Introduction

This report presents data on federal government aid to state and local governments by state and U.S. Outlying Area. Coverage is restricted to federal government expenditures for grants and other financial assistance to state and local governments for which data are available by state and outlying area. For fiscal year 2003 (October 1, 2002, to September 30, 2003), the statistics compiled cover \$385.7 billion. The data are shown by federal agency and program whenever possible.

This report also is available on the U.S. Census Bureau's Internet site at www.census.gov/govs/www/cffr.html.

CONSOLIDATED FEDERAL FUNDS REPORT SERIES

Federal Aid to States

This *Federal Aid to States* (FAS) report is one of two publications comprising the Consolidated Federal Funds Report (CFFR) series. The other publication is the *Consolidated Federal Funds Report for Fiscal Year 2003, State and County Areas*. For both publications, the data have been consolidated and tabulated in a standard format by the U.S. Census Bureau under the auspices of the U.S. Office of Management and Budget. The FAS report presents information similar to the grant data in the CFFR state and county areas publication, except that in this report grants to state and local governments represent actual expenditures of the federal government, and only grants to state and local governments are included. In the CFFR publication, federal grants generally represent obligations, and payments to state and local governments are not distinguished from grants to nongovernmental recipients.

All amounts of federal government grants and other payments to state and local governments represent actual cash outlays made during the fiscal year. Each federal government executive department and agency maintains annual data on grants and other payments to governmental units pursuant to Office of Management and Budget (OMB) Circular A-11. The data are collected from federal agencies by the Census Bureau.

Prior to 1983, such data were incorporated into the report *Federal Aid to States*, published by the Department of the Treasury. The Treasury Department collected and published federal grants data in accordance with the former Treasury Circular 1014 and the annual Treasury Financial Manual. Both of these contained definitions and reporting guidelines consistent with OMB Circular A-11 and the current Census Bureau reporting guidelines.

For the years 1981 through 1997, the Census Bureau published the series, Federal Expenditures by State (FES). Table 2 of the FES publication covered "grants and other payments to state and local governments." Table 2 of FES provided statistics equivalent to those found in the Treasury Department's Federal Aid to State series, as well as the Census Bureau's current *Federal Aid to States* publication. In addition, the Federal Expenditures by state series published statistics on salaries and wages, direct payments for individuals, procurement, and other programs. These other statistics are now being published as part of the *Consolidated Federal Funds Report for Fiscal Year 2003, State and County Areas*.

Hence, the Census Bureau publication *Federal Aid to States*, Table 2 of the previous Census Bureau publication *Federal Expenditures by State*, and the previous Treasury Department publication *Federal Aid to States* provide users with historically consistent statistics on federal agency payments to state and local governments.

Federal government aid to state and local governments includes the following:

1. Direct cash grants to state or local government units.
2. Payments for grants-in-kind, such as purchases of commodities distributed to state or local government institutions (e.g., School Lunch and Breakfast programs).
3. Payments to nongovernment entities when such payments result in cash or in-kind services passed on to state or local governments.
4. Payments to regional commissions and organizations that are redistributed to the state or local level.
5. Federal government payments to state and local governments for research and development that is an integral part of the provision of public services.
6. Federal revenues shared with state and local governments.

It should be noted that the outlays covered in Table 1 exclude federal government payments to individuals, profit or nonprofit institutions not covered above, and payments for services rendered. Grants to individuals and profit or nonprofit institutions and payments for services rendered are covered in the CFFR report.

The examination and edit process the Census Bureau uses includes a comparison of reported data to information submitted for the prior year, and to budget amounts supplied by the Office of Management and Budget. All grants data are reconciled by budget account and to budget figures that each federal agency is required to submit annually to OMB, in accordance with OMB Circular A-11. Discrepancies are brought to the attention of the reporting agencies and, where warranted, revisions are made. The Office of Management and Budget also provides assistance in the classification of grants and in ensuring compliance with the reporting requirements.

State and County Areas Report

The CFFR state and county areas publication covers domestic federal expenditures for all object categories (direct payments, grants, procurement, and salaries and wages). The CFFR report also covers three nonexpenditure object categories (direct loans, guaranteed loans, and insurance). Users should consult the introductory text in the CFFR state and county areas publication for detailed explanations of the data reported there.

The work schedule employed by the Census Bureau in the collection and processing of Fiscal Year (FY) 2003 FAS data can be described approximately as follows:

September 30, 2003	Federal FY 2003 ended.
October 15, 2003	Requests made for annual FY 2003 FAS data sources.
April 30, 2004	Received final annual FY 2003 FAS data sources.
July 31, 2004	Completed processing all annual FY 2003 FAS data.
August 1— September 15, 2004	Conducted final analytical research and prepared text, data table, and appendix for publication copy.
September 30, 2004	Release of printed publication, <i>Federal Aid to States for Fiscal Year 2003</i> .

RELIABILITY OF THE DATA

Coverage Error and Nonresponse

Federal government departments and agencies provide all data in this report. Data are reviewed for accuracy and consistency, and compared to actual outlays in the federal budget to assure reasonableness and proper coverage. No attempts have been made to account for all federal government grants or expenditures as reported in the federal budget, or as presented in the Census Bureau annual reports on government finances. The actual expenditure (outlay) data that comprise Table 1 in this report are obtained from a direct mailing to more than 50 departments and agencies of the federal government. Respondents were asked to provide a state-by-state (plus outlying

areas) distribution of outlays made to state and local governments during fiscal year 2003. These data represent not only outlays made, but also in-lieu-of-tax payments, and various revenues shared with state and local governments. Because of the limited size of the respondent universe, nonresponse is generally not a problem, although tardy submission of data by federal agencies occasionally requires the Census Bureau to use alternative data sources, such as the Federal Assistance Award Data System (FAADS).

Wherever possible, this report uses statistics representing actual expenditures of the federal government during the fiscal year. Each agency reports a program/project name and/or budget account number to identify separately each project or budget account from which expenditures were made. Table 1 is an organized compilation, by department and agency and/or program, of nearly 500 of these state-by-state expenditure reports. Appendix A presents further detail about the individual expenditure programs that underlie the categories presented in Table 1.

Processing and Response Error

Because FAS uses imported electronic data files that have been completed by the various federal agencies, Census Bureau processing involves summations and sorting, but little if any data keying. Routine edits applied to FAS data are, therefore, primarily intended to identify and correct keying or calculation errors made by respondents. Trend analysis on multiyear data series is employed to identify significant anomalies and interruptions in the kind of relative continuity expected of high dollar mandatory and discretionary programs.

Coding

Geographic coding standards are applied to original data, whose submitting agencies employ varying geocoding reference files and methods. Data are sorted and grouped by geographic, agency, and program categories, and subjected to verification edits and trend analysis as discussed above.

AVAILABILITY OF DATA

Print copies of the publication *Federal Aid to States for Fiscal Year 2003*, are available from Governments Division, U.S. Census Bureau, Washington, DC 20233-6800; telephone 301-763-1565. The publication is also available in PDF format at the Web site <http://www.census.gov/govs/www/cffr.html>.
