EHS 317 ~ Asbestos Class III Worker Refresher

Course Syllabus

Subject Category:	Occupational Health	Course Prerequisite:	No
Course Length:	1 Day	Medical Approval:	No
Delivery Mode:	Class		
Schedule:	Monthly (Check with EH&S Industrial Hygienist)		
Location/Time:	Offsite Vendor		

Course Purpose: This OSHA approved refresher course is a review course that teaches students two perform limited asbestos abatement activities related to maintenance work where the amount of asbestos material abated will fit into a standard 60"x60" waste bag or an asbestos glove-bag. By completing this review course, students will maintain credit as an OSHA training Class III worker and a Class III competent person.

Course Objectives:

- Review the history and uses of asbestos, health effects, and medical surveillance.
- Review the work practices and principles for handling asbestos properly related to maintenance work.
- Review how to remove asbestos using a glove-bag and by building a mini-enclosure.

Course Instructional Materials:

- PowerPoint Presentation
- Wipe Boards

Instructors: Offered by Cal Inc. in Vacaville

Training Compliance Requirements: OSHA Requirement

Course Handouts:

- Student Manual with copies of regulations
- Abatement Literature
- Latest Technology

Participant Evaluation: N/A

Written Exam: No

Practical Exam: No

Retraining/Recertification: This class is required every two years to maintain this training.
