Guy-Louie Christaan, Director of Research & Formula Development, Serotril Sciences, International - Paris that we're all a little different in our needs and current level of health. Don't hesitate to consult with your healthcare provider before you begin your journey to achieving the body you desire.

No matter where you live on our beautiful planet, we all have a lot in common. Millions began this joyous New Year with a resounding resolution, spoken to all that will listen and with glass raised, "I'm going to lose this darn extra weight and get back into shape!" Sound familiar?

The Serotril System has been designed to help you reach your goal without starvation dieting while maintaining a healthy, active lifestyle.

As you read the following instructions, keep in mind that we're all a little different in our needs and current level of health. Don't hesitate to consult with your healthcare provider before you begin your journey to achieving the body you desire.

Before you know it, summer will be here again and we'll all be spending more time outdoors. The many layers of clothing that kept us warm during winter will give way to swimsuits and bare legs again. Tummies and waistlines will come

out of hibernation once again and see the glow of warm sun and tempered air as we embrace another season of fun and activity. But this time you'll be ready and looking great!

This year Serotril Sciences International has released several new formulas. Our cosmetic discoveries have become so popular they are used behind the scenes by TV and movie stars around the world. Now, thanks to this Insider's Newsletter, you can experience what these rich and famous call their personal "best kept secrets."

When you order a Serotril refill and two or more products from this newsletter, include the check below for an instant discount of \$5 US. If you phone in your order, just read the account number at the bottom of the check to the operator and you'll receive the \$5 discount. It's our way of saying thank you and reminding you not to run out of Serotril!

You won't see any fancy pictures of bottles and packaging in this newsletter. Instead you'll see impressive results and prices that are a fraction of retail.

As always, we would like to hear about your personal experience with the Serotril products. Please take a minute to drop us a note. If possible, include a picture. If we use it, your order is free! Thank you. We wish you a happy & healthy New Year to you and your family!

Quick Start Instructions

The Weight Loss & Wellness Program From Europe

Congratulations! You're just minutes away from beginning one of the finest weight loss and wellness programs available. And it's so simple! But first, a little background on the Serotril System.

Remember when we were kids and we didn't think much about what we ate? Weight-loss was a concept we had never heard of. Our activity level was high and our body chemistry turned just about everything we consumed into more energy (much to the dislike of parents and teachers at times).

As kids we could eat just about anything!

But now our lives and body chemistry are different. Though we still desire lots of energy to accomplish daily tasks and participate in family recreation, it seems not everything we eat is instantly utilized as

energy and more becomes stored as fat. Don't worry, you're not alone. This is a worldwide problem. Fortunately, you're among the thousands that will learn how **Serotril** can help solve this dilemma.

Serotril is not just another diet in the sense of the typical starvation menu that robs your body of energy, makes you irritable, and can lower precious serotonin levels in your brain chemistry. Rather, it's a plan assisted by natural substances and a new way of eating -- more food than you're probably consuming right now! So how does all this help with your weight problem? The answer is in a big word you're going to get to know well -- **thermogenesis**.

Thermogenesis is the natural process by which our body turns fat into a burnable substance and then uses this soluble lipid for energy fuel. (Don't worry about the big words, the results will impress you.) When we have an ample supply of energy, we begin to feel good and enjoy life much more. Research has shown that when everything is in balance, serotonin follows giving us that "happy-to-be-alive" feeling which we all love. You're going to like this feeling. Back to the "T" word -- **thermogenesis**.

Like your car or TV set, we run on energy. But unlike a car, our body will make energy from a lot of different fuels. Sugars, carbohydrates, vitamins and protein are on the list. The problem that causes weight gain in otherwise healthy people is the body's natural storage system which automatically kicks in preparing for a rainy day when food might not be available. We are lucky to live in a country where this is not usually the case. Hence, this needless storage of fuel results in unwanted fat. So what's the solution? Store less and burn more.

Exercise is an effective way to burn fuel. Though the Serotril System does not dictate a formal exercise plan, you need to make it a part of your daily routine. Walking briskly every morning and evening has been shown to both burn fat and provide a feeling of well-being. It's also great for your health and digestion!

In about 3 days after beginning the Serotril System you should have more energy and, if not already exercising, you'll feel confident in taking that long walk -- slowly at first, and more briskly in a week or so.

Now here's the most important component of the Serotril System and what has made this weight-loss miracle work so well. Remember, your unwanted fat is just stored energy. The reason you are not getting thinner is that what you're eating is being used by your body chemistry for fuel, and **not what's been stored**. Serotril can help change that!

We need to turn you into a "fat burning machine" using your **stored energy** (fat), instead of what you just ate. Serotril accomplishes this by asking you to consume fewer carbohydrates and instead eat more protein.

You'll never be on a starvation diet with Serotril, don't worry. If you cheat once in a while, don't be concerned. You can make up for it the next day.

Everyone's taste is different, so please consider what follows as just our suggestion on what to eat. The world won't end if you eat the wrong foods once in a while!

Weight Loss Has Never Been So Easy!

If we all liked the same foods, there would be no need for menus in restaurants! Pick and choose, make up your own recipes, and remember this isn't a diet and these are only our suggestions!

The No-No List

Stay away from:

- **Breads** of all kinds (yes, even the "diet" breads)
- **Milk**, especially milk shakes, even skim milk
- **Starches**, corn and potato
- **Jams** and Jellies
- **Pizza** (Sorry!)
- **Other** exceptionally high carbohydrate foods

Go-For-It List!

Meat	Fish	Fowl	Eggs	Cheese
Beef	Salmon	Chicken	Scramble	Cottage
Pork	Shrimp	Goose	Poached	Mozzarella
Lamb	Trout	Gm Hen	Ovr Easy	Cow & goat
Bacon	Flounder	Duck	Soft Boil	Aged Italian
Veal	Seafood		Deviled	
<i>all</i>	<i>all fish</i>	<i>all fowl</i>	<i>all eggs</i>	<i>all cheese</i>

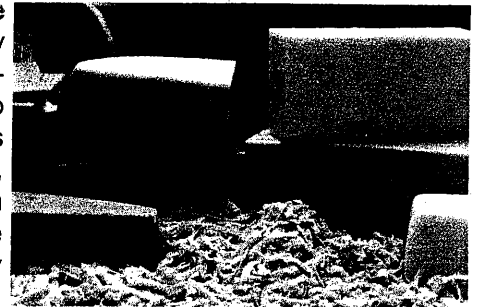

Imagine, if you're a meat eater, you can eat a tender, juicy T-bone steak, covered with mozzarella cheese and a big, crispy salad made with your choice of lettuce and covered with any kind of dressing (except blue cheese), accompanied by a healthy vegetable -- all without feeling guilty! That's why we don't call it a diet. You can eat until you're satisfied -- but don't stuff yourself. That's all there is to the eating part of the Serotril plan. The rest is just as easy.

Attention Vegetarians: The rules are the same. Just substitute appropriate protein foods for the list above. Your results should be just as good! Call us if you have any questions -- (800) 261-4300 (9 am to 5 pm PST).

Nothing Like The Atkins Diet!!! You don't have to be a meat lover to lose weight with Serotril. Unlike the old "no carbs, all meat" (yuck) Atkins diet, Serotril concentrates on naturally raising your serotonin levels. Excessive carbohydrate intake can cause excessive

highs and lows in serotonin and sabotage success. You don't have to eat a lot of weird stuff to lose weight with Serotril. Science has come a long way since the 30 year old Atkins diet came out (sorry Dr. Atkins!).

The rules are simple: Simply lower your carbohydrate intake to around 20 grams a day. Instead, eat lots of protein foods, like cheese. You may eat fruit all day!

Take Serotril A & B according to directions.

Within about 48 hours your body will use up its supply of stored carbohydrates. After that you'll begin to spontaneously burn more stored fat for energy instead of just your daily intake of nasty carbohydrates. You really do become a "fat burning machine" with Serotril. You should feel more energetic and healthy -- maybe for the first time in your life!

The Serotril system is not intended as a substitute for medical counseling. Though Serotril is not a drug, people that are pregnant (or nursing), on diuretics or diabetes medication should proceed only under doctor's supervision.

Serotril A and Serotril B: Next, as part of the Serotril System you'll take Serotril A and B daily. These are not magic, miracle pills. Rather, these are pharmaceutical grade supplements which have some pretty amazing properties. They are not substitutes for a good regimen of vitamins and minerals (available from a health food store or directly from **Serotril Sciences International**). Be aware of the quality of your supplements. **Not all vitamins are created equal!**

When in doubt, talk to your doctor or call us. We're there to help you every step of the way. Most of our staff is using Serotril and it will be fun to share experiences.

Here's how to get the most benefit from natural formulas, Serotril A and Serotril B:

Take 2 to 3 capsules a day on a full stomach with a full, large glass of water.

Pharmaceutical Grade Hypericum Perfortaum
300 mg ea.

Take 1 tablet a day at lunchtime on a full stomach with a full glass of water.

Pantothenic acid to promote catabolism of fatty acids
100 mg ea.

New

New

Take 1 caplet before breakfast and dinner at beginning of program or at plateaus.

Instructions: Take 1 Serotril A with breakfast. Take a Serotril A and a Serotril B with lunch. **Optional:** Take one additional Serotril A with dinner. If you decide on the optional plan, be careful not to run out of A!

Here are a few recipes from our test kitchen. We offer these not as a strict menu, but as an example of how easy it is to lose weight with the Serotril System.

