EHS 257 Lockout/Tagout for Supervisors
Course Syllabus

Subject Category: General
Course Length: 1 hour
Delivery Mode: Web-based Training

Course Prerequisite: EHS0257 Lockout/Tagout Verification
Medical Approval: None
Frequency: Annual

Course Purpose: This course is designed for supervisors of employees who work on or near equipment with exposed hazardous energy above human vulnerability limits. This includes all maintenance, modification, calibration, and repair functions. The course is designed to define Lockout/Tagout responsibilities, acceptable practices, and procedures with respect to safety and compliance. The course stresses specific approved techniques, tools, equipment, and line management and supervision responsibilities.

Course Objectives:

1. Recall at least four possible energy sources
2. Recognize the purpose of LOTO
3. Identify the responsibilities of those involved with LOTO
4. Identify the LOTO exclusion operations
5. Identify the LBL LOTO approved lock and tag
6. Recognize when to use an LOTO lock
7. Recognize when to use an Admin lock
8. Recall who is responsible for the LOTO padlock keys
9. Identify each step involved in the general LOTO procedures
10. Identify when LOTO must be performed under a specific written procedure
11. Recall the elements of equipment specific written procedures
12. Recall when to use General Procedures
13. Identify the four steps of the Gang Lock procedures
14. Define the Emergency Removal LOTO Lock procedures
15. Identify emergency response options to accidents
16. Recall the importance of avoiding shortcuts

Subject Matter Expert: Keith Gershon

Web-based Instructional Designer: Brooke Vaughn

Course Instructional Materials: Web-based course and a PDF downloadable version of the course is available within the course.

Performance Criteria: Employees will be asked to demonstrate what they have learned from the web-based training by taking a quiz at the end of the course. Employees must pass the quiz with a 100% score to receive course credit.
