Great Egg / Ocean City:

Great Egg station was built in Longport in 1849. Another station was built in 1896, probably to replace the older structure. Eventually, a new station was built in 1939 but the building was auctioned away in 1942. The present station was built in 1925. The inside of the station, the repair shop, and the boat mooring area were completely renovated in 1978. Facilities include (as of 1983) one 44-foot MLB, one 41-foot UTB, and one 21-foot high speed outboard UTL. The station is manned by one Senior Chief and twenty-eight enlisted men. The station received the Coast Guard Meritorious Unit Commendation for its participation in a myriad of SAR, Law Enforcement, and Operational Readiness activities for the period 21 January 1983 to 12 May 1983.

On 7 September 1989, two Coast Guardsmen from Great Egg Station rescued a 52-year-old woman and a 5-year-old boy who had been trapped beneath a capsized boat off Ocean City beach. Both Guardsmen, Petty Officer Scott Koosher and Seaman Steve Hoagland, received the Coast Guard Commendation Medal and the Meritorious Service Medal, respectively.