You are encouraged to make up your own dishes. Just keep the carbs low and you can't fail! Send us your favorite recipes and if we print them, we'll send you a free gift!

Hawaiian Stir Fry

- 3 T oil free Italian Red Wine salad dressing
- 2 ½ T Lite Soy Sauce
- ¼ tsp. Worcestershire Sauce
- ¼ tsp. pepper
- ¼ tsp. garlic powder
- 2 T Water + Dr. Stamper's Chicken Bouillon
- ¼ cup bean sprouts
- ¼ cup cabbage
- ½ cup cubed pineapple
- 3 ¼ oz. round steak cut into cubes or strips

Mix first five ingredients together. Spray small frying pan with non-stick spray or use cast iron skillet. On medium heat, cook meat with sauce, add water if needed, cook 5-7 minutes. Add bean sprouts and cabbage and cook, stirring occasionally, 2-3 minutes. Add pineapple, stir and cook until done. Serves 1. Increase for family feeding.

Glazed Chicken

- ½ oz. plain, nonfat yogurt
- 1 drop Sweet & Low
- 2 drops Worcestershire Sauce
- Dash of each; garlic powder, salt, pepper & Tabasco
- 3 oz. skinned, boned chicken breast

Mix all ingredients except chicken. Spray baking pan and place chicken in pan. Top with ½ sauce. Cover and bake at 350° for 15-20 minutes. Top with remaining sauce. Broil until lightly brown. Serves 1. Increase for whole family. They will love the flavor!

Sweet & Sour Fish Kabobs

- ¾ T Red Wine Salad Dressing
- Sweet & Low to taste
- 2 tsp. pineapple juice
- ¾ oz. (total) Red Snapper, Swordfish & Cod cut into 1½- 2 squares
- ½ cup pineapple chunks
- ¼ cup red pepper - Cut into ½ inch squares
- ¼ cup green pepper - Cut into ½ squares

Mix together first four ingredients. Marinate fish covered in refrigerator for at least 30 minutes. On skewers arrange fish, bell peppers and pineapple chunks. Barbecue 4-6" from coals 15-20 minutes, frequently brushing remaining marinade on kabobs. Serves 1. Increase for family. This is our favorite summer creation!

Turkey Burgers

- ¾ oz. ground turkey
- 1 slice onion, chopped fine
- ½ tsp. garlic powder
- 1 tsp. lite soy sauce
- Dash salt and pepper to taste

Mix all ingredients together and form patty. Saute burger until well done. You can even add mustard and cheese to taste. Serves 1. Increase for a great outdoors party.

You can even make great tasting desserts that are low in carbohydrates. Here's one that you'll serve with pride:

Peach Cobbler Without Guilt

- 1 cup peaches in unsweetened juice
- ¼ tsp. cinnamon
- ¼ tsp. cloves
- ¼ tsp. ginger
- Liquid sweetener to taste

FTC05582

Mix all ingredients together. Broil until light brown (but not too much!) Note: The longer peaches marinate in spices, the better they get! (Great in oat-meal)

Introducing New

Serotril ACCELERATOR™

(500 mg)

--from Serotril Sciences International, Vancouver BC, Canada

Give Weight-Loss a giant "Kick Start"

WINTER 1999 -- Serotril Sciences International is proud to announce the release of the newest natural wellness formula, **Serotril ACCELERATOR**. Used in conjunction with Serotril A and Serotril B, Serotril ACCELERATOR rounds out the science of wellness and intelligent weight-loss. Just take one Accelerator before each main meal and suddenly proper nutritional intake can become considerably easier - without annoying hunger!

International research from respected scientists and doctors contributed to this breakthrough. First, a study at the Department of Health Sciences, University of Mexico by Drs. Ramos, Saenz and Aguilar introduced the world to Garcinia Cambogia (GC) as beneficial for weight-loss. Later at the *Experimental Biology Symposium* in San Francisco, CA (April 18-22, 1998) more evidence was pre-

sented that actually showed fat disposition was inhibited and energy was increased with GC. Consistent with the university study, Theoretical Ideal Weight was easier to reach by participants taking Garcinia Cambogia (**Serotril ACCELERATOR** ingredient).

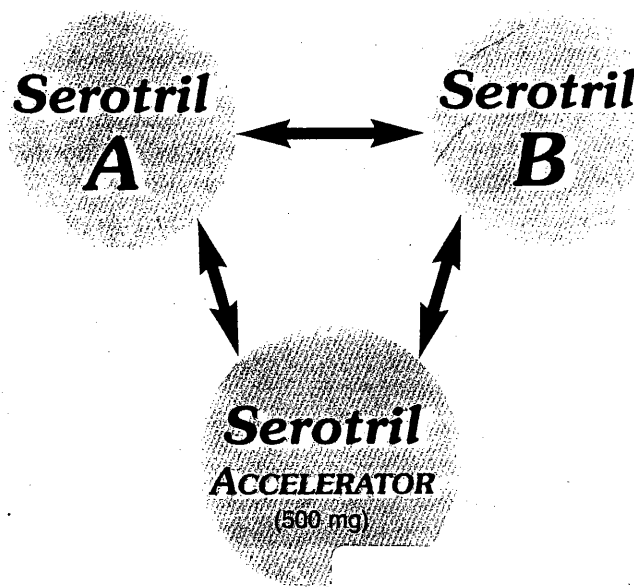

We followed all this closely at Serotril Sciences International, and now you can experience the benefits of pharmaceutical grade Garcinia Cambogia as part of the *Serotril System*. Just take one ACCELERATOR before each main meal and feel the difference. If you haven't yet ordered, please take advantage of your Insider's discount and order now! Use the order form in this newsletter or call.

30-Day Supply (60) Caplets) Just \$24
Order No. ECEL1

Instructions:

Take One Serotril ACCELERATOR 30 Minutes to 1 Hour Before Meals With A Full Glass of Water or Juice.

Follow regular instructions for Serotril A and Serotril B.

Behind The Scenes Secrets Revealed

“How do they stay looking so young? Why is their skin always perfect?”

Celebrities around the world depend on their entertaining talents and strikingly flawless appearance to keep them in the highly competitive spotlight. Many turn to skin care professionals to design special treatment systems and formulas to achieve a youthful appearance in spite of hectic schedules and the passing of time.

The research staff at Serotril Sciences International has developed several exciting cosmetic formulations. These have become respected by actors and actresses from Hollywood to Paris, because they allow the years to pass without the annoying, career threatening signs. Some big names call these formulas their “best kept secret” after paying hundreds of dollars a bottle!

Marla Chantel, VP Entertainment div

Thanks to **Marla Chantel**, Vice President of our entertainment industry skin care department, you can enjoy the same wonderful benefits from these special products as your favorite star, at a fraction of the cost.

You will not see these in retail stores anywhere. These are custom formulations only available directly from Serotril Sciences. As with all our discoveries, your satisfaction is completely guaranteed. Get ready to give yourself a treat. Maybe you'll become a star!

Leave A Great Impression Behind With European ECS.

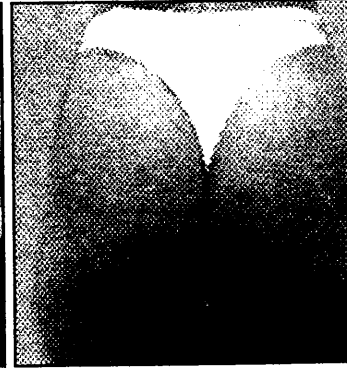

Emergency Cellulite Solution

BEFORE

AFTER

BEFORE

AFTER

Combat that spongy, orange peel appearance with **ECS**, the **Emergency Cellulite Solution** from Europe. This refreshing gel smooths on easily and is loaded with concentrated tightening and firming plant botanicals. You'll notice visible improvement with your very first treatment. You'll be impressed!

Bye-Bye Blemishes

-Evens Skin Tone

*-Makes Brown Spots
Vanish!*

*-Smooths
Pigmentation*

*-Makeup Flows On
Like Silk*

There's nothing worse than embarrassing blemishes to ruin self-confidence. Just when you thought you had left pimples behind when teenage years gave way to adulthood, now ugly brown spots spoil your complexion and make you look old.

A famous French cosmetic formulator recently released a breakthrough treatment that can actually return your youthful appearance and improve skin tone. This is the ultimate concealing system

that looks completely natural.

Hollywood loves it and so will you. The Bye-Bye Blemish kit is selling off the shelf at our Center for \$100. Serotril Sciences is proud to offer this complete system at less than 50% of retail!

Your price is just \$49!
(Order Kit No. **BYE22.**)

(Order more Serotril now plus a 2-month supply and include our company discount check for an **INSTANT SAVINGS** of \$5!)

"I can't believe how great my complexion looks thanks to your Bye-Bye Blemish system. I struggled with those darn brown spots for years. Now you can't even see them even without makeup on! Thank you again." -Barbara

"Every month I used to put up with blotches and blemishes. It was embarrassing and impossible to apply makeup evenly. This really works! All you see is even color.

As you can see.

I wear very little makeup. Areas on my face and neck have uneven skin color. Bye-Bye Blemishes makes my skin tone look perfectly even and natural. Thanks!"

-Carol T., MI

FTC05585

Dermê Bonet

The Ultimate Skin Care From Europe

Its name says it all - **Dermê Bonet** means "beautiful skin." Almost since the beginning of time, women have searched for a way to have a life-long supple, young looking body. Whether you're of European royalty or a famous Hollywood celebrity, appearance means a lot!

