funding ends.

Amount and Length of Awards

Up to 20 awards of \$450,000 will be made under the PRI program depending on the availability of funding. The minimum project period is 24 months; the maximum project period is 36 months.

Match Requirement

A grant made under this program may not cover more than 75 percent of the total costs of the project being funded. The applicant must identify the source of the 25 percent non-federal portion of the budget and how match funds will be used. Applicants may satisfy this match requirement with either cash or in-kind services, or a combination of both. The formula for calculating match is:

$$\frac{\text{Award amount}}{\text{Federal Share}} = \text{Adjusted Project Costs} \times \text{Recipient's share} = \text{required match}$$

Example: For a federal award amount of \$350,000, match would be calculated as follows:

$$\frac{\$350,000}{75\%} = \$466,667 \times 25\% = \$116,667 \text{ match}$$

Performance Measures

To assist in fulfilling the Department's responsibilities under the Government Performance and Results Act (GPRA), P.L. 103-62, applicants who receive funding under this solicitation must provide data that measures the results of their work.
