Retirement Board Oregon Public Employees Retirement System

Re: Interim Actuarial Valuation as of December 31, 2002 Individual Employer Results

Dear Members of the Board:

We have completed the Interim Actuarial Valuation as of December 31, 2002 for all participating employers in the Oregon PERS. In general, the actuarial valuations have been performed as of December 31st of odd-numbered years. The Retirement Board authorized a special valuation as of December 31, 2002, to monitor the experience during the interim between the 2001 and 2003 valuations.

Our understanding is that Retirement Board will <u>not</u> be establishing revised employer contribution rates based on this information. Therefore, the contribution rates currently in effect will continue until the results of the December 31, 2003 valuation are completed and acted upon by the Retirement Board. This action, in the latter months of 2004, will establish new rates for employers no earlier than July 1, 2005.

This report does not require any action by the Retirement Board at this time. In the near future, we will complete a final document summarizing all of our findings.

This report summarizes certain information that will be distributed individually to each participating employer. This will not be a complete valuation, but it is designed to provide certain information to employers that may be of interest. It is important to note the following:

- 1. No actuarial assumptions or methods were revised from the 2001 Actuarial Valuation. See the attached Appendix for a summary of the key assumptions.
- 2. No Governmental Accounting Standards Board (GASB) disclosures will be produced as of December 31, 2002.
- 3. The employer contribution rates shown in this report were calculated as of December 31, 2001 and December 31, 2002 and do <u>not</u> reflect the actuarial adjustment of the 2001 rates to the July 1, 2003 effective date. Because these rates do not reflect this "lag" adjustment, the purpose of showing the employer contribution rates is to indicate the impact of the 2002 experience on future rate orders.

- 4. The employer contribution rates that will be adopted as of July 1, 2005, will include the experience for calendar year 2003. Although we might expect a gain from the 2003 investment returns, there are still significant unrecognized investment losses from prior years that will likely more than offset the potential 2003 investment gains. In addition, we will not know the impact of the demographic experience until we collect the census data after t he end of 2003.
- 5. Because this is an interim valuation, and employer rates are not being developed, we have accepted the 2002 census data with the recognition that there are some problems. We believe the data problems are not material for the actuarial findings of the System as a whole, however, the actuarial results for some individual employers may be materially impacted by these data problems. The issues that were readily identified include missing payroll or member accounts.

The results of the 2000 Interim Actuarial Valuation, the 2001 Actuarial Valuation, and the 2002 Interim Valuation are summarized below and on the following page.

Average Employer Contribution Rates as of the Valuation Date

	Change	Average Rate
2000 Valuation Actuarial (Gains) and Losses	0.46%	11.20%
2001 Valuation Actuarial (Gains) and Losses Revised Methods & Assumptions Revised Benefits	3.51 1.77 (5.84)	14.71 16.48 10.64
2002 Valuation Actuarial (Gains) and Losses Impact of Side Fund Deposits	5.71 (3.60)	16.35 12.75

The primary reason for the 2002 actuarial loss is the recent poor investment returns. We calculated a loss due to investment experience of \$7.0 billion and a slight actuarial gain from all other experience of \$0.3 billion. The amortization of the net actuarial loss over the next 25 years would result in an increase to the average employer contribution rate of 5.71% of payroll.

More details of the actuarial findings are contained on the next page and will be more fully described in the final valuation report.

^{*} Excludes Supplemental Employer Contributions deposited after the valuation date.

This report includes four Tables and an Appendix. The Appendix describes, in fairly brief terms, the information that is contained in each of the Tables. The Tables contain the following information for the Pension Plan:

Table 1 Active Membership 2002 and 2001

Annualized Salary as of December 31, 2002 and 2001

Illustrated Change in Employer Rates as of the Valuation Dates

Table 2 Actuarial Liability

Fair Market Value of Assets and Funded Ratio Actuarial Value of Assets and Funded Ratio

Actuarial Value of Assets (including Side Fund Values) and Funded Ratio

 Table 3
 Listing of Employers with Side Funds

 Table 4
 Listing of Employers with No Active Members on the Valuation Date

The findings have been determined according to actuarial assumptions and methods that were chosen on the basis of recent experience of the System and of current expectations concerning future economic conditions. In our opinion, the assumptions used in the actuarial valuation are appropriate for purposes of the valuation, are internally consistent, and reflect reasonable expectations. The assumptions represent our best estimate of future conditions affecting the System. Nevertheless, the emerging costs of the System will vary from those presented in this report to the extent that actual experience differs from that projected by the assumptions.

This report was prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the applicable Standards of Practice adopted by the Actuarial Standards Board of the American Academy of Actuaries.

Respectfully Submitted,

Mark O Johnson, F.S.A., M.A.A.A., E.A.

Principal and Consulting Actuary

(Attachment to Report dated December 9, 2003)

APPENDIX

KEY METHODS AND ACTUARIAL ASSUMPTIONS

The following is a brief summary of the methods and key actuarial assumptions used in the 2001 and 2002 Actuarial Valuations.