Science & Nature Come Together

Formulated in Europe at the request of wealthy, demanding socialites, **Dermê Bonet** will surprise you the very first time you give yourself a 10-minute treatment. Cutting edge Science and trusted nature have come together and created a truly spectacular way to totally defy the dreaded visible signs of aging.

The **Dermê Bonet** formulas use a technology called "Triple E nutritional dermal infusion." At the heart of this treatment is highly concentrated, pure, research grade vitamin E (three types), combined with several proprietary extracts from the cell nuclei of specially grown plants. These formulas plump away lines and provide targeted benefit to the areas most in need; under eyes, forehead, T- zone, and neck. Some users call the **Dermê Bonet** system "plastic surgery in a bottle."

When our staff first learned of this incredible skin care line and had a chance to test the various formulas, we were amazed. After only a few sessions, fine lines and wrinkles began to disappear and skin felt

baby soft. Obviously this was why Europeans, who pay hundreds for the system, kept this their own secret all this time!

Serotril Sciences International has recently been selected as the exclusive company permitted to offer **Dermê Bonet** to its customers in America.

Look Younger In Minutes

Dermê Bonet

The basic system consists of four wonderful formulas:

- TRIPLE E SUPPLE CREAM
- MORNING EYE GEL
- EVENING EYE CREAM
- FACIAL SCRUB & POLISH

Order Kit No. DBKT Just \$49!

It takes just 10 minutes to look 10 to 15 years younger!

Plastic surgery is not the only option for fighting wrinkles.

Annoying fine lines and wrinkles can make you look old at any age.

In just minutes you'll see visible improvement. It's like shedding away the years!

FTC05586

Skin feels smooth and supple to the touch again.

Zap!

Bio-Active, Breakthrough Acne Solution

From France

End Embarrassing Acne Breakouts In 3 Easy Steps

Pimples can ruin everything from photo shoots to family gatherings.

Now you'll be among the few Americans to have this powerful solution to the embarrassment of acne.

Zap! is an effective combination of three formulas that make up one of the finest solutions for teen and adult acne. You can see results in about 12 to 36 hours! Rather than just covering up pimples, this system attacks the bacteria that

causes most acne (*staphylococcus ovreus* and *propionibacterium*).

The bacteriological efficacy of the system was tested at the Clinical Bacteriological Laboratory at the University of Göteborg. The formula actually had a better response than a traditional antibiotics alone in a clinical study with several patients having severe acne breakout. This is truly a cosmetic breakthrough.

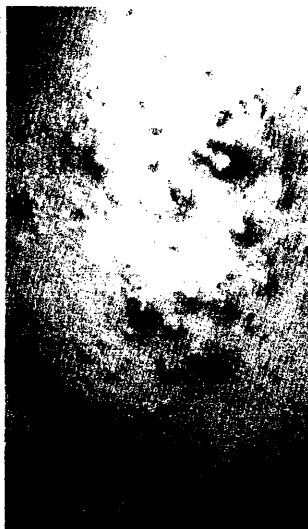

Zap! consists of three simple components; a pleasant Bioactive Cleansing Gel, the Bioactive Concentrate Solution, and the Bioactive Solution Pads. The system targets the affected areas and leaves the face moisturized and radiant. **Zap!** is perfect for all skin types, oily, dry and normal. Put an end to the aggravation of pimples from acne with this new European discovery.

You'll never see **Zap!** in any retail stores. Order now!

Seeing Is Believing! Results Are Amazing.

Acne can occur at almost any age. Some say acne breakout can be triggered by the onset of a menstrual cycle, mounting stress or hormone imbalance.

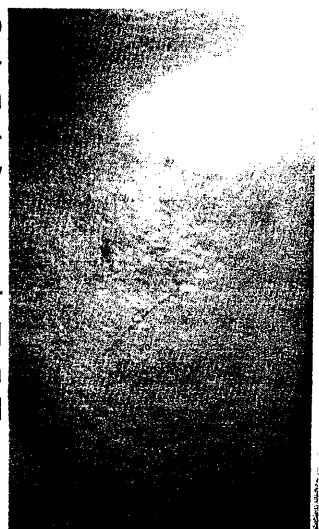

Most acne is bacteria related and can be treated. Whatever the cause, the appearance can be frustrating, embarrassing and harmful to confidence and self image.

Zap! has been shown to fight the bacteria that causes most acne. Skin can become smooth and pimple free in a matter of a few days with proper usage.

Zap! also leaves your complexion full of natural moisture. Makeup goes on easier and there's no need for pasty coverups!

Zap! away pimples fast!

Order **Zap!** now. 30-Day Supply, No. ZAPKT (Retail \$89) As an Insider you pay Just **\$38**
(Order more Serotril now plus a 2-month supply and include our company discount check for an INSTANT SAVINGS of \$5!)

Note: The primary ingredients in all our formulas are natural and drug free! No drug claims are made or implied in any of our materials or announcements and products are not intended to diagnose, treat, cure or prevent any disease. These statements have not been reviewed by the FDA.

Perfect Nails

Dynamic Nail Strengthening System

A Two Part System For Unbelievably
Strong & Beautiful Nails!

This two part system includes a special Nail Strengthening Creme and Liquid Hardener. The rich Creme nourishes dry, damaged, cracked nails & cuticles, and promotes growth. Perfect Nails Strengthening Creme contains a special protein and vitamin complex.

The formula is specifically designed to help make nails stronger and more resilient to breaking and chipping.

Here's how Perfect Nails works:

● First, the **Perfect Nails** Strengthening Creme is massaged over nails and cuticles. Its small molecule formulation is so absorbing that it can actually be used right over nail polish in a pinch!

● Next, the **Perfect Nails** Hardener is applied to clean nails. This is like nothing you've tried before. The formula interacts (cross-links) with the natural nail protein fibers to help promote longer, stronger, harder and more durable nails. This cross-linking action makes the **Perfect Nails** Hardener last many times longer than typical clear undercoats.

Use **Perfect Nails** just once and you'll be convinced you really can have unbelievably beautiful fingernails all the time!

Perfect Nails has become one of our best sellers because of how fast and well the system works. Retail stores around the world buy cases of the **Perfect Nails** system and sell the kits for \$80 to \$100 US! As a Serotril Sciences Insider, you pay only a fraction of the price - way below wholesale!

Go ahead. Indulge yourself with the best nail treatment system available. You'll see the difference after just one application! Nails become strong and beautiful.

Perfect Nails - Order No. **PNAIL** just \$29!

(About a one month's supply.)

Beauty Begins From Within

The Finest Nutritional Supplements - Direct From *Serotril Sciences*

Beautiful, young looking skin and relentless health and energy begin from within your body. Each year there are some 70 new chemicals introduced into the air we breath and the soil from which our food is grown!

Most people worldwide have arrived at the conclusion that we have no choice; we must help our ourselves stay healthy by taking vitamins and other supplements daily. Our body must literally fight for survival sometimes.

All supplements are NOT created equally. Care must

be taken when choosing your source for these vital supplements. Quality differs considerably among manufacturers and sometimes potency is sacrificed for profit margin.

We are proud to present the following formulations, all of which have been quality tested and laboratory assayed for purity and strength. These are the freshest, fastest dissolving tablets and are easy on your stomach while providing the finest, research grade, nutritional supplementation available today. Your body will appreciate this quality and you'll feel the difference! Nature and science have come together for your health.

Beautiful HAIR

Nutritional
Support Formula

Plus EFA's
(Essential Fatty Acids)

60 CAPTABS

This natural formula contains over 18 ingredients known to help nourish the protein that produces thick, strong, beautiful hair.

The stress of coloring, sun and pollution can damage hair, leaving split ends and a lifeless appearance. A healthy metabolism can usually bring back that youthful looking shine and body.

Simply take 1 captab twice daily as a nutritional supplement.

Serotril

Weight Loss & Wellness Program

Congratulations! You're just minutes away from beginning one of the finest weight loss and wellness programs available. And it's so simple! But first a little background on the Serotril System.

Serotril is not just another diet in the sense of the typical starvation menu that robs your body of energy, makes you irritable, and can lower precious serotonin levels in your brain chemistry. Rather, it's a plan assisted by natural substances and a new way of eating -- more food than you're probably consuming right now! So how does all this help with your weight problem? The answer is in a big word you're going to get to know well -- **thermogenesis**.

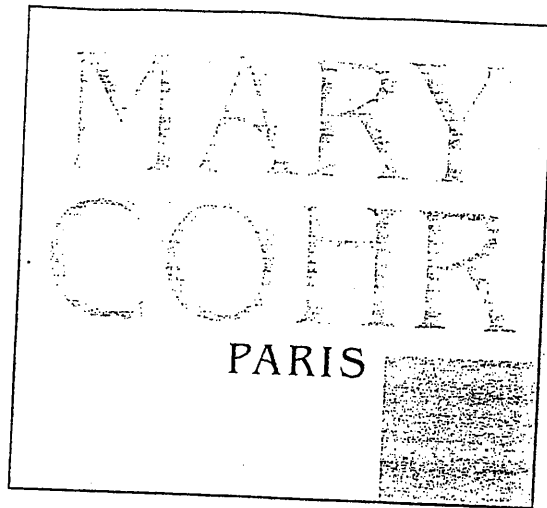

Thermogenesis is the natural process by which our bodies turn fat into a burnable substance and then use this soluble lipid for energy fuel. (Don't worry about the big words, the results will impress you.) When we have an ample supply of energy, we begin to feel good and enjoy life more. Research has shown that when everything is in balance, serotonin follows giving us that "happy-to-be-alive" feeling which we all love. You're going to like this feeling. Back to the "T" word -- thermogenesis.

Like your car or TV set, we run on energy. But unlike a car, our body will make energy from a lot of different fuels. Sugars, carbohydrates, vitamins and protein are on the list. The problem that causes weight gain in otherwise healthy people is the body's natural storage system which automatically kicks in preparing for a rainy day when food might not be available. We are lucky to live in a country where this is not usually the case. Hence, this needless storage of fuel results in unwanted fat. So what's the solution? Store less and burn more.

Exercise is one way to burn fuel. The Serotril System does not dictate a formal exercise plan. However, walking briskly every morning and evening has been shown to both burn fat and provide a feeling of well being. It's also great for the digestion! In about 3 days after beginning the Serotril System you should have more energy and, if not already exercising, you'll feel confident in taking that long walk -- slowly at first, and more briskly as in a week or so.

Now here's the most important component of the Serotril System and what has made this weight loss miracle work so well. Remember, your unwanted fat is just stored energy. The reason you are not getting thinner is that it's what you're eating that is being used by your body chemistry for fuel, **not what's been stored!** Serotril can change that!

We need to turn you into a fat burning machine, using your stored energy (fat) instead of what you just ate. Serotril accomplishes this by asking you to consume very few carbohydrates and instead, eat more protein. Here's what you can and should not eat:

World's Most Advanced Skin Care

Mary Cohr of Paris has made a limited quantity of their most desirable skin care choices available for immediate shipping to you. Unfortunately these are the only items in their famous line that we currently have here in our country. The best of Mary Cohr's line is offered in selected **Packages**. Each comes with their no risk promise of quality:

Seeing Is Believing Guarantee

All Mary Cohr products come with the "seeing is believing guarantee". If you don't see immediate results or aren't absolutely thrilled with your choice, simply return the unused portion for a full refund. No questions asked. You won't see a guarantee this strong in any department store!

Package A -- The Serious Cellulite Solution

After about age 28 we naturally begin to lose important elastin fibers just beneath the skin's surface. The result is that orange peel appearance on the stomach, buttocks and thighs. Legs tire sooner and feel heavy and swollen. These undesirable skin conditions may actually be aggravated by weight loss.

Mary Cohr has made a cosmetic breakthrough that Europeans say is the surgery free solution to sagging skin and ugly orange peel. This package consists of 2 fantastic products never before available in America (see page 7 & 11 of catalogue and try the enclosed free sample).

CREME ANTI-AGE Corporelle & DEFATIGANT INSTANTANE

Europeans pay over \$120 for this package. As part of the *Serotril Sciences* family, your price is just **\$59.87** (while supplies last). Order now for an instant savings of \$60! Inventory permitting, we'll ship the same day.

Package B -- European Body Contour System

Used together, Mary Cohr's next two breakthroughs leave you feeling like you've just visited a posh, European spa, but without the expensive airfare! (See pg. 13 & 14)

GEL DOUCHE AHA & ACTI-MINCEUR RAPIDE

You'll begin your reshaping and contouring session by bathing with the silky, smooth showering gel. Natural Acti-Enzymes are light years ahead of typical, drug store AHA products, and leave you looking and feeling great!

Next, pamper your body with the Acti-Minceur Rapide, then look in the mirror. It will be instantly obvious why Mary Cohr has become the company trusted by those in the spotlight whose careers depend on their glamorous appearance.

FTC05600

Serious Science For An Ageless Appearance

France is known for exciting advancements in cosmetic formulations that really make a difference. Dignitaries and celebrities from afar frequent these European spas and laboratories seeking a more youthful appearance. Now thanks to Serotril Sciences you don't have to be rich and famous to look years younger!

Serotril Sciences International has formed an alliance with one of Europe's most respected and prestigious cosmetic laboratories, **Mary Cohr of Paris**. Specializing in truly cutting edge products, Mary Cohr focuses on results. Each of their formulations has gone through strict testing and only the finest ingredients from around the world are used in these breakthrough products.

When you're dispatching orders daily to European royalty and television mega-stars, every product has to work perfectly.

Mary Cohr is cosmetic perfection.

The research and development in Paris by scientists at Mary Cohr means you no longer have to put up with:

- **Cellulite on Legs & Thighs**
- **Tired Feeling Legs & Ankles**
- **Sagging Skin on Stomach
Buttocks & Arms**
- **Age Telling Fine Lines & Wrinkles**

FTC05601

Serotril A

Take 1 capsule 3 times a day with
a full, large glass of water.

Pharmaceutical Grade Hypericum
Perfortaum

Serotril B

Take 1 tablet a day at
lunchtime on a full stomach
with a full glass of water.
- Pantothenic acid to promote
catabolism of fatty acids

**Important: Do Not Run Out of These Tablets
Reorder more in time!**

Many medical researchers and professionals contributed to the formulation of the two natural components, Serotril A and Serotril B. As mentioned in the special announcement you received, the main ingredient in Serotril A (High Grade Hypericum Perfortaum) has been studied and found to be beneficial for naturally stimulating serotonin production. Our special source for pantothenic acid means you're getting the best possible product with an unprecedented freshness guaranteed. Serotril B has been found to facilitate catabolism of fatty acids. When the Department of General Surgery at Hong Kong Central Hospital studied the Serotril B ingredient it was discovered that regular usage results in an energy release from stored fat which satisfies hunger and increases quality of life.

Don't Be A SNIOP!

Your commitment to losing weight on the new Serotril system need not be shared with friends, neighbors and relatives. One of the biggest obstacles we've seen that can cause disappointing results is becoming Susceptible to the Negative Influence of Other People (SNIOP). You don't have to be a psychic to predict the reactions you'll get if you tell someone you've found the secret to weight loss. "It'll never work. Another gimmick! You'll starve to death. I've never heard of Serotril. You have to sweat to lose weight, everyone knows that. The Serotril System is too easy -- can't possibly work!" Just wait . . .

Follow the simple rules and you will lose weight. There is no question about it -- **you will lose weight with Serotril**. Instead of telling everybody you're trying something new, keep quiet and listen for the compliments. It will be fun. Make no mistake, Serotril is the breakthrough 88 million overweight Americans have been waiting for. It's safe, natural, healthy and it works.

As you lose weight, you'll have to go through several plateaus. Suddenly you'll stop losing weight. This is natural and should be expected. Stay with it. Keep a close watch on those sneaky little carbohydrates. Stay below 20 grams a day and you'll be fine (pick up any nutritional reference book with a carb chart). As you begin to reach your desired weight, increase the carbs.

If you need guidance throughout your exciting journey to a new body and lifestyle, just give us a call. We're on your side.

(310) 274-3064

\$100 Reward!

Send us a letter about your experience with Serotril including a picture. If we include it in our next announcement, we'll send you a nice crisp \$100 bill!

Now, turn this booklet over for another announcement!

FTC05602

The No-No List

Stay away from -

- Breads of all kinds (yes, even the "diet" breads)
- Milk, especially milk shakes, even skim milk
- Rice and pasta of all kinds
- Corn and potato (and all other starches!)
- Berries, including strawberries, blackberries, etc.
- Bananas, apples, apricots, avocados, prunes
- Beans, all kinds
- Jams and Jellies
- Pizza
- Other high carbohydrate foods

Go-For-It List

Eat until full -

Meat	Fish	Fowl	Eggs	Cheese
Beef	Tuna	Chicken	Scrambled	Cow & goat
Pork	Salmon	Turkey	Fried	
Cottage				
Lamb	Sole	Duck	Poached	Mozzarella
Bacon	Trout	Goose	Soft Boiled	Cream
Veal	Flounder	Game Hen	Devilled	Aged
<i>all meats</i>	<i>all fish</i>	<i>all fowl</i>	<i>all eggs</i>	

Imagine, you can eat a tender, juicy T-bone steak, covered with mozzarella cheese and a big, crispy salad made with your choice of lettuce and covered with any kind of dressing (except blue cheese), accompanied by a healthy vegetable (except ones listed on the No-No list), all without feeling guilty! That's why we don't call it a diet. You can eat until you're satisfied -- but don't stuff yourself. That's all there is to the eating part of the Serotril plan. The rest is just as easy.

The rules are simple: Limit your carbohydrate intake to less than 20 grams a day. Instead, eat lots of protein foods. Within about 48 hours your body will use up its supply of stored carbohydrates. After that you'll begin a state of ketosis (you begin to spontaneously burn more stored fat for energy instead of just your daily intake of nasty carbohydrates). You really do become a "fat burning machine" with Serotril.

The Serotril system is not intended as a substitute for medical counseling. People that are pregnant (or nursing), on diuretics or diabetes medication should proceed only under doctor's supervision.

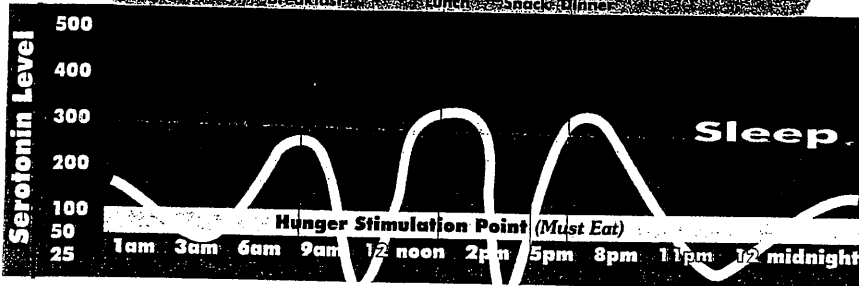

Serotril A and Serotril B: Next, as part of the Serotril System you'll take Serotril A and B daily. These are not magic, miracle pills. Rather, these are pharmaceutical grade supplements which have some pretty amazing properties. They are not substitutes for a good regimen of vitamins and minerals (available from a health food store or directly from *Serotril Sciences International*).