METHODS

Actuarial Cost Method

Entry Age Cost Method

Level percentage of future payroll

Amortization period to December 31, 2027

Asset Valuation Method

The asset smoothing method is effective for the investment experience of 2000. Annual investment gains and losses are recognized over a period of four years, and the Actuarial Value of Assets is limited to the corridor between

90% and 110% of Fair Market Value.

ECONOMIC ASSUMPTIONS

Consumer Price Inflation

3.50%

Health Cost Inflation

Graded from 8.50% in 2004 to 5.00% in 2011

General Wage Inflation

4.25%

Investment Return

8.00%

Tier One Interest Credits

No earnings were assumed to be credited to Tier One regular accounts for five years beginning with 2003 for the purposes of refunds and retirement calculations with effective dates on or after April 1, 2004. After 2007, Tier One interest credits were assumed to be 8.00% per year.

DEMOGRAPHIC ASSUMPTIONS

All demographic assumptions were adopted for use in the 2001 Actuarial Valuation and the 2002 Interim Actuarial Valuation based on the experience of the System as reported in the 2001 Experience Study.

The one exception to the assumptions adopted in the 2001 Experience Study is that service retirements from active status were assumed to be 30% higher for 2002 and 50% higher for 2003. The regular service retirement rates were applied for 2004 and beyond.

(Attachment to Report dated December 9, 2003)

APPENDIX

TABLE 1

Each employer with at least one active member in PERS as of December 31, 2002 is listed. The order is as follows:

School Districts
State Judiciary
State and Local Government Rate Pool (SLGRP)
State Agencies
Community Colleges
Local Employers Summation
Total SLGRP
Independent Employers Summation
System Totals

Local Employers in SLGRP (262) – alphabetical order within subgroup Counties
Cities
Special Districts

Independent Employers (210) – alphabetical order within subgroup Counties Cities Special Districts

- Employer Number assigned by PERS
- ♦ Employer Name
- ♦ Active Members at the end of 2002: This is the sum of the active members reported at the employer at the end of the 2002 by classification.
- ♦ Active Members at the end of 2001: For comparison, we show the total number of active members reported in the 2001 valuation.
- Annualized Salary: This is the annualized pay (without pickup) of the active members included in the 2002 valuation and the 2001 valuation.
- Employer Contribution Rates: The total employer rates calculated as of December 31, 2002 and 2001 exclude the impact of the Side Fund balances at the valuation date, the timing adjustments for the effective date of rate changes, and any minimum employer contribution for independently financed employers. In addition, these rates do not include the net impact of SB 258 and HB 2278

(Attachment to Report dated December 9, 2003)

APPENDIX

(Section 167) for Portland, Fairview, Gresham, Troutdale, and Wood Village which will be effective July 1, 2004.

- Change (Percent): The change in the employer contribution rate as of the valuation date is simply the difference between the previous two columns.
- Change (Dollars): The difference in dollars is equal to the 2002 rate multiplied by the 2002 payroll, less the 2001 rate multiplied by the 2001 payroll.

TABLE 2

Each employer with at least one active member in PERS as of December 31, 2002 is listed. The order is the same as TABLE 1. The assets and liabilities shown in TABLE 2 exclude the Post-employment Healthcare Plans.

- **Employer Number**
- **Employer Name**
- Actuarial Liability (AL)

Funded Ratio: AVA + AL

Funded Status - Actuarial Value of Assets WITH Side Funds (AVA_{SE})

(reflects smoothing of investment gains and losses plus the value of the Side Fund balance as of the valuation date)

Actuarial Value of Assets

Unfunded Actuarial Liability: AL - AVA_{SE}

Funded Ratio: AVA_{SF} ÷ AL

(Attachment to Report dated December 9, 2003)

APPENDIX

TABLE 3

This table lists each employer that has made a Side Fund contribution through the end of October of 2003. The order is the same as TABLE 1.

- **Employer Number**
- **Employer Name**
- Supplemental Deposits: Employer deposits made in 2002 and 2003, and the total, are shown for those situations in which a Side Fund has been established.
- Amortization of 2002 Side Funds: A portion of the 2002 deposits has been used to offset a reduction in employer contributions in 2002.
- Value of Side Funds at December 31, 2002: The Supplemental Deposits shown are adjusted for actual interest credited and the amortization of contribution offsets for 2002.
- Original Rate Reductions: This is the reduction in employer contribution rates established at the first of the month after the deposit.
- 12/31/02 Rate Reductions: This represents an interim estimate of the revised rate reduction based on actual interest credits in 2002 and actual 2002 salaries. Note this item is for illustration only, and rate adjustments will not be made until the results of the 2003 valuation are known.

TABLE 4

This table lists each employer that did not have any active members reported as of December 31, 2002. For independently funded employers (those not in the SLGRP) we have shown the funded status using both the fair market value of assets and the actuarial value of assets.