Be aware of the quality of your supplements. **Not all vitamins are created equal!** When in doubt, talk to your doctor or call us. We're there to help you every step of the way. Most of our staff is using Serotril and it will be fun to share experiences.

... being overweight is not your fault!"

Serotonin Decides Your Mood and Body Weight

Overweight Person:
Always Hungry, Depressed, Low Energy, Sad
Abnormally Low Serotonin Level

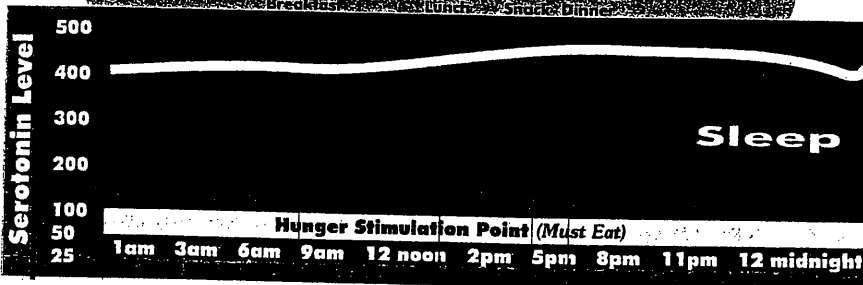

■ Serotonin Level Normal
Happy, No Food Cravings
■ Serotonin Level Low
Appetite Stimulated

Above: Female, 42 yrs. old., 48 lbs. overweight. Has tried 8 different starvation diets, 3 prescription drugs, intensive exercise with little or no improvement. Suffers from mood swings, low energy, lack of sexual desire and ability. Complexion (face and neck) showing premature signs of aging.

Below: Same person after 28 days on natural Serotril. Lost 19 lbs so far. Looks noticeably younger. Happy, energetic again!

After Using Serotril 1 Month
Automatically losing weight daily, Happy & Energetic!
Normal Daily Serotonin Cycle

From: Barbara J., Plano, TX
I have been overweight since I was a teenager, having to put up with all those fat girl jokes. I even read somewhere that overweight people live a shorter life. But no matter what I tried I couldn't lose but a pound or two. I tried sweating to some dance tape I saw on TV, I tried going to a weight loss clinic - all I got more hungry and more depressed. Almost immediately after using Serotril, I began feeling good and happy again and my years of flab gan to melt away. I'm still amazed at how fast Serotril works! My husband is so happy with my new, sexy figure, he took me on a vacation to Hawaii! Thanks for my new life. - Love, Barbara J.

Barbara lost 36 lbs.

Dr. J. lost 48 lbs

From: Dr. Jacob W., Beverly Hills, CA
I am a retired MD and have always known the health risks of being even 10% overweight. But as you know, for every year past 30, people seem to gain a pound or two. It adds up fast! I was 60 lbs. overweight for my height and frame before I started using the Serotril system. Without a doubt, you have discovered a tool to fight a condition suffered by 88 million Americans - obesity. Serotril represents a scientific breakthrough long overdue. After using Serotril myself and experiencing the ease in which I personally lost 48 pounds (so far) without drug related side effects, I compliment you and your team on this exciting contribution. - Dr. Jacob W.

So, that's why I crave fattening foods!"

Until Serotril, There Wasn't Much You Could Do!

Serotril --

Available To Public Without Prescription

Serotril contains a delicate, small molecule that has some very amazing properties. For years this natural miracle has been used in Europe and was proven safe. According to worldwide health publications, because of the beneficial effects of this amazing, tiny molecule, doctors in Germany recommend this natural substance more often than most traditional prescription drugs.

Serotril works by naturally inhibiting the production of MAO (remember, MAO is the bad enzyme that can destroy precious serotonin). By taking **Serotril** you get the results of the popular diet drugs (now banned), but without the side effects.

In the medical journal, *Drug Research*, Dr. S. Perovic reported that the **Serotril** ingredient keeps serotonin active between meals, ending cravings which lead to snacking.

Another positive benefit of maintaining a proper serotonin level is the accompanying sensation of happiness and well-being.

Serotril smooths out the highs and lows so you don't crave carbohydrates, the most fattening of the food groups. Starvation diets neglect the psychological effects of low serotonin levels which is why they just don't work.

See Chart Next Page

Serotril maintains a healthy, steady serotonin level all day and night. When serotonin approaches or drops below the Hunger Stimulation Point (HSP), uncontrollable eating is triggered. Hence, weight-gain.

Serotril naturally stimulates the production of serotonin, causing spontaneous weight loss **without useless dieting!** Since **Serotril** is not a drug, there are no unpleasant side effects, even with prolonged usage.

People report losing weight quickly with **Serotril**. Even though **Serotril** is so effective, it's not a drug! This new breakthrough is now available, and **without a doctor's prescription** (though you should always check with your doctor before starting this or any other weight loss regimen).

Find your ideal, healthy weight on the chart (right).

When You Lose Weight, You Gain Energy, Sex Drive, Happiness . . . Life!

Recently *USA Today* reported that some major health insurance companies are now covering certain "non traditional" treatments for various ailments. Some call this approach Alternative Medicine, Naturopathics, Homeopathics or Natural Remedies.

Oxford, the prestigious east coast health carrier, may be the first of a groundswell of companies addressing common health problems without relying solely on potentially dangerous drugs. Though we live in the most scientifically advanced country in the world, we're just now recognizing what other cultures have embraced for eons. Interesting...

Dr. Rappaport in his interview cited obesity as a serious condition far more important than vanity. "Being just 15 pounds overweight can compromise quality of life. Lowered energy, lack of sexuality, sleeping problems and depression can be symptomatic of even slight obesity. When you correct the biochemical cause of weight gain [with **Serotril**], you will lose weight naturally without useless dieting."

The most exciting part of Dr. Rappaport's discovery is that **Serotril** is really a "Wellness Formula." Though users are thrilled about their rapid and effortless weight loss, **Serotril** is also providing many other critically important health benefits.

Note: All our formulas including Serotril are natural and do not contain drugs. No drug claims are made or implied here or in any of our materials which are not necessarily reviewed by the FDA. These formulas are not intended to diagnose, treat, cure or prevent any disease. Always check with your healthcare provider before starting this or any weight-loss program. Proper nutrition and moderate exercise are essential to weight management.

If you've struggled for years to have a healthy, great looking figure without success, now there are no more excuses. New **Serotril** is safe, natural and available without a prescription!

Serotril, A "Wellness Formula"

Like most, this reporter is most anxious to use **Serotril** for its weight-loss benefits. (After all, if **Serotril** is being used by TV stars and is natural, why not give it a try?) However, as Dr. Rappaport explained, there is much more to his discovery than just easy weight loss. **Wellness!**

A prominent doctor and professor at prestigious American medical university found a remarkable nutrient called hexanicotinate, vital in breaking down fat into soluble lipids which can then be used to produce energy. This natural process takes place in our bodies and is called "thermogenesis." It gives us that pleasant, happy-to-be-alive feeling!

In addition, when lipids change to this soluble state, HDL (good cholesterol) increases by almost 30%, while the bad LDL goes down about 17%! One of the many natural ingredients in **Serotril** is *inositol hexanicotinate*.

Jean-Paul Rappaport, MD, Paris, France

Dear Reader:

I am proud of the team of scientists in France and Canada that have worked to perfect the Serotril system. This is truly a long awaited breakthrough.

Those who have failed on fad diets and harsh drugs are finally able to lose their unwanted pounds. Even if you're a FEN-PHEN failure, the Serotril system can work for you too. Serotril is completely guaranteed.

Until this announcement, my Serotril was only available to a few "insiders" through our research facilities in Europe. Now you don't have to be a Hollywood star or among the rich and famous to have a great looking figure, thanks to Serotril!

The only way to lose weight is through a process called Thermogenesis which converts stored fats into soluble lipids. These lipids are then burned off by your body chemistry naturally as energy. Serotril helps put this process in motion naturally by encouraging serotonin production and proper nutrition.

My formula does not contain ephedrine, caffeine or any drug stimulants. Serotril is 100% natural and safe. The extremely clean and pure natural elements we discovered in Canada and Europe contribute to the quality and success of the Serotril formula.

Your personal weight loss will vary. Please DO NOT lose too much weight. Being too thin can be just as unhealthy as being over weight. As your weight begins to plummet, follow the Serotril maintenance instructions as you approach your ideal weight (see chart pg. 7).

If you have a moment, drop me a note. I would love to hear of your experience with our Serotril system. (Kindly include a picture.)

Your Friend, --Dr. Jean-Paul Rappaport

Coverup Revealed!

Drug Company Scandal Erupts

Side Effects Prompt FDA To Ban FEN-PHEN

New Safe Alternative Just Released - Serotril
Available Without Prescription

By Dr. Dean Adler, Sr. Medical Editor

Imagine getting calls in the middle of the night from stars of television shows such as *Baywatch*, *90210*, *ER* and others. "Stars panic when they're getting ready to attend award shows like TV's Golden Globe because they must look their best," calmly explained Dr. Jean-Paul Rappaport. "They know that my natural weight loss formula, *Serotril*, works without dieting and without side effects that might affect their performances and careers."

Dr. Jean-Paul Rappaport, France

Photo: A. L. Mogel

Separated from Hollywood by 9,000 miles and a nine hour time difference means that Dr. Rappaport will likely continue receiving these calls in the middle of the night at his home in central France. Celebrities consider him the "star" when it comes to their perfect, sexy, slender figures. Clearly, he is one of Hollywood's best kept secrets. And, until this report, so has his weight loss discovery, *Serotril*.

More about new *Serotril* later...

Drug Company Coverup Unfolds -- FDA Steps In

In my 32 years as a medical editor contributing to some of America's most prestigious publications, I have written about many weight loss discoveries including the release of the Fenfluramine & Phentermine ("FEN-PHEN") combination protocol. Everyone, including medical professionals, thought that FEN-PHEN was the answer. They all were dangerously wrong!

In September of 1997 the United States Food and Drug Administration officially banned the use of FEN-PHEN for weight control. It appears that toward the end of the drug company's required testing of FEN-PHEN, life-threatening side effects were found from the use of this drug combination. Scientists at Johns Hopkins University Medical Center discovered that users of FEN-PHEN developed swelling of neurons deep within their brains. It also was found to be the cause of abnormal heart valve function that, after a few months usage, produced arrhythmias conditions. Unfortunately, this was after millions of prescriptions had been written for FEN-PHEN -- the media had portrayed it as being a medical miracle breakthrough. Obviously they were wrong!

Page 3

the problem might just be in your neau!

Your Brain Chemistry Controls Body Weight, Sexual Ability, Mood Swings & Aging

Johns Hopkins University CAT Scans

Over-Weight, Tired & Depressed
Low Serotonin Levels

Recovered! -- Normal Serotonin Levels

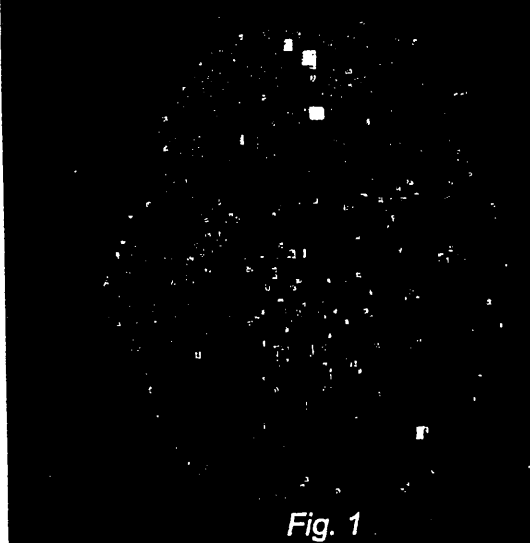

Fig. 1

Fig. 2

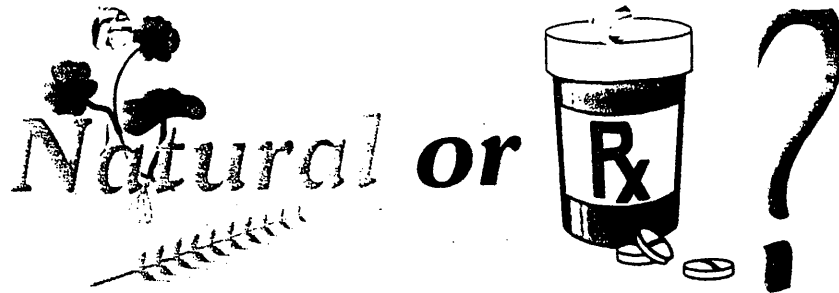

Serotonin is one of a large number of natural chemical substances called neurotransmitters, which carry messages between nerve cells within the brain. Serotonin is the "feel good" brain chemical which is responsible for regulating our moods and deciding our body weight. Fig. 1 is a brain scan showing low serotonin levels common with users of FEN-PHEN. Person has mood swings and is usually tired. Fig. 2 represents a brain scan of a healthy person fully recovered after using all-natural **Serotril**. Serotonin levels have been increased causing an overall feeling of well-being and spontaneous, natural weight loss without dieting. Patient in this study lost 78 lbs. effortlessly.

**... the drug companies
attempted to hide this horrific
finding from the public.**

Just like the tobacco companies did with nicotine, the drug companies attempted to keep this horrific finding from the public by furnishing their own research contrary to the clinical studies at Johns Hopkins University. The FDA swiftly stepped in and protected the public by stopping the prescription of problematic FEN-PHEN.

The reason behind the attempted coverup is not uncommon among giant, public corporations. Stockholders of the big drug companies involved were furious since hundreds of millions of dollars were already spent on marketing FEN-PHEN. After all, with 88 million Americans overweight and desperate for a solution, they were certainly on their way to big profits.

When the FDA stepped in, the stock value of the pill mills fell instantly. Panic set in as FEN-PHEN was being pulled off the market. The *Wall Street Journal* reported that malpractice suits poured into the court systems as people wound up in hospitals with chronic insomnia, nervousness and serious heart valve problems, all from taking FEN-PHEN.

What Drug Companies Don't Want You To Know

What you are about to read will probably shock you as much as it did this reporter. Drug company coverups go far beyond FEN-PHEN. Now the plot thickens! It seems these billion dollar drug giants all have one relentless competitor in common they all constantly fear -- *Natural Remedies*.

Most of the world's population has relied on natural formulas (naturopathics) and homeopathics for thousands of years with proven success. In fact, in Europe and the far-east (China & Japan), successful companies involved with natural products are as big and well respected as the chemical drug giants here in America. So why do most people in this country falsely assume that prescription drugs are "the only thing that works?" Simple. These profitable drug companies have a ton of money to spend on marketing! Think about it -- everywhere you go they're in your face. Magazines, TV ads, pharmacies in grocery stores, and the biggest promoter of all, hospitals, HMO's and mainstream physicians.

Drug companies make it nearly impossible for doctors to resist prescribing their expensive pills for what ails you. They pull out all the stops when pushing their drugs on physicians including sending out attractive "pharmaceutical consultants" to visit with arm loads of free samples.

Ever wonder why some doctor's offices and hospitals hand out those free samples of aspirin substitutes so readily?

Well, the company that makes the popular pills has a secret "reward" program that sends doctors and hospital officials on lavish, paid vacations to Hawaii, Hong Kong or Europe as their way of saying thanks for pushing their pills. Think about it. When was the last time your doctor recommended a natural herbal product for any condition? I think you've got the picture...

Dr. E. U. Vorbach Proves Natural Formulas Work!

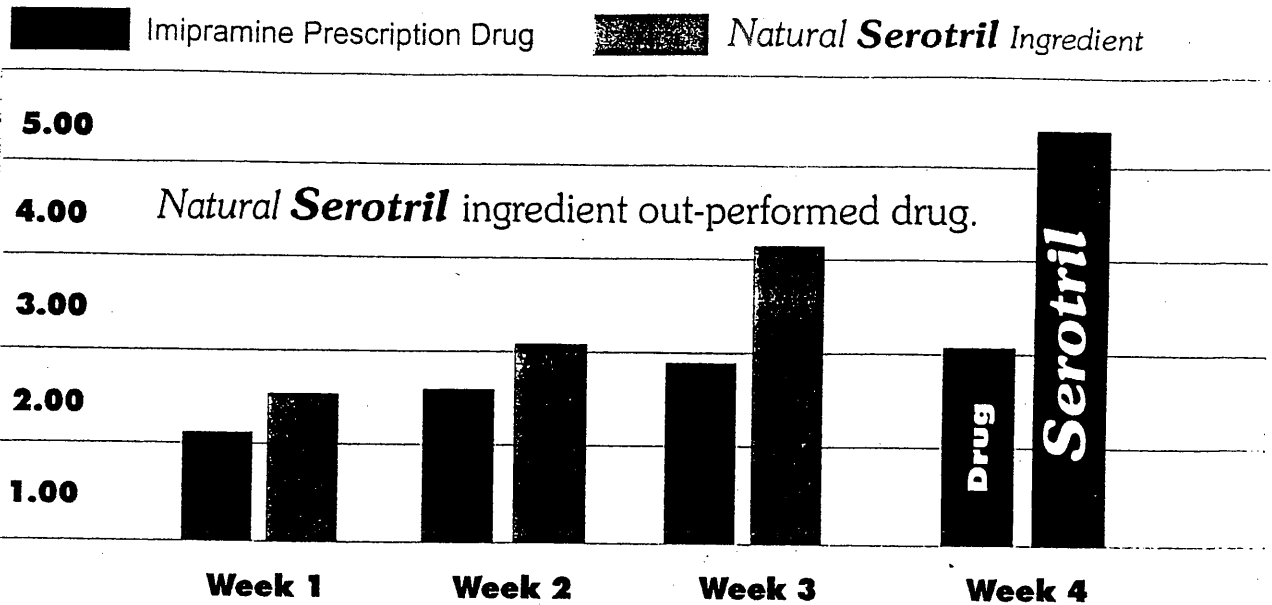

Here's the study the drug companies tried to keep under wraps. Dr. E. U. Vorbach conducted a double-blind, clinical study comparing the effects of two substances in the treatment of depression. Both work by stimulating serotonin production in the brain thus making patients feel happy again.

Imipramine, a powerful prescription drug, was tested against a natural, micro-molecule plant extract, European Hypericum Perforatum, an ingredient in Dr. Rappaport's *Serotril*. The results of his study will astonish you.

The natural substance was actually proven more powerful and faster acting than the drug! And the subjects given the plant extract had none of the side effects of the drug taking group. (The chart on the next page shows Dr. Vorbach's results.) You probably hadn't heard of the findings before, right? Did the drug giants keep it from being published here in America? We found it easily in Europe...

New Serotril is safe and natural . . .

Dr. Vorbach's Clinical Study Proves Natural Works Better

In this 30 day double-blind clinical trial, Dr. E. U. Vorbach tested a common prescription antidepressant drug against a micro-molecule natural plant extract. Many people falsely believe only drugs can help with health problems. Dr. Vorbach proved that this natural substance actually worked better and faster to increase brain serotonin levels. Of course those on the natural formula did not have any of the drug side effects, yet lost weight without dieting and began feeling happy again. Participants also reported that food cravings disappeared and energy increased.

How Serotril Works

Without getting too technical, one needs to understand a bit about brain chemistry to appreciate the incredible beneficial effects of *Serotril*. As mentioned before, there are many naturally occurring neuro-chemicals that make up the environment within the brain. They store and transmit messages throughout the nervous system. One of the substances is an enzyme called monoamine oxidase (MAO). It is produced as a byproduct of a complex reaction and is not necessarily beneficial to our well being. MAO destroys serotonin and the brain chemical norephrine, a very important brain neurotransmitter. Low serotonin leads to headaches, depression, sleeplessness, reduction of short-term memory and, most importantly for weight management, **uncontrollable food cravings — especially for carbohydrates!**

Page 6

Hunger is a complex sensation that scientists know is directly tied to brain chemistry, not just our stomachs! In particular, carbohydrates are responsible for the vast majority of weight problems. That's because carbohydrates cause the production of insulin, allowing tryptophan to enter the brain. Tryptophan stimulates the production of serotonin which regulates our body weight and makes us feel good. But there's one big problem!

Until the release of *Serotril*, fattening, figure destroying carbohydrates were the only natural serotonin stimulant for that happy, comfortable feeling. Unfortunately, this carbohydrate stimulated "high" lasts only a short time, encouraging further intake of snack foods, potato chips, pastries and sweets which are all carbohydrates. This is the sad vicious circle that leads to obesity. It is this subconscious desire to *feel good* that causes people to eat more carbohydrates and thus gain weight!

Until Serotril, There Wasn't Much You Could Do!

Serotril -- Available To Public Without Prescription

Serotril contains a delicate, small molecule that has some very amazing properties. For years this natural miracle has been used in Europe and was proven safe. According to world health publications, because of the beneficial effects of this amazing, tiny molecule, doctors in Germany recommend this natural substance more often than most traditional prescription drugs.

Serotril works by naturally inhibiting the production of MAO (remember, MAO is the bad enzyme that can destroy precious serotonin). By taking Serotril you get the results of the popular diet drugs (now banned), but without the side effects.

In the medical journal, *Drug Research*, Dr. S. Perovic reported that the Serotril ingredient keeps serotonin active between meals, ending cravings which lead to snacking.

Another positive benefit of maintaining a proper serotonin level is the accompanying sensation of happiness and well-being.

Serotril smooths out the highs and lows so you don't crave carbohydrates, the most fattening of the food groups. Starvation diets neglect the psychological effects of low serotonin levels which is why they just don't work.

See Chart Next Page

Serotril maintains a healthy, steady serotonin level all day and night. When serotonin approaches or drops below the Hunger Stimulation Point (HSP), uncontrollable eating is triggered. Hence, weight-gain.

Serotril naturally stimulates the production of serotonin, causing spontaneous weight loss **without dieting!** Since Serotril is not a drug, there are no unpleasant side effects, even with prolonged usage.

People report losing weight as soon as the second day on Serotril. Even though Serotril is so effective, it's not a drug! This new breakthrough is now available, and **without a doctor's prescription** (though you should always check with your doctor before starting this or any other weight loss regimen).

Find your ideal, healthy weight on the chart (right).

Below: Same person after 28 days on natural *Serotril*. Lost 19 lbs so far. Looks noticeably younger. Happy, energetic again!

After Using Serotril 1 Month
Automatically losing weight daily. Happy & Energetic!
Normal Daily Serotonin Cycle

Barbara Lost 36 lbs. From: Barbara J., Plano, TX
I have been overweight since I was a teenager, having to put up with all those fat girl jokes. I even read somewhere that overweight people live a shorter life. But no matter what I tried I couldn't lose but a pound or two. I tried sweating to some dance tape I saw on TV, I tried going to a weight loss clinic - all I got is more hungry and more depressed. Almost immediately after using *Serotril*, I began feeling good and happy again and my years of flab began to melt away. I'm still amazed at how fast *Serotril* works! My husband is so happy with my new, sexy figure, he took me on a vacation to Hawaii! Thanks for my new life. - Love, Barbara J.

Dr. J. Lost 48 lbs

From: Dr. Jacob W., Beverly Hills, CA
I am a retired MD and have always known the health risks of being even 10% overweight. But as you know, for every year past 30, people seem to gain a pound or two. It adds up fast! I was 60 lbs. overweight for my height and frame before I started using the *Serotril* system. Without a doubt, you have discovered a tool to fight a condition suffered by 88 million Americans -- obesity. *Serotril* represents a scientific breakthrough long overdue. After using *Serotril* myself and experiencing the ease in which I personally lost 48 pounds (so far) without drug related side effects, I compliment you and your team on this exciting contribution. -- Dr. Jacob W.

The Weight Loss & Wellness Program From Europe

Congratulations! You're just minutes away from beginning one of the finest weight loss and wellness programs available. And it's so simple! But first a little background on the Serotril System.

Remember when we were kids and we didn't think much about what we ate? Weight-loss was a concept we had never heard of. Our activity level was high and our body chemistry turned just about everything we consumed into more energy (much to the dislike of parents and teachers at times).

But now our lives and body chemistry are different. Though we still desire lots of energy to accomplish daily tasks and participate in family recreation, it seems not everything we eat is instantly utilized as energy and more becomes stored as fat. Don't worry, you're not alone. This is a world-wide problem. Fortunately, you're among the thousands that will learn how **Serotril** can help solve this dilemma.

Serotril is not just another diet in the sense of the typical starvation menu that robs your body of energy, makes you irritable, and can lower precious serotonin levels in your brain chemistry. Rather, it's a plan assisted by natural substances and a new way of eating -- more food than you're probably consuming right now! So how does all this help with your weight problem? The answer is in a big word you're going to get to know well -- **thermogenesis**.

Thermogenesis is the natural process by which our body turns fat into a burnable substance and then uses this soluble lipid for energy fuel. (Don't worry about the big words, the results will impress you.) When we have an ample supply of energy, we begin to feel good and enjoy life much more. Research has shown that when everything is in balance, serotonin follows giving us that "happy-to-be-alive" feeling which we all love. You're going to like this feeling. Back to the "T" word -- **thermogenesis**.

Like your car or TV set, we run on energy. But unlike a car, our body will make energy from a lot of different fuels. Sugars, carbohydrates, vitamins and protein are on the list. The problem that causes weight gain in otherwise healthy people is the body's natural storage system which automatically kicks in preparing for a rainy day when food might not be available. We are lucky to live in a country where this is not usually the case. Hence, this needless storage of fuel results in unwanted fat. So what's the solution? Store less and burn more.

Exercise is one way to burn fuel. The Serotril System does not dictate a formal exercise plan. However, walking briskly every morning and evening has been shown to both burn fat and provide a feeling of well being. It's also great for the digestion! In about 3 days after beginning the Serotril System you should have more energy and, if not already exercising, you'll feel confident in taking that long walk -- slowly at first, and more briskly in a week or so.

Now here's the most important component of the Serotril System and what has made this weight-loss miracle work so well. Remember, your unwanted fat is just stored energy. The reason you are not getting thinner is that what you're eating is being used by your body chemistry for fuel, and **no what's been stored!** Serotril can change that!

We need to turn you into a fat burning machine, using your stored energy (fat), instead of what you just ate. Serotril accomplishes this by asking you to consume less carbohydrates and instead eat more protein.

You'll never be on a starvation diet with Serotril, don't worry. If you cheat once in a while, don't be concerned. You can make up for it the next day.

Everyone's taste is different, so please consider what follows as just our suggestion on what to eat. The world won't end if you eat the wrong foods once in a while!

Weight Loss Has Never Been So Easy!

If we all liked the same foods, there would be no need for menus in restaurants! Pick and choose, make up your own recipes, and remember this isn't a diet and these are only our suggestions!

The No-No List

stay away from:

- Breads of all kinds (yes, even the "diet" breads)
- Milk, especially milk shakes, even skim milk
- Starches, corn and potato
- Jams and Jellies
- Pizza (Sorry!)
- Other exceptionally high carbohydrate foods

Go-For-It List!

Meat	Fish	Fowl	Eggs	Cheese
Beef	Tuna	Chicken	Scramble	Cottage
Pork	Salmon	Goose	Poached	Mozzarella
Lamb	Trout	Gm Hen	Ovr Easy	Cow & goat
Bacon	Flounder	Duck	Soft Boil	Aged Italian
Veal	Sole		Deviled	
<i>All meats</i>	<i>all fish</i>	<i>all fowl</i>	<i>all eggs</i>	<i>all cheese</i>

Imagine, if you're a meat eater, you can eat a tender, juicy T-bone steak, covered with mozzarella cheese and a big, crispy salad made with your choice of lettuce and covered with any kind of dressing (except blue cheese), accompanied by a healthy vegetable -- all without feeling guilty! That's why we don't call it a diet. You

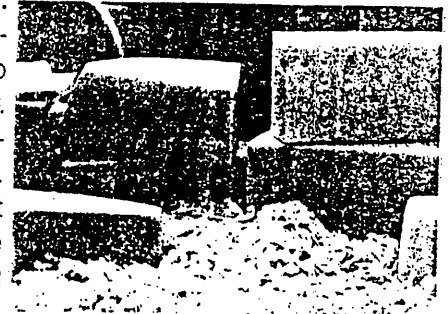

can eat until you're satisfied -- but don't stuff yourself. That's all there is to the eating part of the Serotril plan. The diet is just as easy.

Attention Vegetarians: The rules are the same. Just substitute appropriate protein foods for the list above. Your results should be just as good! Call us if you have any questions -- (800) 261-4300 or Email serotril@aol.com.

Nothing Like The Atkins Diet!!! You don't have to be a meat lover to lose weight with Serotril. Unlike the old "no carbs, all meat" (yuck) Atkins diet, Serotril concentrates on naturally raising your serotonin levels. Excessive carbohydrate intake can cause excessive highs and lows in serotonin and sabotage success.

You don't have to eat a lot of weird stuff to lose weight with Serotril. Science has come a long way since the 30 year old Atkins diet came out (sorry Dr. Atkins!).

The rules are simple: Simply lower your carbohydrate intake to around 20 grams a day. Instead, eat lots of protein foods, like cheese. You may eat fruit, but not after 2 pm. Take Serotril A & B according to directions.

Within about 48 hours your body will use up its supply of stored carbohydrates. After that you'll begin to spontaneously burn more stored fat for energy instead of just your daily intake of nasty carbohydrates. You really do become a "fat burning machine" with Serotril. You should feel more energetic and healthy -- maybe for the first time in your life!

The Serotril system is not intended as a substitute for medical counseling. Though Serotril is not a drug, people that are pregnant (or nursing), on diuretics or diabetes medication should proceed only under doctor's supervision.

Serotril A and Serotril B: Next, as part of the Serotril System you'll take Serotril A and B daily. These are not magic, miracle pills. Rather, these are pharmaceutical grade supplements which have some pretty amazing properties. They are not substitutes for a good regimen of vitamins and minerals (available from a health food store or directly from **Serotril Sciences International**). Be aware of the quality of your supplements. **Not all vitamins are created equal!**

When in doubt, talk to your doctor or call us. We're there to help you every step of the way. Most of our staff is using Serotril and it will be fun to share experiences.

Here's how to get the most benefit from natural formulas, Serotril A and Serotril B:

Serotril A

Serotril B

Take 2 to 3 capsules a day on a full stomach with a full, large glass of water.

Pharmaceutical Grade Hypericum
Perfortaum
300 mg ea

Take 1 tablet a day at lunchtime on a full stomach with a full glass of water.

Pantothenic acid to promote catabolism
of fatty acids
100 mg ea

Instructions: Take 1 Serotril A with breakfast. Take a Serotril A and a B with lunch. **Optional:** Take one additional Serotril A with dinner. If you decide on the optional plan, be careful not to run out of A!

Here are a few recipes from our test kitchen. We offer these not as a strict menu, but as an example of how easy it is to lose weight with the Serotril System.

You are encouraged to make up your own dishes. Just keep the carbs low and you can't fail. Send us your favorite recipes and if we print them, we'll send you a free gift!

Hawaiian Stir Fry

- 3 T oil free Italian Red Wine salad dressing
- 2 1/2 T Lite Soy Sauce
- 1/4 tsp. Worcestershire Sauce
- 1/4 tsp. pepper
- 1/4 tsp. garlic powder
- 2 T Water + Dr. Stamper's Chicken Bouillon
- 1/4 cup bean sprouts
- 1/4 cup cabbage
- 1/2 cup cubed pineapple
- 3 1/4 oz. round steak cut into cubes or strips

Mix first five ingredients together. Spray small frying pan with non-stick spray or use cast iron skillet. On medium heat, cook meat with sauce, add water if needed, cook 5-7 minutes. Add bean sprouts and cabbage and cook, stirring occasionally, 2-3 minutes. Add pineapple, stir and cook until done. Serves 1. Increase for family feeding.

Glazed Chicken

- 1/2 oz. plain, nonfat yogurt
- 1 drop Sweet & Low
- 2 drops Worcestershire Sauce
- Dash of each; garlic powder, salt, pepper & Tabasco
- 3 oz. skinned, boned chicken breast

Mix all ingredients except chicken. Spray baking pan and place chicken in pan. Top with 1/2 sauce. Cover and bake at 350° for 15-20 minutes. Top with remaining sauce. Broil until lightly brown. Serves 1. Increase for whole family. They will love the flavor!

Sweet & Sour Fish Kabobs

- 3 1/2 T Red Wine Salad Dressing
- Sweet & Low to taste
- 2 tsp. pineapple juice
- 3 1/2 oz. (total) Red Snapper, Swordfish & Cod cut into 1 1/2 squares
- 1/2 cup pineapple chunks
- 1/4 cup red pepper - Cut into 1/2 inch squares
- 1/4 cup green pepper - Cut into 1/2 squares

Mix together first four ingredients. Marinate fish covered in refrigerator for at least 30 minutes. On skewers arrange fish, bell peppers and pineapple chunks. Barbecue 4-6" from coals 15-20 minutes, frequently brushing remaining marinade on kabobs. Serves 1. Increase for family. This is our favorite summer creation!

Turkey Burgers

- 3 1/2 oz. ground turkey
- 1 slice onion, chopped fine
- 1/2 tsp. garlic powder
- 1 tsp. lite soy sauce
- Dash salt and pepper to taste

Mix all ingredients together and form patty. Saute burger until well done. You can even add mustard and cheddar to taste. Serves 1. Increase for a great outdoors party.

You can even make great tasting desserts that are low in carbohydrates. Here's one that you'll serve with pride:

Peach Cobbler Without Guilt

- 1 cup peaches in unsweetened juice
- 1/4 tsp. cinnamon
- 1/4 tsp. cloves
- 1/4 tsp. ginger
- Liquid sweetener to taste

Mix all ingredients together. Broil until light brown (but not too much!) Note: The longer peaches marinate in spices, the better they get! (Great in oatmeal.)

*Note: The primary ingredients in all our formulas are natural and drug free! No drug claims are made or implied in any of our materials or announcements. Our products are not intended to diagnose, cure, treat, or prevent any medical condition. Always consult your own health care provider for your best source of medical advice.

Introducing New

Serotril Accelerator

(500 mg)

-from Serotril Sciences International, Canada

Give Weight-Loss a giant "Kick Start"

SUMMER, 1998 -- Serotril Sciences International is proud to announce the release of the newest natural wellness formula, **Serotril Accelerator**. Used in conjunction with Serotril A and Serotril B, Serotril ACCELERATOR rounds out the science of wellness and intelligent weight-loss. Just take one before each main meal and suddenly proper nutritional intake can become considerably easier - without annoying hunger!

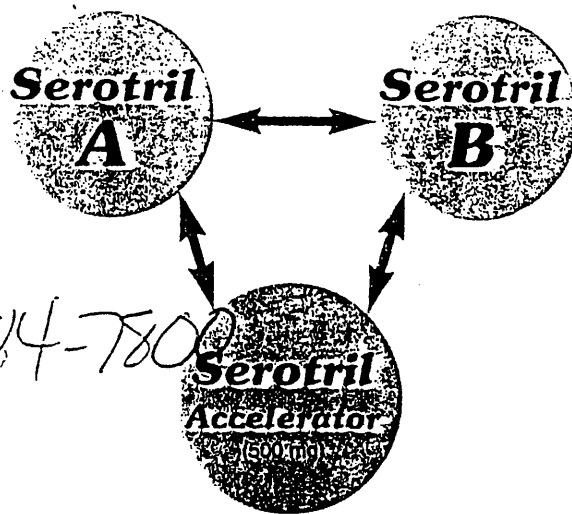

International research from respected scientists and doctors contributed to this breakthrough. First a study at the Department of Health Sciences, University of Mexico by Drs. Ramos, Saenz and Aguilar introduced the world to Garcinia Cambogia (GC) as

beneficial for weight-loss. Later at the *Experimental Biology Symposium* in San Francisco, CA (April 18-22, 1998) more evidence was presented that actually showed fat disposition was inhibited and energy was increased with GC. Consistent with the university study, Theoretical Ideal Weight was easier to reach by participants taking Garcinia Cambogia (**Serotril Accelerator** ingredient).

We followed all this closely at Serotril Sciences International and now you can experience the benefits of pharmaceutical grade Garcinia Cambogia as part of the *Serotril System*. Just take one ACCELERATOR before each main meal and feel the difference. If you haven't yet ordered please use the form below.

Take One **Serotril Accelerator** 30 Minutes to 1 Hour Before Meals With A Full Glass of Water or Juice.

Follow regular instructions for Serotril A and Serotril B.

OK: 800-784-7800

Please rush me the following quantity of new Serotril ACCELERATOR to be used along with my Serotril System:

- 30-Day Supply (60 Caplets) \$24
- 60-Day Supply (120 Caplets) \$42
- 90-Day Supply (180 Caplets) \$60
